*SEG GCSE Science* Vic Pruden, 2000 This textbook is aimed at all those following SEG GCSE science. It covers both Single and Double Award and highlights material that is appropriate for Foundation and Higher tier students. A clear syllabus map is included which relates each topic to the units of the modular course while the linear course forms the basis for the structure of the text itself. **The Effective Teaching of Secondary Science** John Parkinson, 2014-06-03 The Effective Teaching of Secondary Science encourages the trainee teacher to develop effective skills for teaching science to secondary school pupils. The comprehensive coverage of topics and issues provides good foundations for trainee teachers who are encouraged to test and evaluate different techniques. Practical advice is offered in areas such as lesson planning, the preparation of worksheets, planning practical activities and safety in the laboratory. The book also discusses the use of information technology as well as multicultural and gender issues and the teaching of pupils with special needs. Much of the work covered is underpinned by areas of educational research such as educational theory and psychology and sociology of education. Information on the requirements of the national curriculum and on post-16 science courses is given and includes a number of assessment techniques for the problematic area of assessing science attainment target 1.

**Assessment in Physical Education** Bob Carroll, 2003-09-02 In the past, assessment was underplayed or neglected in the training of physical education teachers. With the introduction of the GCSE Routes of Assessment (ROA) and the National Curriculum, assessment has become an important part of the teaching of PE. This book examines in detail the issues as they affect teachers.
