that serious secrets showed up that could not be dressed in humor but seemed important to include There are different kinds of secrets in this book and I won't define secrets any more than stating that a secret is something that provides some insight for the journey of life Some are so obvious that we wonder how we ever missed them or realize that we have heard them but went right on by and didn't stop to take them to heart or to mind Still others are counter intuitive and so we have to stop and read them again and perhaps turn our thinking to a new direction After you read awhile you will notice some redundancy Similar secrets are found in different sections
