Hooykaas, 1978 **Religion and the rise of modern science** Reijer Hooykaas, 1969 *Puritanism and the Rise of Modern Science* I. Bernard Cohen, Stuart Strickland, 1990 On industrial procurement a Brit view A collection of comment upon Merton s Science technology and society in seventeenth century England Annotation copyrighted by Book News Inc Portland OR Science and Religion Claudia May, Channon Visscher, 2023-10-24 Science and Religion Perspectives Across Disciplines interweaves science technology engineering and math STEM fields with the arts humanities theology and psychology to cultivate discussion on science and religion alongside biblical interpretation This anthology is paradoxically ecumenical for it embraces unifying and disparate positions without being prescriptive or exclusive It is both synergistic and disruptive Building on this premise the Advent and Easter stories are examined through praxes from STEM theology and psychology Taken together this anthology allows for connection between disciplines by creating community in the midst of differing approaches to the study of science and religion *The Warfare between Science & Religion* Jeff Hardin, Ronald L Numbers, Ronald A. Binzley, 2018-10-15 A very welcome volume of essays questioning the presumption of irreconcilable conflict between science and religion British Journal for the History of Science The conflict thesis the idea that an inevitable irreconcilable conflict exists between science and religion has long been part of the popular imagination The Warfare between Science and Religion assembles a group of distinguished historians who explore the origin of the thesis its reception the responses it drew from various faith traditions and its continued prominence in public discourse Several essays examine the personal circumstances and theological idiosyncrasies of important intellectuals including John William Draper and Andrew Dickson White who through their polemical writings championed the conflict thesis relentlessly Others consider what the thesis meant to different religious communities including evangelicals liberal Protestants Roman Catholics Eastern Orthodox Christians Jews and Muslims Finally essays both historical and sociological explore the place of the conflict thesis in popular culture and intellectual discourse today Based on original research and written in an accessible style the essays in The Warfare between Science and Religion take an interdisciplinary approach to question the historical relationship between science and religion and bring much needed perspective to an often bitter controversy Contributors include Thomas H Aechtner Ronald A Binzley John Hedley Brooke Elaine Howard Ecklund Noah Efron John H Evans Maurice A Finocchiaro Frederick Gregory Bradley J Gundlach Monte Harrell Hampton Jeff Hardin Peter Harrison Bernard Lightman David N Livingstone David Mislin Efthymios Nicolaidis Mark A Noll Ronald L Numbers Lawrence M Principe Jon H Roberts Christopher P Scheitle M Alper Yal inkaya **Science and Religion Around the World** John Hedley Brooke, Ronald L. Numbers, 2011-01-11 The past quarter century has seen an explosion of interest in the history of science and religion But all too often the scholars writing it have focused their attention almost exclusively on the

Christian experience with only passing reference to other traditions of both science and faith At a time when religious ignorance and misunderstanding have lethal consequences such provincialism must be avoided and in this pioneering effort to explore the historical relations of what we now call science and religion the authors go beyond the Abrahamic traditions to examine the way nature has been understood and manipulated in regions as diverse as ancient China India and sub Saharan Africa Science and Religion around the World also provides authoritative discussions of science in Judaism Christianity and Islam as well as an exploration of the relationship between science and the loss of religious beliefs The narratives included in this book demonstrate the value of plural perspectives and of the importance of location for the construction and perception of science religion relations *The Oxford Handbook of Religion and Science* Philip Clayton,Zachary Simpson,2006 The field of science and religion is exploding in popularity among both academics and the reading public This is a comprehensive and authoritative introduction to the debate written by the leading experts yet accessible to the general reader [The Trinitarian Theology of Dr. Samuel Clarke \(1675-1729\)](#) Thomas C. Pfizenmaier,2022-07-04 This volume deals with the trinitarian debate in early eighteenth century England Samuel Clarke s trinitarian thought represents a reappraisal of that doctrine in the light of early modern philosophy and close Patristic study This work utilizes current studies on the fourth century debate recent evaluations of Latitudinarianism and previously unpublished theological manuscripts of Sir Isaac Newton s to shed light on Clarke s treatment of this central Christian doctrine The conclusion calls for a reclassification of Clarke s thought by historians of doctrine The volume is organized in three parts The first examines Clarke s intellectual milieu the second treats his use of sources and the third evaluates his role in the Trinitarian controversy Students of Latitudinarianism the doctrine of the Trinity and Isaac Newton s thought will all profit from this discussion In addition those interested in the relationship between science and religion will benefit **Religious Origins of Modern Science** Eugene M. Klaaren,1985-07-31 **The Dynamics of Aristotelian Natural Philosophy from Antiquity to the Seventeenth Century** ,2021-08-04 This book explores the dynamics of the commentary and textbook traditions in Aristotelian natural philosophy under the headings of doctrine method and scientific and social status It enquires what the evolution of the Aristotelian commentary tradition can tell us about the character of natural philosophy as a pedagogical tool as a scientific enterprise and as a background to modern scientific thought In a unique attempt to cut old fashioned historiographic divisions it brings together scholars of ancient medieval Renaissance and seventeenth century philosophy The book covers a remarkably broad range of topics it starts with the first Greek commentators and ends with Leibniz **The Privileged Planet** Guillermo Gonzalez,Jay W. Calvinism and the Making of the European Mind ,2014-09-18 Calvinism must be assigned a significant place among the forces that have shaped modern European culture Even now despite its history of religious fragmentation and secularization Europe continues to bear the marks of a pervasive Calvinist ethos The character of that ethos is however difficult to pin down In this volume many of the traditional scholarly conundrums about the relationship between Calvinism and the cultural history of Europe are revisited and re investigated to see what new light can be shed on them For example how has the ethos of Calvinism or more broadly the Reformed tradition affected economic thinking and practice the development of the sciences views on religious toleration or the constitution of European polities In general what kind of transformations did Calvinism s distinct spirituality bring about Such questions demand painstaking and detailed scholarly work a fine sample of which is published in this volume

Quakers, Jews, and Science G. N. Cantor,2005-09-22 This study examines how two minorities the Quaker and Anglo Jewish communities engaged with the sciences With their roots in the mid seventeenth century both communities maintained their religious and social norms throughout the eighteenth and nineteenth centuries while standing outside the hegemony of the Anglican Church and being subject to various forms of discrimination Yet for both Quakers and Jews science offered educational and career opportunities and participation in the wider society They adopted their own scientific interests with Quakers being attracted principally to the observational sciences Drawing on a wealth of documentary material much of which has not been analysed by previous historians Geoffrey Cantor charts the involvement of Quakers and Jews in many different aspects of science scientific research science education science related careers and scientific institutions ranging from the Royal Society to the Great Exhibition
