**The Diffusion of Information Technology** Ken Guy, Erik Arnold, 1995-01-01 World Bank Discussion Paper No 281 This study examines the best practices of eight OECD countries Canada Germany Ireland Japan the Netherlands Sweden the United Kingdom and the United States in designing national policies and programs to accelerate the effective use of information technology in support of industrial competitiveness New technologies in computing communications and multimedia are changing the competitive advantage of industries services and entire economies Enterprises must therefore increase their technological development and education through government assistance The emerging experience is rich and diverse The study draws on the tacit knowledge of the designers and implementors of national policies and programs to establish key rules of thumb for future programs The authors outline broad directions for adapting these practices to the conditions of developing countries

*Education Achievements and School Efficiency in Rural Bangladesh* Shahidur R. Khandker, 1996-01-01 Two of the largest World Bank investment projects in Bangladesh are the general education project and the female secondary scholarship and assistance project This paper evaluates the expected results of these educational projects using the household and school survey data recently collected in rural Bangladesh Bangladesh spends only 2 percent of its GNP on education compared to 3.2 percent in an average low income country and 6

percent in an average high income country Low investment in education results in low literacy only 35 percent which in turn results in low productivity low incomes poor health and above all high population growth To counter these trends Bangladesh has invested substantially in the education sector in recent years with the help of the World Bank and other donor agencies The objective of this investment has been to improve both the quality and quantity of education especially among the female population The general education and female secondary school assistance projects are in particular geared to promote better access to primary and secondary education as well as higher school participation and educational attainment Based on the rural household and school survey data on both supply and demand factors this report concludes that school interventions such as more and better schools better trained and educated teachers more female teachers and better water and sanitation facilities in schools promote literacy and improve school participation and school attainment rates Independent of school level interventions complementary investments in village infrastructure roads and electricity also have beneficial effects on educational outcomes The effects of all these interventions are more pronounced for girls than for boys Contains 28 data tables and figures Author TD      *Evaluating Public Spending* Sanjay Pradhan,1996-01-01 World Bank Discussion Paper No 318 Analyzes the condition needed for achieving sustainable private sector growth in the Visegrad countries the Czech Republic Hungary Poland and the Slovak Republic The analysis focuses on the legal and regulatory framework and institutional capacity the privatization of state enterprises and private sector development      **Institutional and Entrepreneurial Leadership in the Brazilian Science and Technology Sector** Lauritz Holm-Nielsen,Michael Crawford,Alcyone Saliba,1996-01-01 World Bank Discussion Paper No 325 Reviews the main components of policy reform strategies drawn from a case study of Brazil that are designed to increase the efficiency of investments in science and technology The paper is a summary of the viewpoints expressed by Brazilian science policymakers and their international colleagues at a workshop on science and technology reform in Brazil held in Washington D C May 1996      **The Bangladesh Rural Advancement Committee's Credit Programs** Shahidur R. Khandker,M. A. Baqui Khalily,1996 Spanish edition Pobreza Desigualdad y Formaci 3 n del Capital Humano en Am rica Latina 1950 2025 Latin America is marked by wide inequality in income and entrenched poverty This paper argues that the main reason these conditions persist is the lack of adequate education for new generations The author cites several factors economic growth and structural transformation of the economy the convergence of regional per capita income and the diminishing rates of return on education that have combined to lower the region s areas of inequality To bring the region quickly out of poverty the report recommends that universal basic education be given to all young people in the next two decades See also the English edition Stock No 13630 ISBN 0 8213 3630 4      **Uganda's AIDS Crisis** Jill Armstrong,1995-01-01 Examines the economic problems that arise when governments own and operate enterprises that could be managed by the private sector Despite more than a decade of divestiture state owned enterprises account for nearly as large a share of developing countries economies today as twenty

years ago This report examines the economic problems that arise when governments own and operate enterprises that could be managed by the private sector It finds that such enterprises are often inefficient and shows how the resulting losses to the economy hinder growth making it harder for people to escape poverty Why have reforms had such little impact In an innovative study of the political economy of state enterprise reform the report describes common obstacles to reform and describes ways that some countries have overcome them Drawing on a rich database and detailed country case studies the report provides the most comprehensive assessment yet of a decade of divestiture and reform of state owned enterprises It evaluates the experiences of 12 countries some of these countries reformed successfully and some did not but all tried to improve the incentive structure by changing the contract between the government and state owned firms The report offers guidance for successful reform and suggests ways that foreign assistance can more effectively support reform efforts The countries covered in the case studies are Chile China Czech Republic Egypt Ghana India Republic of Korea Mexico Philippines Poland Senegal and Turkey Published for the World Bank by Oxford University Press

Procurement and Disbursement Manual for Projects with Community Participation Gita Gopal,1995 Draws on the experience of Bulgaria to study the problems encountered in financing government operations in the transition economies This report describes Bulgaria s experience in addressing external shocks to its economy and large declines in the ratio of tax revenues to GDP The book provides broad coverage of the problems many other governments face in transforming their systems of taxation in the transition to a market economy Chapters discuss taxation and incentives government and households indirect taxation and financing of social expenditures Attention is also drawn to the implementation of a value added tax and to policies on fuel taxes The report facilitates an understanding of the differences between actual and optimal policies as governments seek to establish a framework for resolving their budgetary problems in the transition

Assessing the constraints affecting production and deployment of maize seed in DTMA countries of West Africa , Colombia's Pension Reform Klaus Schmidt-Hebbel,1995 IFC Lessons of Experience No 1F This report reviews the experience of the International Finance Corporation IFC in its role as advisor and investor in privatization transactions during the past decade In pursuit of its mandate to further economic development by encouraging the growth of productive private enterprise in developing countries the IFC has naturally and increasingly been involved in supporting this movement The premise of the report is that privatization will always be partly based on political considerations including expected redistribution of wealth and the resulting winners and losers It discusses the IFC s experience from two perspectives as an advisor involved before the sale which illustrates how the IFC assists in the trade off between political and economic goals to conclude a deal and after privatization which discusses the resulting economic benefits The IFC asserts that its role in privatization is defined by the evolving frontiers of political commitment Within those frontiers it can help expand privatization possibilities by performing advisory assignments providing necessary investments and developing capital market institutions The IFC demonstrates that

privatization strategies can assume many forms with few set prescriptions Other language editions English ISBN 0 8213 3447 6 Stock No 13447 Russian out of print ISBN 0 8213 3545 6 Stock No 13545 Spanish out of print ISBN 0 8213 3451 4 Stock No 13451      **Land Quality Indicators** ,1995 Spanish edition Reformas Laborales y Economicas en America Latina y el Caribe Examines key aspects of labor market conditions as they are affected by the economic reforms that are integrating Latin American and Caribbean economies with world markets Also available English edition ISBN 0 8213 3348 8 Stock No 13348 Portuguese edition ISBN 0 8213 3502 2 Stock No 13502
