Sacrifice In Religious Experience:

Sacrifice in Religious Experience Albert I. Baumgartner, 2018-09-24 This book presents revised papers delivered at the 1998 and 1999 Taubes Minerva Center for Religious Anthropology conferences The papers from the 1998 conference discuss the role of sacrifice in religious experience from a comparative perspective Those from the second conference examine alternatives to sacrifice The first theme has been much elaborated in recent scholarship and the essays here participate in that ongoing inquiry The second theme has been less explored and the goal of this volume is to stimulate examination of the topic by offering a set of test cases In both sections of the volume a wide variety of religious traditions are considered The essays show that in spite of the inclination we may sometimes have to consider sacrifice part of the idolatrous past long overcome it remains a persistent and meaningful part of religious experience Understanding Religious Sacrifice

Jeffrey Carter, 2003-03-01 This volume provides a thorough introduction to the major classic and modern writings dealing with religious sacrifice Collected here are twenty five influential selections each with a brief introduction addressing the overall framework and assumptions of its author As they present different theories and examples of sacrifice these selections also discuss important concepts in religious studies such as the origin of religion totemism magic symbolism violence structuralism and ritual performance Students of comparative religion ritual studies the history of religions the anthropology of religion and theories of religion will particularly value the historical organization and thematic analyses presented in this collection

The Varieties of Religious Experience William James, 2023-11-17 In William James The Varieties of Religious Experience the author delves into the subjective nature of religious experiences emphasizing individual perspectives and the diversity of religious beliefs and practices Through a collection of lectures James explores the psychological aspects of religion drawing on a wide range of examples to illustrate his points The book is written in a clear and engaging style making it accessible to both scholars and general readers interested in the intersection of psychology and religion Published in 1902 The Varieties of Religious Experience is considered a seminal work in the field of religious studies and continues to be referenced by scholars today William James a pioneer in psychology and philosophy was influenced by his own personal experiences with religion which inspired him to explore the ways in which individuals interpret and experience the divine This book is recommended for anyone seeking a deeper understanding of the complexities of religious belief and the human psyche

The Cambridge Companion to Religious Experience Paul K. Moser, Chad Meister, 2020-07-16 Offers a state of the art contribution by providing critical analyses of and creative insights to the nature of religious experience

Acute Religious Experiences Richard Saville-Smith, 2023-02-09 This book engages the problem of how in the 21st century we are to speak about experiences of the extraordinary anomalous extreme which occur on a transhistorical and transcultural basis Critical readings of seminal texts show how 20th century theoreticians in the humanities sought to erase madness from their irrational subjects This propensity to sanitize madness in the study of religions was mirrored by the

instinct of psychiatrists to degrade religious experiences by reducing mad consciousness to psychosis or dissociation Richard Saville Smith introduces explanatory pluralism as a way of recognizing these disciplinary biases and mad studies as a way of negotiating this understanding The disproportionate significance of madness in shaping the fabric of the human story can then be recovered from both erasure and dismissal to be given the recognition previously denied as acute religious experiences Acute Religious Experiences divides into three sections beginning with re readings of William James s pathological programme Rudolf Otto s numinous T K Oesterreich s possession Mircea Eliade s shamanism Walter Stace s mysticism Walter Pahnke s psychedelic experience and Abraham Maslow s peak experiences These ideas are shown to constitute the beginnings of a fractured discourse on the irrational In part two contemporary psychiatry s Diagnostic and Statistical Manual DSM and Foucault s History of Madness are re read to reposition madness as not necessarily pathological This opens the way for the identification of acute religious experiences as a new holistic and post colonial approach through which religious data can be organized and addressed on a comparative basis In part three The Gospel of Mark is re read as a case study to demonstrate the novel insights which flow from the identification of acute religious experiences Richard Saville Smith draws on his own experiences of madness and his PhD from the School of Divinity at The University of Edinburgh to elucidate his research
