Bachin examines the early days of the University of Chicago Chicago's public parks Comiskey Park and the Black Belt to consider how community leaders looked to the physical design of the city to shape its culture and promote civic interaction Bachin highlights how the creation of a local terrain of civic culture was a contested process with the battle for cultural authority transforming urban politics and blurring the line between private and public

space In the process universities parks and playgrounds and commercial entertainment districts emerged as alternative arenas of civic engagement Bachin incisively charts the development of key urban institutions and landscapes that helped constitute the messy vitality of Chicago s late nineteenth and early twentieth century public realm Daniel Bluestone Journal of American History This is an ambitious book filled with important insights about issues of public space and its use by urban residents It is thoughtful very well written and should be read and appreciated by anyone interested in Chicago or cities generally It is also a gentle reminder that people are as important as structures and spaces in trying to understand urban development Maureen A Flanagan American Historical Review

last thirty years both the corporation and the business environment has changed radically In The American Corporation Today Carl Kaysen and other leading students of business and markets from around the country provide a much needed analysis of American corporate life at the end of the century Here is the American corporation from every angle its postwar history its relation to the law its financing its impact on technological innovation its role as employer and as political force and much more The contributors all of whom are recognized experts in their fields not only tackle many of the same key areas that the contributors to Mason's classic study looked at but they also illuminate issues that have only arisen in recent years For instance Raymond Vernon describes the increasing globalization of American business where the net income from operations outside the U S is now nearly half of that from domestic operations as opposed to one tenth in the 1950s James Q Wilson traces how the corporation has become a full time political actor showing how it reinvented its political strategy and tactics in the 1960s in the face of a wave of new consumer environmental and worker health legislation Gregory Acs and Eugene Steuerle show how the corporation promotes the commonweal acting as agent for the employee in purchasing pension health and other welfare benefit plans while Lester Thurow casts a critical eye at the decline of median real wages of American males over the last twenty years never before have a majority of American workers suffered real wage reductions while the real per capita gross domestic product was increasing In other pieces corporate finance experts Charles Calomiris and Carlos Ramirez advocate removing legal constraints on financial institutions that prevent them from providing the full range of business financing from short term debt to equity Michael Useem looks at the rise of education and training as a vexing corporate issue and Barbara Bergmann discusses the increasingly diverse work force arguing that ending bias is in the corporation's best interest And finally Neil Harris provides a fascinating discussion of architecture exploring how companies have become the principle patrons of important architecture since the 1950s Vital to everyone concerned with American big business today this collection is sure to become the new standard upon which future studies of the corporation will be built
