The First Modern Japanese Donald Keene, 2016-09-27 Many books in Japanese have been devoted to the poet and critic Ishikawa Takuboku 1886 1912 Although he died at the age of twenty six and wrote many of his best known poems in the space of a few years his name is familiar to every literate Japanese Takuboku s early death added to the sad romance of the unhappy poet but there has been no satisfactory biography of his life or career even in Japanese and only a small part of his writings have been translated His mature poetry was based on the work of no predecessor and he left no disciples Takuboku stands unique Takuboku s most popular poems especially those with a humorous overlay are often read and memorized but his diaries and letters though less familiar contain rich and vivid glimpses of the poet s thoughts and experiences They reflect the outlook of an unconstrained man who at times behaved in a startling or even shocking manner Despite his misdemeanors Takuboku is regarded as a national poet all but a saint to his admirers especially in the regions of Japan where he lived His refusal to conform to the Japan of the time drove him in striking directions and ranked him as the first poet of the new Japan

China's Naval Power Yves-Heng Lim, 2016-05-23 The rapid modernization of the Chinese Navy is a well documented reality of the post Cold War world In two decades the People s Liberation Army Navy has evolved from a backward force composed of obsolete platforms into a reasonably modern fleet whose growth is significantly shaking the naval balance in East Asia The rationale behind China s contemporary rise at sea remains however difficult to grasp and few people have tried to see how the current structure of the international system has shaped Chinese choices This book makes

sense of Chinese priorities in its naval modernization in a robust offensive realist framework Drawing on Barry Posen's works on sources of military doctrine it argues that the orientation of Beijing's choices concerning its naval forces can essentially be explained by China's position as a potential regional hegemon Yves Heng Lim highlights how a rising state develops naval power to fulfil its security objectives a theoretical perspective that goes farther than the sole Chinese case

Seeing Stars Dennis J. Frost, 2020-03-17 In *Seeing Stars* Dennis J. Frost traces the emergence and evolution of sports celebrity in Japan from the seventeenth through the twenty first centuries. Frost explores how various constituencies have repeatedly molded and deployed representations of individual athletes revealing that sports stars are socially constructed phenomena the products of both particular historical moments and broader discourses of celebrity. Drawing from media coverage biographies literary works athletes memoirs bureaucratic memoranda interviews and films Frost argues that the largely unquestioned mass of information about sports stars not only reflects but also shapes society and body culture. He examines the lives and times of star athletes including sumo grand champion Hitachiyama female Olympic medalist Hitomi Kinue legendary pitcher Sawamura Eiji and world champion boxer Gushiken Yoko demonstrating how representations of such sports stars mediated Japan's emergence into the putatively universal realm of sports unsettled orthodox notions of gender facilitated wartime mobilization of physically fit men and women and masked lingering inequalities in postwar Japanese society. As the first critical examination of the history of sports celebrity outside a Euro American context this book also sheds new light on the transnational forces at play in the production and impact of celebrity images and dispels misconceptions that sports stars in the non West are mere imitations of their Western counterparts.

Sport in Films Emma Poulton, Martin Roderick, 2019-05-30 Sport offers everything a good story should have: heroes and villains triumph and disaster achievement and despair tension and drama. Consequently sport makes for a compelling film narrative and films in turn are a vivid medium for sport. Yet despite its regularity as a central theme in motion pictures constructions and representations of sport and athletes have been marginalised in terms of serious analysis within the longstanding academic study of films and documentaries. In this collection it is the critical study of film and its connections to sport that are examined. The collection is one of the first of its kind to examine the ways in which sport has been used in films as a metaphor for other areas of social life. Among the themes and issues explored by the contributors are Morality tales in which good triumphs over evil. The representation and ideological framing of social identities including class gender race and

nationality The representation of key issues pertinent to sport including globalization politics commodification consumerism and violence The meanings spoken by films and the various readings which audiences make of them This is a timely collection that draws together a diverse range of accessible insightful and ground breaking new essays This book was published as a special issue of Sport in Society **Recent Japanese Philosophical Thought 1862-1994** Gino K. Piovesana,2013-12-16 Piovesana s famous survey is republished with an additional chapter by Naoshi Yamawaki to cover the intervening years up to 1994 It continues to be the only introduction to Japanese thinkers and philosophical thought covering the period of Japan s modern era *Tourist* ,1921 **Chinese International Relations Theory** Jonathan Ping,Anna Hayes,Brett McCormick,2025-05-05 This book explores how fundamental aspects of China s rapidly evolving arena of international relations theory are emerging directly from the realms of practice and policy As a unique explanation of the Chinese School by those actually making the decisions assisted and researched in collaboration with eminent global scholars the book guides the global reader through the building of Chinese international relations theory and how China may be accounted for behaviour predicted and useful policy developed With chapters examining critical issues such as Statecraft and party The Belt and Road Initiative Diplomacy and Security in the Asia Pacific China US relations The South China Sea This book will provide new theory to policy makers and prove an invaluable guide to students and scholars of Chinese politics international relations theory diplomacy global studies and international relations
