Indigenous Perceptions of the End of the World

Rosalyn Bold, 2019-06-29 This edited volume constructs a cosmopolitics of climate change consulting small scale sustainable communities on whether the world is ending and why and how we can take action to prevent it By comparing scientific and indigenous accounts of the same phenomenon contributors seek to broaden Western understandings of what climate change constitutes In this context existing cosmologies are challenged opening spaces for hegemonic narratives to enter into conversation with the non modern and construct worlds otherwise situations of world change and renewal through climate change Bold brings together perspectives from Central America Mexico the Amazon and the Andes to converse with scientific narratives of climate change and create cracks that bring new worlds into being for readers

La religión de la tierra en los andes centrales DI SALVIA Daniela, 2014-04-09 Este trabajo de investigación profundiza en el imaginario simbólico religioso que algunos pueblos quechuas de los Andes de Ollantaytambo Cuzco Per tienen de la tierra esto es de un elemento

integrante de su entorno ambiental que sienten como vivo en cuanto productivo y cuya benevolencia productiva consideran necesario propiciar mediante diversos rituales religiosos para poder seguir subsistiendo en la sierra altoandina

Concretamente se averigua si el culto quechua a lo tel rico puede incluirse en una definición de la religión elaborada en referencia a lo sobrenatural y a lo divino como categorías paradigmáticas que trascienden no tanto el poder humano cuanto sobre todo los procesos de la Naturaleza física y por tanto también aquellos biológicos de la tierra Bajo estas perspectivas de análisis se ponen en discusión las referidas categorías generales de la teoría antropológica religiosa acudiendo por otro lado a una renovada interpretación del culto religioso quechua de lo tel rico por la cual la de la tierra se presenta como una religiosidad de la immanencia en la que priman las cualidades topográficas del entorno altoandino y los hechos ecológicos que relacionan al hombre quechua con este último

Rethinking the Inka Frances M. Hayashida, Andrés Troncoso, Diego Salazar, 2021-11-30 The Inka conquered an immense area extending across five modern nations yet most English language publications on the Inka focus on governance in the area of modern Peru This volume expands the range of scholarship available in English by collecting new and notable research on Qullasuyu the largest of the four quarters of the empire which extended south from Cuzco into contemporary Bolivia Argentina and Chile From the study of Qullasuyu arise fresh theoretical perspectives that both complement and challenge what we think we know about the Inka While existing scholarship emphasizes the political and economic rationales underlying state action Rethinking the Inka turns to the conquered themselves and reassesses imperial motivations The book's chapters incorporating more than two hundred photographs explore relations between powerful local lords and their Inka rulers the roles of nonhumans in the social and

political life of the empire local landscapes remade under Inka rule and the appropriation and reinterpretation by locals of Inka objects infrastructure practices and symbols Written by some of South America s leading archaeologists Rethinking the Inka is poised to be a landmark book in the field Los Católicos paganos y el padre nuestro al revés Ina Rösing,2006
