*Sedna* Beverly Brodsky, 1975 *Sedna* mother of all sea animals tells the story of her life and helps the starving Inuit

*Inuit Women* Janet Mancini Billson, Kyra Mancini, 2007 *Inuit Women* is the definitive study of the Inuit during a time of rapid change Based on fourteen years of research and fieldwork this analysis focuses on the challenges facing Inuit women as they enter the twenty first century Written shortly after the creation of Nunavut a new province carved out of traditional Inuit homelands in the Canadian North this compelling book combines conclusions drawn from the authors ethnographic research with the stories of Inuit women and men told in their own words In addition to their presentation of the personal portraits and voices of many Inuit respondents Janet Mancini Billson and Kyra Mancini explore global issues the impact of rapid social change and Canadian resettlement policy on Inuit culture women s roles in society and gender relations in Baffin Island in the Eastern Arctic They also include an extensive section on how the newly created territory of Nunavut is impacting the lives of Inuit women and their families Working from a research approach grounded in feminist theory the authors involve their Inuit interviewees as full participants in the process This book stands alone in its attention to Inuit women s issues and lives and should be read by everyone interested in gender relations development modernization

globalization and Inuit culture      **Song of Sedna** ,1989 Retells one of many versions of how an Eskimo maiden became goddess of the sea      **The Faces of the Goddess** Lotte Motz, 1997-08-21 The belief that the earliest humans worshipped a

sovereign nurturing maternal earth goddess is a popular one It has been taken up as fact by the media who routinely depict modern goddess worshippers as reviving the ancient religions of our ancestors Feminist scholars contend that in the primordial religions the Great Mother was honored as the primary creative force giving birth to the world granting fertility to both crops and humans and ruling supreme over her family pantheon The peaceful matriarchal farming societies that worshipped her were eventually wiped out or subjugated by nomadic patriarchal warrior tribes such as the early Hebrews who brought their male God to overthrow the Great Mother the first step in the creation and perpetuation of a brutal male dominated society and its attendant oppression and degradation of women In *The Faces of the Goddess* Lotte Motz sets out to test this hypothesis by examining the real female deities of early human cultures She finds no trace of the Great Mother in their myths or in their worship From the Eskimos of the arctic wasteland whose harsh life even today most closely mirrors the earliest hunter gatherers to the rich cultures of the sunny Fertile Crescent and the islands of Japan Motz looks at a wide range of goddesses who are called Mother or who give birth in their myths She finds that these goddesses have varying origins as ancestor deities animal protectors and other divinities rather than stemming from a common Mother Goddess archetype For instance *Sedna* the powerful goddess whose chopped off fingers became the seals and fish that were the Eskimos chief source of food had nothing to do with human fertility Indeed human motherhood was held in such low esteem that Eskimo women were forced to give birth completely alone with no human companionship and no helpful deities of

childbirth Likewise while various Mexican goddesses ruled over healing women s crafts motherhood and childbirth and functioned as tribal protectors or divine ancestors none of them either embodied the earth itself or granted fertility to the crops for that the Mexicans looked to the male gods of maize and of rain Nor were the rituals of these goddesses nurturing or peaceful The goddess Cihuacoatl who nurtured the creator god Quetzalcoatl and helped him create humanity was worshipped with human sacrifices who were pushed into a fire removed while still alive and their hearts were cut out And Motz closely examines the Anatolian goddess Cybele the Magna Mater most often cited as an example of a powerful mother goddess Hers were the last of the great pagan mysteries of the Mediterranean civilizations to fall before Christianity But Cybele herself never gives birth nor does she concern herself with aiding women in childbirth or childrearing She is not herself a mother and the male character figuring most prominently in her myths is Attis her chaste companion Tellingly Cybele s priests dedicate themselves to her by castrating themselves thus mimicking Attis s death a very odd way to venerate a goddess of fertility To depict these earlier goddesses as peaceful and nurturing mothers as is often done is to deny them their own complex and sophisticated nature as beings who were often violent and vengeful delighting in sacrifice or who reveled in their eroticism and were worshipped as harlots The idea of a nurturing Mother Goddess is very powerful In this challenging book however Motz shows that She is a product of our own age not of earlier ones By discarding this simplistic and worn out paradigm we can open the door to a new way of thinking about feminine spirituality and religious experience

**Symposium of the Whole** Jerome Rothenberg,Diane Rothenberg,2016-04-19 Symposium of the Whole traces a discourse on poetry and culture that has profoundly influenced the art of our time with precedents going back two centuries and more Beginning with a reassertion of the complexity of poetry among peoples long labeled primitive and savage many recent poets have sought to base a new poetics over the fullest range of human cultures The attempt to define an ethno poetics has been significantly connected with the most experimental and future directed side of Romantic and modern

poetry both in the Western world and increasingly outside it As a visionary poetics and as a politics this complex redefinition of cultural and intellectual values has involved a rarely acknowledged collaboration between poets and scholars who together have challenged the narrow view of literature that has excluded so many traditions In this gathering the Rothenbergs follow the idea of an ethnopoetics from predecessors such as Vico Blake Thoreau and Tzara to more recent essays and manifestos by poets and social thinkers such as Olson Eliade Snyder Turner and Baraka The themes range widely from the divergence of oral and written cultures to the shaman as proto poet and the reemergence of suppressed and rejected forms and images the goddess the trickster and the human universe The book s three ethnographic sections demonstrate how various poetries are structured and composed how they reflect meaning and worldview and how they are performed in cultures where all art may be thought of as art in motion Among the poetries discussed are the language of magic West African drum language and poetry the Huichol Indian language of reversals chance operations in African divination poetry picture writings and action writings from Australia and Africa and American Indian sacred clown dramas and traditional trickster narratives The cumulative effect is a new reading of the poetic past and present in the editors words a changed paradigm of what poetry was or now could come to be
