Managing Marital Disputes in Malaysia Sven Cederroth Cederroth, Sharifa Zaleha Syed Hassan, 2012-12-06 A trend found in many Islamic societies in recent years has been the increasing regulation of family life by Islamic law and a corresponding move away from customary law and informal conflict resolution procedures The situation in Malaysia particularly in urban Malay society is no exception here Several studies already exist of the nature and extent of Malaysia s Islamic judicial system but the general tendency has been to ignore the actual operation of the syariah courts and related institutions This study addresses this need with an in depth analysis of the key area of intra family conflict and demonstrates that although formally the counsellor kadi and judge have defined roles for conflict resolution in practice much flexibility is evident in the use of consultation conciliation mediation arbitration and adjudication techniques This study will be of special interest to legal anthropologists and those scholars interested in the increasing application of Islamic law in many different

Eades, Joseph Bosco, 2004-01-01 CHOICE OUTSTANDING BOOK OF THE YEAR 2005 Despite the growth of interest in the history of anthropology as a over the last two decades surprisingly little has been published in English on the development of anthropology in East and Southeast Asia and its relationship to the rest of the academic world system The anthropological experience in this region has been varied Japanese anthropology developed early and ranks second only to that of the United States in terms of size Anthropology in China has finally recovered from the experience of invasion war and revolution and now flourishes both on the mainland and in Taiwan Scholars in Korea Malaysia and the Philippines have also attempted to break with the legacy of colonialism and develop research relevant to their own national needs This book includes accounts of these developments by some of the most distinguished scholars in the region Also discussed are issues of language authorship and audience and the effects these have on writing by anthropologists whether native or foreign The book will be invaluable to anyone with an interest in the anthropology of East and Southeast Asia or the development of anthropology as a global discipline **Media, Liberty and Politics in Malaysia: Comparative Studies on Local Dynamics and Regional Concerns (UUM Press)** Mohd Azizuddin Mohd Sani, 2014-04-01 Media Liberty and Politics in Malaysia Comparative Studies on Local Dynamics and Regional Concerns is based on a collection of twelve academic papers This book traces the development and progress of Malaysia as a nation that embraces issues of media liberty and politics as essential parts of its culture policy and well being of the people In between the 2008 and the 2013 General Elections Malaysians have transformed themselves and demanded to form a more democratic society Issues of political freedom human rights good governance and human dignity have become important and will determine the future of the Malaysian society Besides this book also tries to compare democratic practices in Malaysia with its neighbours such as Indonesia Thailand and Australia plus the Association of Southeast Asian Nations ASEAN as an organisation to promote democratisation and strong ties between its members This book is suitable for all particularly the academics students of politics and international relations journalists legal practitioners and the general public who are interested in the issues of media liberty and politics in Malaysia Reason and Passion Michael G. Peletz, 2022-07-15 This book provides a historical and ethnographic examination of gender relations in Malay society in particular in the well known state of Negeri Sembilan famous for its unusual mixture of Islam and matrilineal descent Peletz analyzes the diverse ways in which the evocative heavily gendered symbols of reason and passion are deployed by Malay Muslims Unlike many studies of gender this book elucidates the cultural and political processes implicated in the constitution of both feminine and masculine identity It also scrutinizes the relationship between gender and kinship and weighs the role of ideology in everyday life Peletz insists on the importance of examining gender systems not as social isolates but in relation to other patterns of hierarchy and social difference His study is historical and comparative it also explores the political economy of contested symbols and meanings More than a treatise on gender and social change in a

The Individualization of Chinese Society Yunxiang Yan,2020-08-19 Chinese society has seen phenomenal change in the last 30 years Two of the most profound changes have been the rise of the individual in both public and private spheres and the consequent individualization of Chinese society itself Yet despite China s recent dramatic entrance into global politics and economics neither of these significant shifts has been fully analysed China may indeed present an alternative model of social transformation in the age of globalisation so its path to development may have particular implications for the developing world The Individualization of Chinese Society reveals how individual agency has been on the rise since the 1970s and how this has impacted on everyday life and Chinese society more broadly The book presents a wide range of detailed case studies on the impact of economic policy patterns of kinship changes in marriage relations and the socio economic position of women the development of youth culture the politics of consumerism and shifting power relations in everyday life

Constituting the Minangkabau Joel Kahn,2020-05-26 This account of culture and society in the villages of West Sumatra Indonesia during the period of Dutch colonialism is based on materials collected from the colonial archives local Indonesian newspapers and recent fieldwork in Malaysia and Indonesia The author argues that the impact of colonial land grabbing and political control led to the formation of a peasant economy in the period At the same time the author tackles issues in the recent anthropological debates about ethnography and culture to argue that this period also witnessed the construction of what we now call Minangkabau Culture a process that involved western ethnographers colonial officials and Minangkabau intellectuals in an often conflicted process of modern cultural transformation

The Moral Economy of the Peasant James C. Scott,1977-09-10 James C Scott places the critical problem of the peasant household subsistence at the center of this study The fear of food shortages he argues persuasively explains many otherwise puzzling technical social and moral arrangements in peasant society such as resistance to innovation the desire to own land even at some cost in terms of income relationships with other people and relationships with institutions including the state Once the centrality of the subsistence problem is recognized its effects on notions of economic and political justice can also be seen Scott draws from the history of agrarian society in lower Burma and Vietnam to show how the transformations of the colonial era systematically violated the peasants moral economy and created a situation of potential rebellion and revolution Demonstrating keen insights into the behavior of people in other cultures and a rare ability to generalize soundly from case studies Scott offers a different perspective on peasant behavior that will be of interest particularly to political scientists anthropologists sociologists and
