Columbia, 2017-05-12 This book's 50 plus lessons each based on a different picture book or story will help classroom teachers
build a foundation for teaching math science and social studies concepts to their students Each lesson uses children's
literature to make challenging abstract concepts relevant to children's lives inviting them to learn these concepts while
responding to a story's illustrations theme characters and plot The lessons also demonstrate how teachers can use children's
literature to meet national standards in math science and social studies Chapters 1 through 5 set the stage for using picture
books discussing the effective imaginative integration of literature into the classroom Teachers will learn to create an
environment that ensures that when children and books come together the experience is enjoyable and thought provoking
Chapters 6 through 9 provide individual lessons by grade level with detailed activities based on specific books **Beyond**
