Modern Public Services For Britain

June Burnham, Robert Pyper

Modern Public Services For Britain:

Britain's Modernised Civil Service June Burnham, Robert Pyper, 2008-02-18 Britain's Modernised Civil Service provides detailed analysis of the structure and operation of the modern civil service along with an historically grounded account of its development. Key events, personalities and scandals help bring the account to life and illuminate and challenge the various theories of what the civil service is or should be. The authors take the evolutionary change of the civil service as a central theme and examine the impact of the major reforms of recent years on the historic Whitehall unitary model. They assess the impact of the New Public Management agenda of the Thatcher and Major years and the role of the Civil Service in the multi-governmental context of devolution and membership of the European Union. Further changes associated with New Labour, such as the increased role of think tanks, special advisers and the impact of the Freedom of Information Act, further sharpen the picture of today's civil service and lead to a rethinking of theories of its role. This readable book by two leading authorities provides an up-to-date account of Britain's Civil Service that will be essential reading for students of British politics, public policy and management. June Burnham is a researcher and consultant in the area of public services and public policy and formerly Senior Lecturer in European Government at Middlesex University. Robert Pyper is Professor of Government and Public Management and Head of the Division of Public Policy at Glasgow Caledonian University. He is author of *The British Civil Service* for which this is a fully revised replacement volume. **Transforming British Government** R.

Everyday Life in British Government R. A. W. Rhodes, 2011-04-21 As citizens why do we care about the everyday life of ministers and civil servants We care because the decisions of the great and the good affect all our lives for good or ill For all their personal political and policy failings and foibles they make a difference So we want to know what ministers and bureaucrats do why

and how We are interested in their beliefs and practices In his fascinating piece of political anthropology Rod Rhodes uncovers exactly how the British political elite thinks and acts Drawing on unprecedented access to ministers and senior civil servants in three government departments he answers a simple question what do they do On the basis of extensive fieldwork supplemented by revealing interviews he tries to capture the essence of their everyday life He describes the ministers and permanent secretaries world through their own eyes and explores how their beliefs and practices serve to create meaning in politics policy making and public service delivery He goes on to analyze how such beliefs and practices are embedded in traditions in webs of protocols rituals and languages The story he has to tell is dramatized through in depth accounts of specific events to show ministers and civil servants in action He challenges the conventional constitutional institutional and managerial views of British governance Instead he describes a storytelling political administrative elite with beliefs and practices rooted in the Westminster model which uses protocols and rituals to domesticate rude surprises and cope with recurrent dilemmas

Democratic Governance Mark Bevir, 2010-04-26 Democratic Governance examines the changing nature of the modern state and reveals the dangers these changes pose to democracy Mark Bevir shows how new ideas about governance have gradually displaced old style notions of government in Britain and around the world Policymakers cling to outdated concepts of representative government while at the same time placing ever more faith in expertise markets and networks Democracy exhibits blurred lines of accountability and declining legitimacy Bevir explores how new theories of governance undermined traditional government in the twentieth century Politicians responded by erecting great bureaucracies increasingly relying on policy expertise and abstract notions of citizenship and more recently on networks of quasi governmental and private organizations to deliver services using market oriented techniques Today the state is an unwieldy edifice of nineteenth century government buttressed by a sprawling substructure devoted to the very different idea of governance and democracy has suffered In Democratic Governance Bevir takes a

comprehensive look at governance and the history and thinking behind it He provides in depth case studies of constitutional reform judicial reform joined up government and police reform He argues that the best hope for democratic renewal lies in more interpretive styles of expertise dialogic forms of policymaking and more diverse avenues for public participation

Comparing Westminster R. A. W. Rhodes, John Wanna, Patrick Weller, 2009-08-27 This book explores how the governmental elites in Australia Britain Canada New Zealand and South Africa understand their Westminster system It examines in detail four interrelated features of Westminster systems Firstly the increasing centralisation in collective responsible cabinet government Second the constitutional convention of ministerial and collective responsibility Third the role of a professional non partisan public service And finally parliament's relationship to the executive The authors explain the changes that have occurred in the Westminster model by analysing four traditions royal prerogative responsible government constitutional bureaucracy and representative government They suggest that each tradition has a recurring dilemma between centralisation and decentralisation party government and ministerial responsibility professionalisation and politicisation and finally elitism and participation They go on to argue that these dilemmas recur in four present day debates the growth of prime ministerial power the decline in individual and collective ministerial accountability politicisation of the public service and executive dominance of the legislature They conclude by identifying five meanings of or narratives about Westminster Firstly Westminster as heritage elite actors shared governmental narrative understood as both precedents and nostalgia Second Westminster as political tool the expedient cloak worn by governments and politicians to defend themselves and criticise opponents Third Westminster as legitimising tradition providing legitimacy and a context for elite actions serving as a point of reference to navigate this uncertain world Fourth Westminster as institutional category it remains a useful descriptor of a loose family of governments with shared origins and characteristics Finally Westminster as an effective political system it is a more effective and efficient political system than consensual parliamentary governments Westminster is a flexible family of ideas that is useful for many purposes and survives even thrives because of its meaning in use to elite actors
