The Secret Teachings of All Ages Manly Palmer Hall, 2020-09-28

NUMEROUS volumes have been written as commentaries upon the secret systems of philosophy existing in the ancient world but the ageless truths of life like many of the earth's greatest thinkers have usually been clothed in shabby garments The present work is an attempt to supply a tome worthy of those seers and sages whose thoughts are the substance of its pages To bring about this coalescence of Beauty and Truth has proved most costly but I believe that the result will produce an effect upon the mind of the reader which will more than justify the expenditure Work upon the text of this volume was begun the first day of January 1926 and has continued almost uninterruptedly for over two years The greater part of the research work however was carried on prior to the writing of the manuscript The collection of reference material was begun in 1921 and three years later the plans for the book took definite form For the sake of clarity all footnotes were eliminated the various quotations and references to other authors being embodied in the text in their logical order The bibliography is appended primarily to assist those interested in selecting for future study the most authoritative and important items dealing with philosophy and symbolism To make readily accessible the abstruse information contained in the book an elaborate topical cross index is included I make no claim for either the infallibility or the originality of any statement herein contained I have studied the fragmentary writings of the ancients sufficiently to realize that dogmatic utterances concerning their tenets are worse than foolhardy Traditionalism is the curse of modern philosophy particularly that of the European schools While many of the statements contained in this treatise may appear at first wildly fantastic I have sincerely endeavored to refrain from haphazard metaphysical speculation presenting the material as far as possible in the spirit rather than the letter of the original authors By assuming responsibility only for the mistakes which may appear herein I hope to escape the accusation of plagiarism which has been directed against nearly every writer on the subject of mystical philosophy Having no particularism of my own to promulgate I have not attempted to twist the original writings to substantiate preconceived notions nor have I distorted doctrines in any effort to reconcile the irreconcilable differences present in the various systems of religious philosophic thought The entire theory of the

book is diametrically opposed to the modern method of thinking for it is concerned with subjects openly ridiculed by the sophists of the twentieth century Its true purpose is to introduce the mind of the reader to a hypothesis of living wholly beyond the pale of materialistic theology philosophy or science The mass of abstruse material between its covers is not susceptible to perfect organization but so far as possible related topics have been grouped together The World's Legacy Pasquale De Marco,2025-04-30 Embark on a captivating journey through time and space as you delve into the mysteries of ancient civilizations explore the secrets of the universe and unlock the potential of the human mind Within these pages you will discover a world where echoes of the past reverberate in the present where guardians of knowledge hold the keys to forgotten wisdom and where celestial influences shape our destiny Unravel ancient prophecies and legends uncover the secrets of sacred sites and energy vortices and explore the realms of the spirit where life and death intertwine Uncover the power of ancient healing practices and delve into the depths of the human psyche unlocking the secrets of the subconscious mind and exploring the vastness of consciousness Discover the interconnectedness of all things and the profound impact of our choices on the future of humanity This book is an invitation to embark on a quest for knowledge self discovery and enlightenment Through its pages you will gain a deeper understanding of the universe and your place within it Prepare to be captivated by the mysteries of the world and inspired to create a future filled with wisdom compassion and unity If you like this book write a review on google books **Secret Teachings of All Ages** Manly Palmer Hall,2005-02-09 Manly Palmer Hall wrote this book at age twenty one and self published it later in his mid twenties The book is pure conceptual truth without bogging ourselves down with the details Great read for anyone who likes Joseph Campbell and wishes to follow up on the Power of Myth and get into the right hand occult
