Seeking A New Canadian Partnership Asymmetrical And Confederal Options:

Seeking a New Canadian Partnership F. Leslie Seidle, Institute for Research on Public Policy, 1994 This document presents asymmetrical and confederal options regarding a new partnership Topics covered are brinkmanship and renewal of Canadian federalism toward a multinational federalism flexibility within the present constitutional framework and the challenge of diversity

The Case for Decentralized Federalism Ruth Hubbard, Gilles Paquet, 2011-01-17 The Case for Decentralized Federalism and its sister volume The Case for Centralized Federalism are the outcome of the Federalism Redux Project created to stimulate a serious and useful conversation on federalism in Canada They provide the vocabulary and arguments needed to articulate the case for a centralized or a decentralized Canadian federalism The Case for Decentralized Federalism brings together experts who believe decentralized federalism is the optimal arrangement for governing the contextual diversity and cultural pluralism in Canada Using different approaches they argue that by dividing the work of public governance among different levels of government it is easier to address the needs and aspirations of the diverse groups that make up Canada

The Case for Centralized Federalism Gordon DiGiacomo, Maryan Tonett Flumian, 2010-08-21 The Case for Centralized Federalism and its sister volume The Case for Decentralized Federalism are the outcome of the Federalism Redux Project created to stimulate a serious and useful conversation on federalism in Canada They provide the vocabulary and arguments needed to articulate the case for a centralized or a decentralized Canadian federalism In The Case for Centralized Federalism an array of experts condemns the federal government's submissiveness in its dealings with the provinces and calls for a renewed federal assertiveness They argue that the federal government is best placed to create effective policy support democracy and respond to issues of national importance

Constitutional Politics in Canada after the Charter Patrick James, 2011-01-01 The Charter of Rights and Freedoms was introduced in 1982 Since then Canada has experienced more than twenty five years of constitutional politics and countless debates about whether the Canadian federation is integrating or disintegrating There has however been no systematic attempt to identify general theories about Canada's constitutional evolution Patrick James corrects this oversight by using systemism a concept drawn from the philosophy of science to identify and assess five theories that fall into the liberal or communitarian paradigms These theories are examined in the context of major issues such as the role of the courts or the status of Aboriginal peoples and debates among advocates and critics of each theory are used to work toward a greater understanding of constitutional wrangling in Canada By adding clarity to familiar debates this succinct assessment of major writings on constitutional politics sharpens our vision of the past and the future of the Canadian federation

Canada Donald G. Lenihan, Gordon Robertson, Roger Tassé, Institute for Research on Public Policy, 1994 The clearest lesson of the debate over the 1992 Charlottetown Accord is that Canadians are divided in their vision of the country This book looks at the issue and examines how the political philosophy of liberalism especially as incorporated into pan Canadianism under former Prime

Minister Pierre Trudeau contrasts and conflicts with the more federalist aspirations of moderate Quebec nationalists western regionalists and Aboriginal peoples

Equal Recognition Alan Patten, 2016-11-08 Conflicting claims about culture are a familiar refrain of political life in the contemporary world On one side majorities seek to fashion the state in their own image while on the other cultural minorities press for greater recognition and accommodation Theories of liberal democracy are at odds about the merits of these competing claims Multicultural liberals hold that particular minority rights are a requirement of justice conceived of in a broadly liberal fashion Critics in turn have questioned the motivations coherence and normative validity of such defenses of multiculturalism In Equal Recognition Alan Patten reasserts the case in favor of liberal multiculturalism by developing a new ethical defense of minority rights Patten seeks to restate the case for liberal multiculturalism in a form that is responsive to the major concerns of critics He describes a new nonessentialist account of culture and he rehabilitates and reconceptualizes the idea of liberal neutrality and uses this idea to develop a distinctive normative argument for minority rights The book elaborates and applies its core theoretical framework by exploring several important contexts in which minority rights have been considered including debates about language rights secession and immigrant integration Demonstrating that traditional nonmulticultural versions of liberalism are unsatisfactory Equal Recognition will engage readers interested in connections among liberal democracy nationalism and current multicultural issues

Contemporary Canadian Federalism Alain-G. Gagnon, 2009-06-06 First published in French in 2006 Le fédéralisme canadien contemporain was immediately recognised as the most comprehensive collection of reflections on Canadian federalism by leading Quebecois scholars This remarkable translation of a range of Quebecois voices makes their insightful and underrepresented perspectives available to English language audiences Offering alternative views of the Canadian federal model's realities by covering its foundations traditions and institutions Contemporary Canadian Federalism considers the ways in which federalism relates to issues such as regionalism multiculturalism rights and freedoms financial distribution and public policy Filled with stimulating work that bridges the gap between distinctive traditions in English and French Canadian scholarship on federalism this important volume is required reading for understanding provincial federal relations and Canadian governance

Fiscal Federalism in Multinational States François Boucher, Alain Noël, 2021-07-21 Substate nationalism is often studied as a question of political identity and cultural recognition The same applies to the study of multinational federalism it is mainly conceived as a tool for the accommodation of minority cultures and identities Few works in political philosophy and political science pay attention to the fiscal and redistributive dimensions of substate nationalism and multinational federalism Yet nationalist movements in Western countries make crucial claims about fiscal autonomy and the fair distribution of resources between national groups within the same state In recent years Scottish nationalists have demanded greater tax autonomy Catalan and Flemish nationalists have viewed themselves as unfairly disadvantaged by centralized fiscal arrangements and equalization payments and social transfers in Canada have

exacerbated tensions within the federation In *Fiscal Federalism in Multinational States* contributors from political philosophy and political science disciplines explore the fiscal side of substate nationalism in Canada Belgium the United Kingdom Spain and Australia Chapters examine the connection between secessionist claims and interregional redistributive arrangements power relations in federations where taxing and spending responsibilities are shared between orders of government the relationship between substate nationalism and fiscal autonomy and the role of federal governments in redistributing resources among substate national groups *Fiscal Federalism in Multinational States* brings together scholars of nationalism and federalism in a groundbreaking analysis of the connections between nationalist claims and fiscal debates within plurinational states

Theories of Federalism D. Karmis, W. Norman, 2016-04-30 This project pulls together classic and modern readings and essays that explore theories of federalism Spanning the Seventeenth through Twenty first centuries of European U S and Canadian thinkers this attempts to be a comprehensive reader for students in political theory The emphasis throughout is on the normative argument the advantages or disadvantages of federal and confederal arrangements compared to unitary states and on the relative merits of various proposals to improve particular federations or confederations These also draw on the full range of political science subfields from political sociology political economy and constitutional studies to comparative politics and international relations There are also readings both contemporary and historical that attempt to clarify conceptual issues

Multilingual Democracy Nenad Stojanović, 2021-06-29 Most experts on divided societies and institutional design broadly agree that it is more difficult to establish and maintain a stable functioning democracy in a country with multiple languages and linguistically fragmented public spheres than in more homogeneous countries Multilingual countries such as Canada and Belgium have been experiencing considerable difficulties in past decades see the almost successful 1995 referendum on sovereignty in Quebec or the institutional deadlock and the rise of Flemish nationalism in Belgium since the 1970s The prospects for the EU to become a viable democracy are even more haunted by multilingualism considering that it has 24 official languages and no lingua franca Switzerland however is also a multilingual country without a lingua franca fragmented into 22 mono lingual and three multilingual cantons as well as into four distinct public spheres German French Italian Romansh And yet it is widely seen as one of the most stable and successful democracies Conventional wisdom in political science literature suggests that consociational political institutions account for the success of Swiss multilingual democracy This book offers a different institutional explanation The author argues that in mainstream literature important Swiss institutions in particular direct democracy Parliament and the federal executive have largely been misinterpreted they have been labelled as consociational whereas they are rather a product of centripetalism an approach to institutional design in which political incentives are directed toward intergroup compromise because of the need to appeal to voters across group lines in order to form majorities This approach to achieving long term democratic stability stands in sharp contrast to consociationalism

The State of Education in Canada Thomas T.

Schweitzer,Robert Kirby Crocker,Geraldine Gilliss,1995 How good are Canadian schools What measurements should we use to evaluate the state of Canadian education This book discusses the state of schools in Canada in comparison to other countries as well as province to province It looks at the crucial elements in any educational system ranging from the family environment to the quality of teaching to the effectiveness of school bureaucracy It also stresses the importance of education in creating a well trained and efficient workforce and suggests that a high level of numeracy and literacy generates significant income premiums for Canadian workers

Rethinking the Delivery of Public Services to Citizens F. Leslie Seidle,Institute for Research on Public Policy,1995 Based on in depth research and 50 interviews with senior officials Examines recent innovations structural change to separate policy and operational functions total quality management principles performance targets service standards and client assessment partnership and single window one stop shopping techniques

Explaining Federalism Jan Erk,2007-09-12 This book deals with the theoretical and empirical questions of federalism in the context of five case studies Austria Belgium Canada Germany and Switzerland The central argument is that in the long run the political institutions of federalism adapt to achieve congruence with the underlying social structure This change could be in the centralist direction reflecting ethno linguistic homogeneity or in decentralist terms corresponding to ethno linguistic heterogeneity In this context the volume fills a gap in the comparative federalism literature by analyzing the patterns of change and continuity in five federal systems of the industrial west this is done by an in depth empirical examination of the case studies through a single framework of analysis illustrates the shortcomings of new institutionalist approaches in explaining change highlighting the usefulness of society based approaches in studying change and continuity in comparative politics Explaining Federalism will be of interest to students and scholars of federalism comparative government comparative institutional analysis and comparative public policy

Political Liberalism and Plurinational Democracies Ferran Requejo Coll,Miquel Caminal i Badia,2011 The book examines the current state of affairs concerning the political recognition and constitutional accommodation of national plurality in liberal democracies in the global era of the 21st century It features case studies on Belgium Canada Spain UK and the European Union

The Medium and the Muse Charles Sirois,Claude E. Forget,Institute for Research on Public Policy,1995 To determine effective public policy in the domain of the information highway it is necessary to consider Canada s present competitive position and performance and to make a careful assessment of infrastructure development and cultural policy the two major challenges facing the country This essay contains suggestions on how Canada ought to address the challenges posed by the emergence of the information highway It describes the opportunities and challenges of the information highway market intermediaries and their role for content and transfer services structural and regulatory considerations and international dimensions

Canadian Politics James Bickerton,Alain Gagnon,2009-01-01 The new fifth edition of Canadian Politics continues the work of earlier editions in offering a comprehensive introduction to Canadian government and politics by a widely recognized and highly respected

group of political scientists writing about subjects on which they are acknowledged experts For this edition the editors have organized the book into four sections Part I Citizenship Identities and Values Part II Institutions Part III Democracy and Representation and Part IV Canada in the World The fourth section develops a focus on the diverse and increasingly important influences of globalization on the Canadian polity the environment and the role of Canada in the world Of the eighteen chapters nine are completely new and six new authors appear including Martin Papillon on Aboriginal governments Peter J Stoett on Canadian international environmental policy and Andrew F Cooper on Afghanistan and Canadian foreign policy The remaining chapters have been thoroughly revised and updated

The Road to Better Public Services G. Bruce Doern, Institute for Research on Public Policy, 1994 This report examines how to improve the way governments serve Canadians using case studies of five agencies of the Canadian Federal Government including their attempts to improve service delivery and the constraints or obstacles they face as they seek to make such improvements The agencies studied include the Canada Communication Group formerly the Queen's Printer the Passport Office the Geological Survey of Canada the Aboriginal Business Canada program in Industry Canada and the Marketing Practices Branch of the Bureau of Competition Policy in Industry Canada The report examines the concept of service as it relates to the theory of bureaucracy implementation theory and the policy instrument mix and the institutional economics of bureaucracy the re-invention of government theory and the four service attributes

Culture and Equality Brian Barry, 2013-05-02 All major western countries today contain groups that differ in their religious beliefs customary practices or ideas about the right way in which to live How should public policy respond to this diversity In this important new work Brian Barry challenges the currently orthodox answer and develops a powerful restatement of an egalitarian liberalism for the twenty-first century Until recently it was assumed without much question that cultural diversity could best be accommodated by leaving cultural minorities free to associate in pursuit of their distinctive ends within the limits imposed by a common framework of laws This solution is rejected by an influential school of political theorists among whom some of the best known are William Galston Will Kymlicka Bhikhu Parekh Charles Taylor and Iris Marion Young According to them this difference-blind conception of liberal equality fails to deliver either liberty or equal treatment In its place they propose that the state should recognize group identities by granting groups exemptions from certain laws publicly affirming their value and by providing them with special privileges or subsidies In *Culture and Equality* Barry offers an incisive critique of these arguments and suggests that theorists of multiculturalism tend to misdiagnose the problems of minority groups Often these are not rooted in culture and multiculturalist policies may actually stand in the way of universalistic measures that would be genuinely beneficial

Theories of Secession Percy B. Lehning, 2005-06-23 *Theories of Secession* presents a systematic analysis of the rise of secessionist movements in global politics Bringing together a collection of experts in the field it provides a timely forum for debate in this contentious area of study

Busting Bureaucracy to Reclaim Our Schools Stephen B. Lawton, Joseph Freedman, Heather-jane

Robertson, Institute for Research on Public Policy, 1995 In this book the author argues that the bureaucratization of schooling has interfered with the process of education The costs complexity and rigidity of the educational edifice leaves it unresponsive to parental concerns and reluctant to measure its own inadequacies such as illiteracy and high dropout rates among students The author identifies two conceptual bases for action to address this problem public choice theory and agency theory discusses the issue of identity in its relation to education and then makes the case for charter schools in Canada stressing definitions of community parental rights and the need to combat bureaucratic tendencies Two discussants respond to the author s analysis one amplifying his call for charter schools and the other arguing that the basis for demanding reform is less clear than the author claims
