 treating anxious and depressed children and adolescents A cornucopia of theory and clinical good sense alike I will be
 making sure that my trainees read it cover to cover Dr Samantha Cartwright Hatton Senior Clinical Research Fellow in
 Psychology University of Sussex This is the first book to offer an explicitly competencies based approach to the cognitive
 behavioral treatment of anxiety and depression in children and adolescents Within it an outstanding and influential set of
 experts in the field describe a comprehensive model of therapist competencies required for empirically supported cognitive
 behavioral treatment They explore each of these competencies in great detail and highlight effective ways of training them
 As a result the book not only supports the training development and assessment of competent clinicians who are
 implementing CBT it is also invaluable for clinicians who wish to gain an understanding of the competencies they need to
 acquire or improve and offers guidelines for how to achieve these providing a benchmark against which they can assess
 themselves Evidence Based CBT for Anxiety and Depression in Children and Adolescents works to improve the quality of
 therapists working in this area and as a result the quality of treatment that many young people receive *Jimmy Makes the
