Puppies Colors:

What Color Is Your Dog? Joel Silverman, 2011-07-19 This exciting dog training book is based on the original techniques of Hollywood dog trainer and Animal Planet's Good Dog U host Joel Silverman. In *What Color Is Your Dog* Silverman presents his groundbreaking color coding technique developed over his thirty year career training dogs for film television and commercials as well as working with killer whales in Sea World. By determining what color is an owner's dog he is able to recognize and then enhance his dog's behavior following the techniques outlined in the book. Silverman's advice for new puppy owners is to develop a strong trusting relationship with their puppies in their first thirty days. He shuns traditional concepts of beginning the puppy's lessons as soon as the puppy comes home instead he proposes that new owners spend time having fun building trust and enjoying the first month of the relationship. By increasing the dog's trust and like of his owner the dog becomes more willing and eager to please and work with his owner/trainer. The main gist of the book comes from Silverman's color system in which five basic canine personalities or temperaments are assigned colors. With the descriptions of the five colors in hand: Blue a fearful rather skittish type dog, Green a more or less bashful pooch, Yellow the ideal easygoing companion dog, Orange excitable but relatively under control dog, and Red the hyper high strung dog that bounces off the walls as soon as bark an owner is able to determine which color best matches his dog's temperament and approach the dog's lessons accordingly. The dog owner's goal then is to move his dog as close to the middle of the color spectrum Yellow as possible by using the training practices outlined in the book. Silverman devotes a full chapter to each of the five colors explaining what makes each color type tick and how owners should best handle such a dog. The second half of the book focuses on training tools and techniques and teaching specific cues sit stay stay come and no. There is also a chapter for the puppy owner giving helpful advice on special techniques to use for puppies. *Color and Shape Books for All Ages* Cathie Hilterbran Cooper, 2000 *Color and Shape Books for All Ages* calls attention to more than 450 titles focused on the concepts of color and shape. The purposes of the color and shape books range from simply learning the names of colors or identifying simple shapes to recognizing intricate geometric shapes or even understanding how color affects responses moods and attitudes. *Your German Shepherd Puppy Month By Month* Debra Eldredge, Liz Palika, 2012-12-04 *Your German Shepherd Puppy Month by Month* provides readers with everything they need to know and do at each stage of development to make sure their playful energetic puppy grows into a happy healthy and well adjusted companion.
