Votives, Places and Rituals in Etruscan Religion Margarita Gleba, Hilary Becker, 2008-11-30 Etruscans were deemed the most religious of men by their Roman successors and it is hardly surprising that the topic of Etruscan religion has been explored for some time now This volume offers a contribution to the continued study of Etruscan religion and daily life by focusing on the less explored issue of ritual Ritual is approached through fourteen case studies considering mortuary customs votive rituals and other religious and daily life practices The book gathers new material interpretations and approaches to the less emphasized areas of Etruscan religion especially its votive aspects based on archaeological and epigraphic sources

The Etruscans: A Very Short Introduction Christopher Smith, 2014-05-29 From around 900 to 400 BC the Etruscans were the most innovative powerful wealthy and creative people in Italy Their archaeological record is both substantial and fascinating including tomb paintings sculpture jewellery and art In this Very Short Introduction Christopher Smith explores Etruscan history culture language and customs Examining the controversial debates about their origins he explores how they once lived placing this within the geographical economic and political context of the time Smith concludes by demonstrating how the Etruscans have been studied and perceived throughout the ages and the impact this has had on our understanding of their place in history ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable *A Companion to the Etruscans* Sinclair Bell, Alexandra A. Carpino, 2016-02-23 This new collection presents a rich selection of innovative scholarship on the Etruscans a vibrant independent people whose distinct civilization flourished in central Italy for most of the first millennium BCE and whose artistic social and cultural traditions helped shape the ancient Mediterranean European and Classical worlds Includes contributions from an international cast of both established and emerging scholars Offers fresh perspectives on Etruscan art and culture including analysis of the most up to date research and archaeological discoveries Reassesses and evaluates traditional topics like architecture wall painting ceramics and sculpture as well as new ones such as textile archaeology while also addressing themes that have yet to be thoroughly investigated in the scholarship such as the obesus etruscus the function and use of jewelry at different life stages Greek and Roman topoi about the Etruscans the Etruscans reception of ponderation and more Counters the claim that the Etruscans were culturally inferior to the Greeks and Romans by emphasizing fields where the Etruscans were either technological or artistic pioneers and by reframing similarities in style and iconography as examples of Etruscan agency and reception rather than as a deficit of local creativity **The Religions of the Ancient World** George Rawlinson, 1885

Archaic Roman Religion Georges Dumézil, 1996 When St Paul and St Peter reached Rome they encountered a state sponsored religion that had been established for centuries Amid the shrines and temples of Rome the Romans sought to preserve and strengthen a religion especially suited to the ambitious city But Roman religion had also proved permeable to

many influences from Greece Egypt Persia and other parts of Italy What then was truly Roman and what had Romans done with their borrowings to stamp them with Roman character By exhaustive study of texts inscriptions and archaeology of Roman sacred places Dumezil traces the formation of archaic Roman religion from Indo European sources through the development of the rites and beliefs of the Roman republic He describes a religion that was not only influenced by the other religions with which it came into contact but influenced them as well in mutual efforts to distinguish one nation from another Even so certain continuities were sustained in order to achieve a religion that crossed generations and ways of life The worship of certain gods became the special concerns of certain parts of society all of which needed attention to assure Rome's success in war civil administration and the production of food and goods

A Short History of the Etruscans Corinna Riva, 2020-12-10 Of all civilizations of the ancient Mediterranean it is perhaps the Etruscans who hold the greatest allure This is fundamentally because unlike their Greek and Latin neighbours the Etruscans left no textual sources to posterity The only direct evidence for studying them and for understanding their culture is the archaeological and to a much lesser extent epigraphic record The Etruscans must therefore be approached as if they were a prehistoric people and the enormous wealth of Etruscan visual and material culture must speak for them Yet they offer glimpses in the record left by Greek and Roman authors that they were literate and far from primordial indeed that their written histories were greatly admired by the Romans themselves Applying fresh archaeological discoveries and new insights *A Short History of the Etruscans* engagingly conducts the reader through the birth growth and demise of this fascinating and enigmatic ancient people whose nemesis was the growing power of Rome Exploring the discovery of the Etruscans from the Renaissance onwards Corinna Riva discusses the mysterious Etruscan language which long remained wholly indecipherable the Etruscan landscape the 6th century growth of Etruscan cities and Mediterranean trade Close attention is also paid to religion and ritual sanctuaries and monumental grave sites and the fatal incorporation of Etruria into Rome's political orbit

Religious Architecture in Latium and Etruria, C. 900-500 BC Charlotte Rose Potts, 2015 *Religious Architecture in Latium and Etruria c 900 500 BC* presents the first comprehensive treatment of cult buildings in western central Italy from the Iron Age to the Archaic Period By analysing the archaeological evidence for the form of early religious buildings and their role in ancient communities it reconstructs a detailed history of early Latial and Etruscan religious architecture that brings together the buildings and the people who used them

Baughan, Lisa C. Pieraccini, 2023-03-09 Striking similarities in Etruscan and Anatolian material culture reveal various forms of contact and exchange between these regions on opposite sides of the Mediterranean This is the first comprehensive investigation of these connections approaching both cultures as agents of artistic exchange rather than as side characters in a Greek focused narrative It synthesizes a wide range of material evidence from c 800 300 BCE from tomb architecture and furniture to painted vases terracotta reliefs and magic amulets By identifying shared practices common visual language and movements of objects and artisans from both east to west and west to east it illuminates many varied threads of the interconnected ancient Mediterranean fabric Rather than trying to account for the similarities with any one overarching theory this volume presents multiple simultaneous modes and implications of connectivity while also recognizing the distinct local identities expressed through shared artistic and cultural traditions Sacred Annals; Or, Researches Into the History and Religion of Mankind: The gentile nations: or, The history and religion of the Egyptians, Assyrians, Babylonians, Medes, Persians, Greeks, and Romans. 1855 George Smith, 1855 **The Etruscans** Lucy Shipley, 2023-09-24 Now in paperback a brief introduction to the mysteries of the enigmatic ancient civilization in the area of modern Italy The Etruscans were a powerful people marked by an influential civilization in ancient Italy But despite their prominence the Etruscans are often portrayed as mysterious a strange and unknowable people whose language and culture have largely vanished Lucy Shipley's *The Etruscans* presents a different picture Shipley writes of a people who traded with Greece and shaped the development of Rome who inspired Renaissance artists and Romantic firebrands and whose influence is still felt strongly in the modern world Covering colonialism and conquest misogyny and mystique she weaves Etruscan history with new archaeological evidence to give us a revived picture of the Etruscan people The book traces trade routes and trains of thought describing the journey of Etruscan objects from creation to use loss rediscovery and reinvention From the wrappings of an Egyptian mummy displayed in a fashionable salon to the extra curricular activities of Bonaparte from a mass looting craze to a bombed museum in a town marked by massacre the book is an extraordinary voyage through Etruscan archaeology which ultimately leads to surprising and intriguing places In this sharp and groundbreaking book Shipley gives readers a unique perspective on an enigmatic people revealing just how much we know about the Etruscans and just how much still remains undiscovered Etruscans:

Athens, Etruria, and the Many Lives of Greek Figured Pottery Sheramy D. Bundrick,2019-02-26 A lucrative trade in Athenian pottery flourished from the early sixth until the late fifth century B C E finding an eager market in Etruria Most studies of these painted vases focus on the artistry and worldview of the Greeks who made them but Sheramy D Bundrick shifts attention to their Etruscan customers ancient trade networks and archaeological contexts Thousands of Greek painted vases have emerged from excavations of tombs sanctuaries and settlements throughout Etruria from southern coastal centers to northern communities in the Po Valley Using documented archaeological assemblages especially from tombs in southern Etruria Bundrick challenges the widely held assumption that Etruscans were hellenized through Greek imports She marshals evidence to show that Etruscan consumers purposefully selected figured pottery that harmonized with their own local needs and customs so much so that the vases are better described as etruscanized Athenian ceramic workers she contends learned from traders which shapes and imagery sold best to the Etruscans and employed a variety of strategies to maximize artistry output and profit
