Sacrificing The Self Martyrdom In World Religions:

Sacrificing the Self Margaret Cormack, 2002-07-18 Acts of martyrdom have been found in nearly all the world's major religious traditions. Though considered by devotees to be perhaps the greatest expression of religious faith, martyrdom is also one of the most difficult concepts for modern observers of religion to understand. This is especially true in the West where martyrdom has all but disappeared and martyrs in other cultures are often dismissed as fanatics. Cormack seeks to foster a greater understanding of these acts by explaining how martyrdom has historically been viewed in the world's major religions. She provides the first sustained cross-cultural examination of this fascinating aspect of religious life. **Martyrdom,**

Self-Sacrifice, and Self-Immolation Margo Kitts, 2018-05-01 The essays in *Martyrdom, Self-Sacrifice, and Self-Immolation* address the delicate subject of those elective deaths which can be categorized as religiously sanctioned suicides. Broadly condemned as cowardice across the world's moral codes, suicide under certain circumstances such as martyrdom, self-sacrifice, or self-immolation historically carries a dynamic importance in religious legends, some tragic and others uplifting.

Sacrificing the Self Margaret Cormack, 2002-07-18 Acts of martyrdom have been found in nearly all the world's major religious traditions. Though considered by devotees to be perhaps the most potent expression of religious faith, dying for one's god is also one of the most difficult concepts for modern observers of religion to understand. This is especially true in the West where martyrdom has all but disappeared and martyrs in other cultures are often viewed skeptically and dismissed as fanatics. This book seeks to foster a greater understanding of these acts of religious devotion by explaining how martyrdom has historically been viewed in the world's major religions. It provides the first sustained cross-cultural examination of this fascinating aspect of religious life. Margaret Cormack begins with an introduction that sets out a definition of martyrdom that serves as the point of departure for the rest of the volume. Then scholars of Christianity, Judaism, Hinduism, and Islam examine martyrdom in specific religious cultures. Spanning 4000 years of history and ranging from Saul in the Hebrew Bible to Sati immolations in present-day India, this book provides a wealth of insight into an often noted but rarely understood cultural phenomenon. **The Shifts in Hizbullah's Ideology** Joseph Alagha, 2025-10-01 The Lebanese Shi'ite resistance movement Hizbullah is going through a remarkable political and ideological transformation. Hizbullah was founded in 1978 by various sectors of Lebanese Shi'ite clergy and cadres and with Iranian backing as an Islamic movement protesting against social and political conditions. Over the years, 1984-85 to 1991, Hizbullah became a full-fledged social movement in the sense of having a broad overall organization structure and ideology aiming at social change and social justice as it claimed. Starting in 1992, it became a mainstream political party working within the narrow confines of its pragmatic political program. The line of argument in this dissertation is that Hizbullah has been adjusting its identity in the three previously mentioned stages by shifting emphasis among its three components: 1) from propagating an exclusivist religious ideology, 2) to a more encompassing political ideology, and 3) to a down-to-earth political program.

Constructing Religious Martyrdom John Soboslai, 2024-06-27 Martyrdom is a phenomenon common to many of the world s religious traditions But why In this study John Soboslai offers insights into the practices of self sacrifice within specific sociopolitical contexts Providing a new understanding of martyrdom through the lens of political theology he analyzes discourses and performances in four religious traditions during social and political crises beginning with second century Christianity in Asia Minor where the term martyr first took its meaning He also analyzes Shi a Islam in the 1980s when suicide bombing first appeared as a strategy in West Asia global Sikhism during World War I where martyrs stood for and against the British Raj and twenty first century Tibetan Buddhism where self immolators used their bodies in opposition to the programs of the People s Republic of China Presenting a new theory of martyrdom linked to constructions of sovereign authority Soboslai reveals common features of self sacrifice and demonstrates how bodily performances buttress conceptions of authority

A Fatal Addiction Thomas Block, 2012 America one of the most religious countries in the world is also the most violent Do God and war define the American spirit as much as apple pie and baseball This unsettling book illustrates how bellicose war like language is used to explain the spiritual quest It explores the violence of God tradition as it exists in all religions including Buddhism and then examines how this dynamic is flipped with political leaders using spiritual and religious language to sell war to the general public Although God and religion have often been used to sell war in the United States this has been especially true since 9 11 After surveying the relationship of war and the spiritual quest in the major world religions this study concludes with an overview of how that dynamic has affected the contemporary American public discourse on war Does this intermingling of war and spirituality prepare the population for the coming of war The institutional blending of the sacred and human aggression appear to be fundamental to human society The second section of the book concentrates on the political language and speeches of American politicians since 2002 following the run up to the Iraq war and its continuation over the past decade showing how this mystical war conflation permeates American society

Dying to Win Robert Pape, 2006-07-25 Includes a new Afterword Finalist for the Council on Foreign Relations Arthur Ross Book Award One of the world s foremost authorities on the subject of suicide terrorism the esteemed political scientist

Robert Pape has created the first comprehensive database of every suicide terrorist attack in the world from 1980 until today. In *Dying to Win*, Pape provides a groundbreaking demographic profile of modern suicide terrorist attackers and his findings offer a powerful counterpoint to what we now accept as conventional wisdom on the topic. He also examines the early practitioners of this guerrilla tactic, including the ancient Jewish Zealots who in A.D. 66 wished to liberate themselves from Roman occupation, the Ismaili Assassins, a Shi'ite Muslim sect in northern Iran in the eleventh and twelfth centuries, World War II's Japanese kamikaze pilots (three thousand of whom crashed into U.S. naval vessels), and the Tamil Tigers in Sri Lanka, a secular Marxist-Leninist organization responsible for more suicide terrorist attacks than any other group in history. *Dying to Win* is a startling work of analysis grounded in fact, not politics, that recommends concrete ways for states to fight and prevent terrorist attacks. Now transcending speculation with systematic scholarship, this is one of the most important studies of the terrorist threat to the United States and its allies since 9/11. Invaluable, it gives Americans an urgently needed basis for devising a strategy to defeat Osama bin Laden and other Islamist militants. Michael Scheuer, author of *Imperial Hubris*, Provocative: Pape wants to change the way you think about suicide bombings and explain why they are on the rise. Henry Schuster, CNN.com. Enlightening: sheds interesting light on a phenomenon often mistakenly believed to be restricted to the Middle East. The Washington Post Book World. Brilliant. Peter Bergen, author of *Holy War Inc.* *Religion and Violence*. Dominic Arcamone, 2016-02-25. The aim of *Religion and Violence* is to engage dialectically key symbols of religiously motivated violence through the insights of Bernard Lonergan. Sociologists and psychologists argue the link between religion and violence, but religion is viewed more as part of the problem and not part of the solution to violence. Bernard Lonergan's insights have helped the author arrive at a number of conclusions regarding the link between religion and violence. He argues that there is a difference between distorted religion and genuine religion, between authenticity and inauthenticity of the subject. Distorted religion has the capacity to shape traditions in ways that justify violence, while genuine religion heals persons, helps them make different moral decisions when confronted with situations of conflict, and aims to explore new ways of understanding themselves as shaping history toward progress.
