Man And His World A Marxian View:

Man and His World Ivan Sviták, 1970 In this important and stimulating book Ivan Svitak the noted Czech philosopher now in exile in the United States presents a view of human culture and its creations that is at once controversial and despite the author's Marxist orientation refreshingly non doctrinaire MAN AND HIS WORLD pleads for a humanistic democratic spirit in all human relationships and activities only through such a spirit Dr Svitak asserts can man and the culture he creates be genuinely meaningful Publisher *A Study of Marx's View of History* Xianda Chen, 2025-09-30 This book summarizes the process of Marx's foundation of the view of history into two turning points namely from alienation to alienated labor and then from alienated labor to the materialistic view of history Meanwhile this book makes an in depth analysis of the ideas about the materialistic view of history in recent years which is conducive to further clarifying the ideas of Marxist learners and researchers Besides this book on the basis of the human exploration of historical laws analyzes how Marx broke through the limitations of previous historical views and went deep into history that is the process of discovering the laws of history itself thus profoundly revealing the important reference value of Marx's view of history in the transformation of human historical views It is also conducive to building a bridge of communication between Chinese and Western philosophy promoting international exchanges and cooperation and enriching the ideological connotation of contemporary Marxism The Ecological Crisis and the Logic of Capital Xueming Chen, 2017-09-11 The worsening environmental crisis has become a serious threat to mankind The search for a solution to this crisis must begin by understanding its causes Taking an eco socialist perspective The Ecological Crisis and the Logic of Capital explores the logic of capitalism as a fundamental cause of today's environmental crisis in particular the thirst for profit and the capitalist mode of production By demonstrating the inherent antagonism between capital and ecology this book argues that proposals to resolve the crisis within the capitalist system are utopian that proposed remedies relying on scientific progress alternative energies low carbon technologies or the introduction of ecological ethics and new attitudes toward Nature into market mechanisms are doomed to failure without a radical overhaul of the principles that govern capitalism The Philosophical Theology of St. Thomas Aquinas Leo Elders, 1990-01-01 The philosophical theology of St Thomas Aquinas is the crowning piece of his metaphysics Leo J Elders studies it against the background of the attempts of the great philosophers of the past to penetrate deeper into the knowledge of God While the Introduction treats the nature of philosophical theology according to Aquinas Chapter One presents a concise history of the idea of God in Western philosophical thinking Chapters Two and Three deal with the question of the cognoscibility of God and the Five Ways of St Thomas New solutions are proposed of some difficulties in the Third and Fourth Ways The attributes of God are studied in the order of the Summa theologiae I Chapter Seven considers the grammar of God language The following chapters examine divine knowledge foreknowledge of future events divine will and providence as well as creation The last chapter deals with the problem of the co existence of God and finite creatures This

study shows that the philosophical theology of St Thomas Aquinas is a coherent whole of impressive depth and beauty It has its basis in our daily experience of the world and the general principles of being but its conclusions reach the summits of negative theology Hidden Threads Russell Heddendorf,Matthew Vos,2010 Heddendorf finds in sociological theories some hidden threads Christian principles woven into the fabric of society This book is an examination and Christian critique of sociological theory demonstrating appreciation for the richness of social life and holding in tension Heidegger, Work, and Being Todd S. Mei,2009-11-01 This title provides a novel interpretation of the Aristotelian understanding of work in light of the philosophy of Martin Heidegger **Marxism and Morality** Nicholas Churchich,2022-01-01 Karl Marx promised in the preface to his Economic and Philosophic Manuscripts of 1844 that he would write an independent pamphlet on ethics Although he never did so in his later writings he discussed morality extensively Later commentators were more concerned with other aspects of Marx s thought and largely neglected this area As a result Nicholas Churchich s exposition of Marx s thoughts on morality has become the standard work on the subject Thoroughly researched well reasoned and balanced in its argument Marxism and Morality presents a comprehensive and critical analysis of Marx s and Engel s ideas on morality and ethics analysing both strengths and weaknesses Churchich examines morality in its bourgeois and proletarian forms the origin and development of moral ideas moral values and standards egoism and altruism He explores the role of religion and science in communist ethics and discusses the ends and means in the struggle for a classless society Praised by those on both sides of the political divide for his objectivity Churchich s approach remains the definitive evaluation of the ethical arguments of Marxism **Therapeutic Philosophy for the Individual and the State** Andreas Sofroniou,2009-04-07 Therapeutic Philosophy for the Individual and the State Concepts and didactics of philosophers through the ages From the Hellenic rhetorics to recent European schools of ideas The logic of Therapeutic Philosophy expressed assists in the understanding of human behaviour and the way in which philosophy can contribute to the treatment of the individual and the state **Main Currents of Marxism** Leszek Kołakowski,2005 The commanding study of Marxism now in one masterful volume with a new preface and epilogue by the author **Marx and We** Sun Zhengyu,2024-08-01 Marxist ideology is the only fully scientific ideology the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism Without Marxism modern people cannot establish true social ideals nor can they engage in the rational pursuit of values Without Marxism modern people cannot choose the correct path of development nor can they build up new forms of civilizations Without Marxism modern people would never base their commitments to schedule the consensus building effort and support the consensus building process on any irrefutably and sufficiently sound theoretical foundations **Basic Theoretical Research on Marxist Philosophy** Geng Yang,2021-06-18 This book addresses pioneering views and hot topics in contemporary Marxist philosophy reflecting the latest advances and important achievements made over the past 30 years in China Besides summarizes and reflects past

and present advances in Marxist philosophy this book also outlines a path for its future development in China Presenting a comprehensive exploration of the most fundamental and significant theoretical issues in the field of contemporary Chinese Marxist philosophy based on the latest research it lays the foundation for Chinese philosophy in the new century making it of great significance for promoting the study of contemporary Chinese philosophy **The Socialist Emigre** Brian

Donnelly,2003 Paul Tillich never abandoned the Marxist ideas he developed during the political upheaval of his native Germany in the 1920s and 1930s Indeed he subsumed and incorporated Marxism into the construction of his post German religious thinking and theology which he pioneered after fleeing to the USA in 1933 In the Socialist Emigre Brian Donnelly deals with the philosophical foundations of Tillich s theology specifically the important thread of Marxism and argues that Tillich s later and highly acclaimed theology cannot be divorced from his earlier Marxist views This makes for a seminal work which examines Tillich in a new and critical light and furthers the debate as to the structure of his philosophical theology and the nature of his eclectic thought This unique study features Tillich s boundary thought regarding Marxism and religion faith and culture history and supernaturalism and emphasizes Tillich the philosopher rather than Tillich the theologian **Marx at the Millennium** Cyril Smith,1996 In the midst of a worldwide social crisis Marxism has apparently lost momentum and in many quarters has been abandoned as obsolete Cyril Smith reinstates Marx s work as a relevant source of inspiration arguing that the Marxist tradition has essentially ignored the fundamental ideas of the man himself **The Democrat** ,1920

Manifesto of the Critical Theory of Society and Religion (3 Vols.) Rudolf Siebert,2010-08-16 The Manifesto develops further the Critical Theory of Religion intrinsic to the Critical Theory of Society of the Frankfurt School into a new paradigm of the Psychology Sociology Philosophy and Theology of Religion Its central theme is the theodicy problem in the context of late capitalist society and its globalization [A Philosophical Critique of Thought](#) Zhengyu Sun,2020-11-02 This book is mainly concerned with elaborating an account of the unique theoretical essence and activities of philosophy What manner of civilization should modern humans forge On what developmental path should a nation embark What lifestyle should each individual choose These are the most fundamental issues of our time Profoundly implicit in the choices outlined above is a deeper question What are the criteria of choice An examination of these criteria is a reflection on the premises constituting thought or a critique of the premises underlying thought Using a critique of the premises underlying thought as the basic idea and hermeneutic principle in philosophy will open a wider theoretical space for contemporary philosophy so as to avoid the predicament of being pseudo scientific or pseudo artistic It will also present contemporary philosophy with a realistic path of development for the task of reflecting on the criteria of choice This book seeks to formulate concrete philosophical arguments for a critique of the basic beliefs logic modes concepts and philosophical ideas which constitute thought with the aim of demonstrating the vigorous self critique and inexhaustible theoretical space found in philosophical development This book provides a new principle of interpretation for understanding philosophy and in turn uses this principle to develop a

critique of the premises underlying thought thereby furthering the contemporary development of philosophy This book encompasses a critique of the premises underlying thought which mainly includes the basic beliefs logic modes concepts and philosophical ideas constituting thought Such a critique should comprise five aspects First the basic beliefs constituting thought propose a critique of the identity of thought and being second the basic logic constituting thought refers to a critique of the formal intensional and practical logic of thought third the basic modes constituting thought denote a critique of the basic modes by which humans comprehend the world including commonsense religion art and science fourth the basic concepts constituting thought entail a critique centering on being the world history truth value and other basic concepts and finally the philosophical ideas constituting thought indicate a critique of philosophy itself A critique aligned on these five aspects will provide a general philosophical overview of the premise critique of thought

Marx and Wittgenstein D. Rubinstein, 2013-12-19 First published in 2005 This book has two primary objectives The first is to show that there are substantial parallels between the work of Marx and Wittgenstein and the second is to apply a synthesis of these two thinkers to a variety of philosophical and theoretical disputes over the character of the social sciences

Marx's Theory of Ideology (RLE Marxism) Bhikhu Parekh, 2015-04-17 Although Marx's concept of ideology has been a subject of considerable discussion much of the debate has proved to be rather disappointing There has been no systematic attempt to examine why Marx needed the concept of ideology why it was an important concept for him and how it related to his views on truth and objectivity This book first published in 1982 considers these and other neglected questions It explains why Marx continued to use the term ideology throughout his life to mean both idealism and apologia and traces the complex ways in which according to Marx such talented writers as Hegel became apologists In conclusion the book outlines the lessons Marx learnt from his investigations into the nature and mechanism of ideology and discusses his theories of objectivity and truth

Rethinking the Normative Content of Critical Theory B. Cannon, 2001-02-20 Marxism's chief failing is its substitution of a labour theory of value for the struggles of the labour movement Consequently Marxism rests on transhistorical categories that are vulnerable to his own critique of political economy Jürgen Habermas and Axel Honneth seek to correct this by placing critical theory on a normative foundation Unfortunately they restrict this to the cultural sphere By extending their notion of intersubjectivity to the economic system it can be viewed as an inactive form of morality which social movements
