Japan's Security and Economic Dependence on China and the United States Keisuke Iida, 2017-07-06 With the rise of

China Japan and many East Asian countries are caught between maximizing profit from economic ties with her and strengthening alliances with the United States to prevent China from overpowering them Liberals and realists thus debate over the likelihood of either security tensions easing up or economic interdependence getting reduced eventually On the other hand Iida introduces a new theory that reinterprets the relationship between state security and economic interdependence among countries in the Asia Pacific region Based on case studies of recent episodes in East Asia and especially on the experiences of Japan this book highlights an interesting dynamic between security and economic interdependence risk avoidance By understanding how risk avoidance affects the behavior of these countries in terms of security and economics it becomes evident how they eventually settle into what Iida calls Cool Politics and Lukewarm Economics

The Geopolitics of Australia's Regional Relations D. Rumley, 2001-06-30 The origins of this book go back 30 years to the stimulation and interest generated by the political geography seminars led by John House at the University of Newcastle Upon Tyne I was very fortunate to graduate among its extremely capable sporty and enthusiastic class of 68 from where several academic geographers emerged Equally fortunately some of them and their predecessors had already blazed a trail to undertake graduate studies in Canada At the University of British Columbia I was supervised at different times by Julian Minghi and Victor Prescott both of whom are not only extremely capable academics but are also very fine people I owe an enormous debt to John Julian and Victor and to the British and Canadian taxpayers who provided financial support for my University studies In 1974 I began an academic career at the University of Western Australia where I have been ever since save for a two year period from 1991-3 as Professor of Australian Studies in the Department of International Relations at the University of Tokyo Viewing Australia and the Asia Pacific region from this different perspective within an extremely supportive Japanese environment had a profound impact I am especially grateful for the support provided by so many Japanese academic colleagues and friends beginning as early as 1976 Three individuals deserve special mention for their help guidance and enduring friendship George Ohshima Hiroshi Tanabe and Akihiro Kinda

The Transformation of Security in the Asia/Pacific Region Desmond Ball, 2013-10-14 The security architecture of the Asia Pacific region is in a profound transformation Such changes are not without problems which are discussed here

Asian Security and the Rise of China David Martin Jones, Michael Lawrence Rowan Smith, Nicholas Khoo, 2013-01-01 Khoo Jones and Smith have pulled off a remarkable balancing act crafting a well grounded and multifaceted survey of China's rise in the context of Asian security In a field which is often marked more by scholarly effervescence than

substance the authors provide a refreshingly detailed portrait of the last two decades and fair mindedly point out evidence which might support both extremes of the debates they challenge with their own third way

Frank Scott Douglas US Naval War College US Congratulations to the authors for a clearly argued and comprehensive treatment of China's post Cold War rise and what it means for existing and future dynamics of the Asia Pacific region Effectively employing realist theory in a fair minded treatment of regional developments the volume shows how and why power realities are more important than non material factors in determining the region's trajectory and thereby demonstrates that China's ascendance in Asia remains complicated and conflicted

Robert Sutter George Washington University US East Asia is without question a region of huge economic political and security significance Asian Security and the Rise of China offers a comprehensive overview and assessment of the international politics of the Asia Pacific since the end of the Cold War seeking to address the overarching question of how we can most convincingly explain the central dynamics of Asia's international relations Via a realist perspective on the dynamics and frictions associated with accommodating the rise of powerful states this timely book addresses the core issue in contemporary Asian politics the rise of China The contributors expertly evaluate China's rise and the impact it has had on the dynamics of regional relations in North East and South East Asia It demonstrates that China's economic development and its regional and international ambition increasingly conflict with the existing consensus based regional arrangements like the ASEAN Regional Forum and the East Asian Summit mechanism As a consequence smaller states in the region increasingly resort to hedging and balancing strategies in an attempt to mitigate Chinese hegemony This leaves the region in the grip of a complex and potentially destabilizing security dilemma The book offers a compelling analysis of the problem that China presents for its region that will enlighten undergraduate students of regional political studies and international relations Postgraduate and Master's students on courses addressing East and South East Asia will also find plenty of information in this invaluable book

Japanese Defence Syed Javed Maswood,1990 This book focuses on the defence policy of the Nakasone administration and attempts to provide an explanation for the policy measures which its administration implemented or initiated It suggests that the widening disparity between economic interests and political power forced Japan to review the traditional bases for defence policy making and prompted the search for a balance that would allow the country a more active role in the international sphere The book is organized around the central theme that Nakasone's defence policy can be understood as an attempt to rehabilitate Japan as a normal state and end the state of affairs that had relegated it to a unique and low position

Satow's Diplomatic Practice Ivor Roberts,2023-08-29 An indispensable guide for anyone working in or studying the field of diplomacy this eighth edition of Satow's Diplomatic Practice provides a comprehensive overview and analysis of all areas of diplomacy and diplomatic practice

Proceedings of the 2024 3rd International Conference on Economics, Smart Finance and Contemporary Trade (ESFCT 2024) Kun Zhang, Hang Luo, Hongbo Li, Azlina Binti Md Yassin,2024-10-19 This book is open access About ESFCT 2024 2024 3rd

International Conference on Economics Smart Finance and Contemporary Trade ESFCT2022 has been successfully held on July 22-24, 2022, in Xi'an, China. ESFCT2023 has been held on July 28-30, 2023, in Dali, China. In the ever-evolving landscape of global economics, the integration of smart finance and the intricacies of contemporary trade practices play a pivotal role in shaping the future of economies around the world. The 3rd International Conference on Economics Smart Finance and Contemporary Trade ESFCT 2024 serves as a premier forum for academics, researchers, professionals, and policymakers from various disciplines to engage in a comprehensive discussion on the latest trends, challenges, and advancements in the field. ESFCT 2024 aims to foster a deeper understanding of the dynamic interplay between economic theories, the innovative application of smart financial instruments, and the evolving nature of global trade dynamics.

Research Background The landscape of global finance and trade has been undergoing substantial transformations driven by technological advancements, shifts in geopolitical relations, and changing consumer behaviors. The emergence of smart finance, characterized by the application of blockchain, artificial intelligence, and big data analytics, has revolutionized the way financial services are delivered and consumed. Concurrently, contemporary trade practices are adapting to new realities, including the rise of e-commerce, changes in supply chain management, and the increasing importance of sustainability considerations. Amidst these shifts, understanding the economic implications of these trends is crucial for policymakers, businesses, and researchers alike.

Research Status Current research in the domain of economics, smart finance, and contemporary trade is vast and multifaceted, reflecting the complexity of the global economic system. Theories of economic growth and development continue to evolve, incorporating insights from behavioral economics, environmental economics, and the study of economic resilience. In the realm of smart finance, significant progress has been made in exploring the potential of technologies like blockchain for enhancing transparency, reducing fraud, and facilitating more efficient transactions. Similarly, research on contemporary trade practices is focusing on the impact of trade wars, the reconfiguration of global supply chains, and the role of international trade agreements in shaping economic outcomes.

Research Objectives The primary objectives of ESFCT 2024 are to:

1. Provide an interdisciplinary platform for sharing the latest research findings, innovative ideas, and best practices in the fields of economics, smart finance, and contemporary trade.
2. Foster collaboration among participants from academia, industry, and government to address the complex challenges facing the global economy.
3. Highlight the implications of recent technological advancements for financial services, trade practices, and economic policy.
4. Explore the interconnections between economic theory, financial innovation, and trade dynamics, with a particular focus on sustainability and inclusion.
5. Encourage the development of forward-looking strategies that leverage the potential of smart finance and contemporary trade to promote economic growth and resilience.

Command Magazine, 1978. *Japan's Defense Policy and Bureaucratic Politics, 1976-2007*. Takao Sebata, 2010-06-05. This book examines Japan's military expansion and the decision-making of her defense policy between 1976 and 2007. It explores how the bureaucratic politics model

applies to the case of Japan's defense policy and demonstrates some similarities and differences between Japanese East Asian Security Michael Edward Brown, Sean M. Lynn-Jones, Steven E. Miller, 1996 East Asian Security examines some of the most important strategic questions about the future of East Asia. It includes provocative essays that explore the overall prospects for war, peace and stability in the region. Other essays focus on the likely strategies that China and Japan will pursue at the dawn of the next millennium. Students, scholars and analysts of contemporary issues will find East Asian Security to be a stimulating and valuable overview of these questions. India and Japan: Growing Partnership and Opportunities for Co-operation D Dhanuraj, 2019-08-26 This e-book is a compilation of the papers presented by the speakers during a two-day International Conference curated around the theme India and Japan Growing Partnership and Opportunities for Cooperation organised by CPPR Centre for Strategic Studies Kochi in collaboration with the Consulate General of Japan in Chennai on February 26-27, 2019 at Riviera Suites in Kochi. It consists of eight chapters providing a comprehensive outlook on India-Japan relations. **Command Policy, China - Neighboring Asian Countries Relations** Li Xiangyang, 2013-03-01 China has a myriad and diverse range of neighbours who are significant in their own right but are also of global importance. Asia accounts for 25% of global GDP. This book evaluates the potential for both co-operation and conflict within the Asian region. Border problems and historical problems are still plaguing countries in the region and are affecting the relations between them. China and India have not yet resolved their land frontier issues. Furthermore, China has maritime disputes with Japan, South Korea, Vietnam and the Philippines. The historical issues among China, Japan and South Korea make the cooperation between them lack a basis of political mutual trust. Therefore, although there are close trade contacts among these countries, China, Japan and South Korea have not reached any FTA. In South Asia, because of long-term India-Pakistan conflicts, South Asia's Association for Regional Cooperation (SAARC) has been useless and is unable to effectively promote regional economic cooperation, which is a factor in pushing India to develop towards the East. These unstable factors have not only hindered the formation of long-term institutional arrangements on economic and trade cooperation within the region but have also caused various unexpected events to disrupt existing cooperation. Throughout this book, economic data and analysis is provided which gives an insight into the trade and financial links that bind this region together. Written by experts in China, it gives a fascinating view of China's approach to its neighbours. China is assuming a more important role on the world stage but it is important to not forget the key role it plays in its own neighbourhood. Debating Security in Turkey Ebru Canan-Sokullu, 2013-01-01 Debating Security in Turkey: Challenges and Changes in the Twenty-First Century edited by Ebru Canan-Sokullu maps out Turkish security policy and politics, entangling hard power and soft power dynamics, reflecting a multidimensional look at Turkey's changing security agenda with internal and external challenges and opportunities at the outset of the twenty-first century. This essential collection produces a comprehensive research for academia and significant policy choices for the decision makers at national, regional and transatlantic levels regarding Turkey. The Challenges of

the US-Japan Military Arrangement: Competing Security Transitions in a Changing International Environment Anthony DiFilippo, 2015-06-03 This is an in depth analysis of the U S Japan security alliance and its implications for Japan and the Asia Pacific region It moves away from the official line that the alliance is a vital aspect of Japan s security policy and introduces issues and arguments that are often overlooked American security policy has failed to achieve its goals Japan s interests are not fully served by the alliance the alliance itself is a source of instability in the region and the arrangement has placed constraints on Japan s own political development The author measures current developments in U S foreign policy against Japan s role in the region and Japan s own political development He assesses the consequences of the alliance for the current regional situation in Northeast Asia looks at future policy options for Japan and makes the case for a neutralist security policy
