

The Law of Evidence in a (small) nutshell

- Electronic documents – how does this change?
 - Authenticity: basic rule is OK – document supported by live witness – but e-documents are more subject to manipulation (sometimes). May be hard on a challenge.
 - Original (best evidence): may be meaningless for electronic document. Changed by legislation from a record-based test to a system-based test
 - Hearsay: no change in principle – because content does not change with the medium. Still OCB test.

achieved by Focusing on normative dimensions of professional work and combining these with a focus on empirical aspects of professional practice in a variety of setting and Recognising the inevitable tensions between personal trust and responsibility and largely depersonalised policies and strategies of quality control when normative and empirical aspects of professional responsibility are situated within their policy environments The concluding narrative moves beyond deconstruction complexity and critique of these considerations to a construction of new imagined horizons of professional responsibility from theoretical conceptual and practical perspectives This text sets out to transform professional responsibility through a re configuration of its constituent elements in imaginative and creative ways and by indicating the real world import of re charting the field *ABA Journal* ,2003-04 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians and associate members of the American Bar Association **Cases and Problems on Contracts** John D.
