Manual of Romance Morphosyntax and Syntax Andreas Dufter, Elisabeth Stark, 2017-09-25 This volume offers theoretically informed surveys of topics that have figured prominently in morphosyntactic and syntactic research into Romance languages and dialects We define syntax as being the linguistic component that assembles linguistic units such as roots or functional morphemes into grammatical sentences and morphosyntax as being an umbrella term for all morphological relations between these linguistic units which either trigger morphological marking e g explicit case morphemes or are related to ordering issues e g subjects precede finite verbs whenever there is number agreement between them All 24 chapters adopt a comparative perspective on these two fields of research highlighting cross linguistic grammatical similarities and differences within the Romance language family In addition many chapters address issues related to variation observable within individual Romance languages and grammatical change from Latin to Romance

y pone en funcionamiento un modelo dinámico en espiral que hace posible la ubicación sistemática de las diferentes construcciones de ser y estar sean estas predicativas copulativas o perifrásticas presentándose como discontinuidades de un continuo El resultado de la investigación demuestra la existencia de un esquema cognitivo y una estructura enunciativa específica para ambos verbos Esto permite ofrecer una explicación argumentada de la distribución de ser y estar facilitando así su aprendizaje Svensk bokförteckning ,1985 Swedish Numerals Magnus Olsson,1997 Swedish numerals are here treated from a number of points of view phonology morphology syntax and semantics The author investigates the numerical system as a synchronic whole but the historical relations are also studied as long as they contribute to the understanding of the growth of numerals There are also references to other numeral systems contrasting to the Swedish one These include older layers and dialectal variants of the language Danish Icelandic English French German Tibetan Ainu and Malay
