The Shape of Spirituality Dick Houtman, Galen Watts, 2024-10-15 Around 20 percent of Americans fall into the category of spiritual but not religious Yoga has become a ubiquitous pastime for middle class Westerners Mindfulness is increasingly incorporated into school curricula sports programs and even corporate culture Hollywood icons and Silicon Valley trendsetters tout the benefits of a spiritual life These developments reflect a widespread turn away from religion toward spirituality Yet the nature of this spiritual turn is still poorly understood and its consequences sorely underappreciated The Shape of Spirituality brings together leading sociologists to challenge common notions that spirituality is individualistic privatized and apolitical and to make the definitive case for its social and political significance Contributors examine the sweeping influence of spirituality on a variety of realms

including health care and therapeutic practice popular culture civic engagement public protest conspiracy culture and progressive politics Leveraging cutting edge quantitative and qualitative data this authoritative book makes clear that far from being marginal and inconsequential spirituality holds profound public importance today *Religion and Mass Electoral Behaviour in Europe* David Broughton,Hans-Martien ten Napel,2000-12-14 The onset of a new millennium has given renewed impetus to the study of religion and its place in the secular world Religion and Mass Electoral Behaviour in Europe is an innovative cutting edge study which focuses on the question of whether and how religion continues to influence and shape electoral behaviour across Europe With exceptional detail this book presents empirical data drawn from a range of country case studies to provide examples of different religious experiences and relationships Louis Jacobs and the Quest for a Contemporary Jewish Theology Miri Freud-Kandel,2023-10-15 For Louis Jacobs the quest the process of engaging with and thinking about Jewish faith was a lifelong pursuit He offered a model in the 1960s a period characterized by general religious crisis of an observant committed but intellectually curious Judaism that empowered individual seekers to address challenges to faith In Orthodox Judaism at the time a battle was under way for religious control Generating a widespread controversy in British Jewry known as the Jacobs Affair his thought offers a lens for examining the trajectory of Orthodoxy In a contemporary context marked by the changing cultural and intellectual concerns of a post secular age the focus of some of these debates over religious control has shifted Yet Jacobs emphasis on a personal quest is as relevant as ever perhaps more so This first book length analysis of his theology unpacks the building blocks of his thought It argues that despite its particularities and limitations his approach can provide a powerful model for contemporary religious seekers in the context of a growing impetus away from established denominationally bound forms of religion Many orthodox believers across a range of faiths continue to prefer the certainty of unquestionable religious truth claims rather than pursuing a subjective search for religious meaning For those seeking alternative models for the contemporary Jewish quest a reconsideration of Jacobs theology can offer valuable tools **Sacro-Egoism** John S. Knox,2016-05-10 Sacro Egoism The Rise of Religious Individualism in the West discusses the relationship between secularization participation in religious practices and belief and the emergence of radical individualized expressions of faith in the West Using McMinnville Oregon as a case study it presents the data collected and analyzed from several churches denominations and spiritual settings in that unassuming town and compares it to the results of Heelas and Woodhead s Spiritual Revolution project arriving at a provocative conclusion Rather than abandoning Christianity for alternative spirituality practices McMinnville citizens still feel strongly about their Christian faith taking their spiritual walk to a more personal level than ever before in church history Utilizing both quantitative and qualitative research along with personal stories of faith and exploration from McMinnville residents themselves Sacro Egoism The Rise of Religious Individualism in the West tells a story of radical individualists who have become the highest religious authority in their lives even over the church the Bible and traditional Christian society *The*

Deconstruction of Dualism in Theology Gillian McCulloch, 2002 *Between Horror and Hope* is a study of Paul's metaphorical language of death in Romans 6:1-11. The scholarly debate focuses on two main issues: the origin of the commentary tradition and its development. Dr Sabou argues that the origin of this terminology is original to Paul; that it was the apostle's own insight into the meaning of Christ's death—a death to sin—and his understanding of the identity of Christ in his death as the anointed Davidic king which guided him to create this metaphor of dying to sin as a way of describing the relationship of the believer with sin. On the development of this language of death, the author argues that this language conveys two aspects: horror and hope. The first is discussed in the context of crucifixion, in which Paul explains the believer's death to sin by presenting Christ's death as the death of the anointed Davidic king who won the victory over sin and death by rising from the dead. Paul affirms that believers are coalesced with what was proclaimed about Christ's death and resurrection, thereby allowing him to assert that the releasing of the body from the power of sin is a result of crucifixion. This crucifixion is the condemnation inflicted on our past lives in the age inaugurated by Adam's sin, and this is such a horrible event that believers have to stay away from sin since sin leads to such punishment. In contrast, hope is presented in the context of burial. The believer's burial with Christ points to the fact that they are part of Christ's family, and this is accomplished by the overwhelming action of God by which he pushes us toward the event of Christ's death, an act pictured in baptism. It is this burial with Christ that allows believers to share with Christ in newness of life.

Periodizing Secularization Clive D. Field, 2019-10-31 Moving beyond the now somewhat tired debates about secularization as paradigm, theory, or master narrative, *Periodizing Secularization* focuses upon the empirical evidence for secularization viewed in its descriptive sense as the waning social influence of religion in Britain. Particular emphasis is attached to the two key performance indicators of religious allegiance and churchgoing, each subsuming several sub-indicators between 1880 and 1945, including the first substantive account of secularization during the fin de siècle. A wide range of primary sources is deployed, many of them relatively or entirely unknown, and with due regard to their methodological and interpretative challenges. On the back of them, a cross-cutting statistical measure of active church adherence is devised, which clearly shows how secularization has been a reality and a gradual, not revolutionary, process. The most likely causes of secularization were an incremental demise of a Sabbatarian culture coupled with the associated emergence of new leisure opportunities and transport links, and of religious socialization in the church at home and in the school. The analysis is also extended backwards to include a summary of developments during the eighteenth and early nineteenth centuries, and laterally to incorporate a preliminary evaluation of a six-dimensional model of diffusive religion, demonstrating that these alternative performance indicators have hitherto failed to prove that secularization has not occurred. The book is designed as a prequel to the author's previous volumes on the chronology of British secularization: *Britain's Last Religious Revival* (2015) and *Secularization in the Long 1960s* (2017). Together, they offer a holistic picture of religious transformation in Britain during the key secularizing century of 1880-1980.
