## **Religion And The Modern Mind:**

*Religion and the Modern Mind* Walter Terence Stace, 1960      *Religion and the Modern Mind* David Reid Hodgkin, 2006  
This book completed in 1952 is about using logical creative thinking in a creative universe and if man can put away childish things he becomes at home in one universe David Reid Hodgkin expresses the view that religious dogma has been like a blank wall against progress and is incompatible with the modern spirit and that no faith can stand long except on the hard rock of facts He believes that religious magic and ritual have given way to reason and science and that subjective poetry and objective science have replaced ritual and magic He states that religions look to the past and that science is oriented toward the future and that religion must be poetry not supernaturalism to be acceptable to the modern mind This is creative thinking in a creative universe and it is a poor faith which isolates man from his fellows we have had too much of it In this book Hodgkin emphasizes that the sciences have emancipated themselves from the supernatural and that science is a noble desire for unity and truth and that the true scientist is the most religious of all men known to history Through quotations from the greatest minds the world has known we learn that truth can never be a fixed formula for truth itself must evolve and that the pursuit of truth is the great endless adventure but the meaning must be found in the act of living We also learn that it is now disruptive and dangerous for men to stand righteously in the way of advancing knowledge The Appendix includes tributes to David Hodgkin from admirers John Idol Walter Boone Cratis Williams David Madden and Susan Parker Book jacket

**Religion and the Modern Mind** David R. Hodgkin, 2007-01-01      **Miracles and the Modern Mind** Norman L. Geisler, 2004-06-21 That miracles exist is an important part of the Christian tradition yet a brief survey of modern thought reveals a marked prejudice against this notion Here Geisler shows how the laws of logic and science speak to the reasonableness of miracles A dispassionate look at the facts and arguments demands that doubters question their own naturalistic assumptions Geisler also describes signs wonders and power contrasting what the Bible means by a miracle with bizarre stories of saints faith healers and occultists A continuation of his work begun in *Miracles and Modern Thought* *Miracles and the Modern Mind* includes extensive revisions and additions      *Beyond the Post-modern Mind* Huston Smith, 1989 How to transcend materialistic psychology and science Updated edition      **The Making of the Modern Mind** John Herman Randall, 1976 Surveys the intellectual background of man from medieval times through the Renaissance to modern times      *The Catholic Church and the Modern Mind* Bakewell Morrison, 1933      **The Learned Practice of Religion in the Modern University** Donald Wiebe, 2019-11-14 In these essays Donald Wiebe unveils a significant problem in the academic study of religion in colleges and universities in North America and Europe that studies almost always exhibit a religious bias To explore this issue Wiebe looks at the religious and moral agendas behind the study of religion showing that the boundaries between the objective study of religion and religious education as a tool for bettering society have become blurred As a result he argues religious studies departments have fostered an environment where religion has become

a learned or scholarly practice rather than the object of academic scrutiny This book provides a critical history of the failure of 20th and 21st century scholars to follow through on the 19th century ideal of an objective scientific study of religious thought and behaviour Although emancipated from direct ecclesiastical control and to some extent from sectarian theologizing Wiebe argues that research and scholarship in the academic department of religious studies has failed to break free from religious constraints He shows that an objective scientific study of religious thought and practice is not only possible but the only appropriate approach to the study of religious phenomena Religion and the Modern Mind W. E. Stace,1952 The World Religions Speak on "The Relevance of Religion in the Modern World" Finley P. Dunne,2013-12-14

*The Atonement and the Modern Mind* James Denney,2022-09-04 In *The Atonement and the Modern Mind* James Denney adeptly navigates the complex theological landscape of atonement theory critically engaging with contemporary thought while rooting his analysis in traditional Christian doctrine His meticulously structured argumentation reflects a deep understanding of both biblical texts and historical interpretations presenting a persuasive case for the relevance of atonement in a modern context Denney s literary style merges clarity with profound theological insight making esoteric concepts accessible to a broader audience His exploration of atonement not only challenges prevailing secular narratives but also reaffirms its significance within the Christian faith thus placing the work firmly in the tradition of theological reflection that seeks to resonate with modern existential concerns Denney a prominent theologian and minister of his time draws on his extensive background in biblical scholarship and pastoral experience to inform his writings His upbringing in the Evangelical tradition combined with a rigorous academic grounding uniquely positioned him to address the spiritual crises of the early 20th century By grappling with the intersection of theology and modern thought Denney illuminates the struggles and joys of faith in an age marked by skepticism and change providing both personal and scholarly reflections that enrich his theological stance For readers seeking a thoughtful exploration of atonement within the framework of contemporary beliefs Denney s work is an essential resource It encourages theological reflection and dialogue inviting both scholars and laypersons alike to reconsider the implications of atonement in their own lives and contexts Engaging with this text not only enhances understanding of Christian doctrine but also challenges readers to reflect on the transformative power of faith in a modern world Memoirs of a Positivist Malcolm Quin,2023-07-14 First published in 1924 *Memoirs of a Positivist* is both an autobiography of the author and a history of the English Positivist movement in the nineteenth and twentieth centuries It especially elaborates on the influence of the Positivist movement in the religious life of people and the manners in which scientific reasons were sought for religious beliefs This book will be of interest to students of philosophy religion and history

**God and the Modern Mind** Hubert Stanley Box,1937 Catalogue of the General Theological Library, Boston, Massachusetts General Theological Library,1913 **Divine-Human Encounter** Harold Kasimow,2024-05-30 In his seminal work *God in Search of Man* Heschel illustrates three paths to God and provides a practical guide for how the modern mind

can open itself to God or more precisely through which the contemporary mind can respond to a God who is in search of human beings In this book Harold Kasimow clarifies the meaning of Heschel's path to God by devoting one chapter to each of the three aspects of this path Using this path to God in its three aspects as an organizing principle this book illustrates how Heschel's thought presents a balance between the rational and mystical poles of the Jewish tradition A careful content analysis of his thinking reveals that Heschel is an authentic Jewish voice who presents an accurate Jewish theology The first chapter is devoted to the Hasidic influence on Heschel which Kasimow feels is most important for understanding Heschel's thought The final chapter focuses on Heschel's unique attitude toward Asian religious traditions which are becoming critical for authentic religious dialogue today

Public Religions in the Modern World José Casanova, 2011-08-29 In a sweeping reconsideration of the relation between religion and modernity Jose Casanova surveys the roles that religions may play in the public sphere of modern societies During the 1980s religious traditions around the world from Islamic fundamentalism to Catholic liberation theology began making their way often forcefully out of the private sphere and into public life causing the deprivatization of religion in contemporary life No longer content merely to administer pastoral care to individual souls religious institutions are challenging dominant political and social forces raising questions about the claims of entities such as nations and markets to be value neutral and straining the traditional connections of private and public morality Casanova looks at five cases from two religious traditions Catholicism and Protestantism in four countries Spain Poland Brazil and the United States These cases challenge postwar and indeed post Enlightenment assumptions about the role of modernity and secularization in religious movements throughout the world This book expands our understanding of the increasingly significant role religion plays in the ongoing construction of the modern world

Oelschlaeger,1991-01-01 How has the concept of wild nature changed over the millennia And what have been the environmental consequences In this broad ranging book Max Oelschlaeger argues that the idea of wilderness has reflected the evolving character of human existence from Paleolithic times to the present day An intellectual history it draws together evidence from philosophy anthropology theology literature ecology cultural geography and archaeology to provide a new scientifically and philosophically informed understanding of humankind s relationship to nature Oelschlaeger begins by examining the culture of prehistoric hunter gatherers whose totems symbolized the idea of organic unity between humankind and wild nature and idea that the author believes is essential to any attempt to define human potential He next traces how the transformation of these hunter gatherers into farmers led to a new awareness of distinctions between humankind and nature and how Hellenism and Judeo Christianity later introduced the unprecedented concept that nature was valueless until humanized Oelschlaeger discusses the concept of wilderness in relation to the rise of classical science and modernism and shows that opposition to modernism arose almost immediately from scientific literary and philosophical communities He provides new and in some cases revisionist studies of the seminal American figures Thoreau Muir and Leopold and he gives fresh readings of America s two prodigious wilderness poets Robinson Jeffers and Gary Snyder He concludes with a searching look at the relationship of evolutionary thought to our postmodern effort to reconceptualize ourselves as civilized beings who remain in some ways natural animals      **Religion and Public Doctrine in Modern England: Volume 2**
