A History of the Sisterhood of the Holy Nativity Sheryl A. Kujawa-Holbrook,2024-12-31 This book the first history of the Sisterhood of the Holy Nativity traces the origins of the order in the late nineteenth century through today Though clergy were the theological voice of the Oxford Movement the role of sisterhoods included advancing the catholic faith among the laity through religious education parish mission guilds for women and children spiritual guidance instruction in the sacraments the ecclesiastical arts and humanitarian relief *Equality Renewed* Christine Sypnowich,2016-12-19 How should we approach the daunting task of renewing the ideal of equality In this book Christine Sypnowich proposes a theory of equality centred on human flourishing or wellbeing She argues that egalitarianism should be understood as seeking to make people more equal in the constituents of a good life Inequality is a social ill because of the damage it does to human flourishing unequal distribution of wealth can have the effect that some people are poorly housed badly nourished ill educated unhappy or uncultured among other things When we seek to make people more equal our concern is not just resources or property but how people fare under one distribution or another Ultimately the best answer to the question equality of what is some conception of flourishing since whatever policies or principles we adopt it is flourishing that we hope will be more equal as a result of our endeavours Sypnowich calls for both retrieval and innovation What is to be retrieved is the ideal of equality itself which is often assumed as a background condition of theories of justice yet at the same time dismissed as too homogenising abstract and rigid a criterion for political argument We must retrieve the ideal of equality as a central political principle In doing so she casts doubt on the value of focussing on cultural difference and rejects the idea of neutrality that dominates contemporary political philosophy in favour of a view of the state as enabling the betterment of its citizens *Justice as Right Actions* Young Kim,2015-10-08 Justice as Right Actions presents an original theory of justice anchored in the analytical philosophical tradition In contrast to many contemporary approaches the theory provides normative guidance rather than focusing solely on political structures and institutions as the question of justice is seen to comprise both a moral inquiry concerned with questions of good and bad right and wrong and a political inquiry concerned with the nature of the polity and how individuals relate to it Presenting a relational account of justice rather than a distributive account the latter so much more prevalent in current studies communications are seen as the key to the theory both in the substantive sense as a discursive method of resolving disputes as well as instrumentally in the transmission of concepts especially values through time Rule oriented in approach justice as right actions attempts to be value neutral acknowledging however an underlying thin theory of the good including concepts of rationality autonomous moral agency equal concern and respect for others as well as plurality of values Its political context is liberalism with components of

negative liberty and equality of concern and respect while underscoring as well the concepts of tolerance and social diversity In this study the original theory of Justice as Right Actions is also contrasted with and situated among contemporary accounts of justice including the most important theoretical works on the topic in the past half century Thus the study also serves as a valuable review and critique of such major contemporary accounts of justice
