increasingly become a factor in determining the course of today's complex and interconnected world. The U.S. experience in Afghanistan and Iraq extended this trend to national security and military operations. There is also a growing recognition by the national security community that culture is an important factor at the policy and strategy levels. Cultural proficiency at the policy and strategy levels means the ability to consider history, values, ideology, politics, religion, and other cultural dimensions and assess their potential effect on policy and strategy. The Analytical Cultural Framework for Strategy and Policy (ACFSP) is one systematic and analytical approach to the vital task of viewing the world through many lenses. The ACFSP identifies basic cultural dimensions that seem to be of fundamental importance in determining such behavior and thus are of importance in policy and strategy formulation and outcomes. These dimensions are: 1. Identity or the basis for defining identity and its linkage to interests; 2. Political Culture or the structure of power and decisionmaking; and 3. Resilience or the capacity or ability to resist, adapt, or succumb to external forces. Identity is the most important because it ultimately determines purpose, values, and interests that form the foundation for policy and strategy to attain or preserve those interests.

**Cricket and Contemporary Society in Britain** Russell Holden, 2021-11-29. This book investigates the declining status of cricket within contemporary British society after the high water mark of England's Ashes victory in 2005. It considers the deep roots of the game within British national life as well as its ever-changing nature and reflects upon the current significance and relevance of a sport that many still perceive as deeply traditional and conservative in outlook. Adopting a socio-political approach, the book offers new perspectives on both the contemporary realities of modern cricket and the social, cultural, and political condition of modern Britain. Rather than focusing on personality and the detail of match history, the book looks at how the sport has coped with wider societal changes such as those in Afro-Caribbean and South Asian communities and how this has demanded adaptation by cricket's governing authorities. The book also considers the international context in which the game continues to develop and how the initiative with new formats such as Twenty20 has been lost to other cricketing nations and it offers insight into the continued expansion and recent professionalization of the women's game, hinting at ways in which cricket as a whole could recapture the public's imagination. *Cricket and Contemporary Society in Britain* is an invaluable resource for those studying the sociology of sport, sport history, cultural studies, the politics of sport, cultural identity, sport management, and sport development. It is also a fascinating read for anybody with an interest in cricket or in the value of sport in an era of rapid socio-economic, political, and cultural change.

**Bemba-Speaking Women of Zambia in a Century of Religious Change (1892-1992)** Hugo F. Hinfelaar, 2025-02-10 Bemba Speaking Women of Zambia traces the often painful religious changes that have occurred among the Bemba speaking women of Zambia since the last decade of the 19th century It argues that the religious tenets of the traditional domestic cult had already been undermined by the centralising tendencies of the merchant princes before the arrival of the missionaries who based their church structures on the concept of the Bemba hierarchy The body of the book describes with great authority the creative redress of the women as channelled through independent Christian movements and through the mission churches themselves These chapters are especially important as it is shown in the last part of the book that these genuine reactions of the women could well offer material for genuine inculturation

**Animism of the Nilotics and Discourses of Islamic Fundamentalism in Sudan** Kuel Maluil Jok, 2010 This book provides a comprehensive analysis of Animism as a religion and a culture of the Nilotic peoples of the Upper River Nile in modern Southern Sudan It gives an account of how the animistic ritual performances of the divine chief priests are strategies in conflict management and resolution For centuries the Nilotic peoples have been resisting changes to new religious identities and conservatively remained Animists Their current interactions with the external world however have transformed their religious identities At present the Nilotics are Animist Christians or Animist Muslims This does not mean that the converted Nilotics relinquish Animism and become completely assimilated to the new religious prophetic dogmas instead they develop compatible religious practices of Animism Christianity and Islam New Islamic fundamentalism in Sudan which is sweeping Africa into Islamic religious orthodoxy where Sharia Islamic law is the law of the land rejects this compatibility and categorises the Nilotics as heathens and apostates Such characterisation engenders opposing religious categories with one side urging Sharia and the other for what this study calls gradable culture Kuel Jok is a researcher at the Department of World Cultures at the University of Helsinki In Sudan Jok obtained a degree in English Linguistics and Literature and diplomas in Philosophy and Translation He also studied International Law in Egypt In Europe Jok acquired an MA in Sociology from the University of Joensuu Finland and a PhD in the same field from the University of Helsinki Finland

[The Oxford Handbook of Caribbean Religions](#) Michelle A. Gonzalez, Michelle Gonzalez Maldonado, 2024 The Oxford Handbook of Caribbean Religions offers a comprehensive overview of Caribbean religions The Caribbean is a microcosm of the world's religions but the small geographic space resulted in the encounter of global religions and indigenous religious practices The racial ethnic and cultural diversity of this region makes brief introductions to Caribbean religions incapable of truly addressing its complex

and diverse religious landscape The Handbook also elaborates on the diversity of the religious traditions and the national particularity of the region while also considering multiple geographic settings It mentions how often Caribbean religion is studied through the perspective of a discrete religious tradition or geographic setting

**The Abrahamic Religions**

Hamma Mirwaisi, 2020-04-29 Can you disprove me that Lord Krishna Enslaved the Black African of Egypt To understand the origin of the Hidden Secrets of the Judaism Religions please read this description with open mind I did spend 12 years to find out truth about my finding in my books I always was wondering why the members of the Christian religions in Europe later America and Australia were guided to study Egyptian civilization instead of the Caucasian Civilization Indeed I found out who is behind that guidance The descendant of Lord Krishna helped the Roman Empire ruler to create this new Christian religion in the name of Jesus Christ after three hundred years of his death First they changed Jesus Christ original teaching and then made him be loyal to the Old Testament Hebrew Bible while in his life did not believe it We are told he throw away the old testament how can the members of the new Christian religion believes that the old testament is the source or references to their Christian religious Bible Here is what I found about Lord Krishna Lord Krishna and The Establishment of the Egyptian Empire Lord Krishna and his brother Balarama s stories are the keys to understand Hebrew Jewish and Greek people past It is clear from ancient document left in India that the Pandavas brother win Kurukshetra war and chased Lord Krishna and his brother Lord Balarama with their supporters and Kauravas army survivors out of today India and Pakistan to today Israel and Greek Island According to the open sources with listed references During its long history Jerusalem has been attacked 52 times captured and recaptured 44 times besieged 23 times and destroyed twice The oldest part of the city was settled in the 4th millennium BC or BCE making Jerusalem one of the oldest cities in the world Note The Temple of Yerushal yim Jerusalem is built by Lord Krishna in 3100 BCE and Caucasian people lived on the land thousands of years on the land before his arrival Archaeological evidence suggests that the first settlement was established near Gihon Spring between 4500 3500 BCE The first known mention of the city was in c 2000 BCE in the Middle Kingdom Egyptian Execration Texts in which he was recorded as Rusalimum The root S L M in the name is thought to refer to either peace compare with modern Salam or Shalom in modern Arabic and Hebrew or Shalim the god of dusk in the Canaanite religion Author note The Greek and Hebrew Jews scholars have been in control of histories and scientist or Archaeology in the last 2000 years They wrote every kind of misinformation to serve their ancient Deva religion domination of the world It is clear that Lord Krishna as the God of Deva religion did build the city of Jerusalem and used it as his headquarter to wage war against the Caucasian people as the members of the Aryan religion Kurukshetra armies under the leadership of the Pandavas brothers The Egyptian Empire 3100 525 BCE and the Early Dynastic Period of Egypt immediately followed the unification of Lower and Upper Egypt c 3100 BCE and was assumed to include the First and Second Dynasties lasting from the Protodynastic Period of Egypt until about 2686 BCE Egypt was never conquered until 525 BCE when Emperor Cambyses II of the Median Empire son of Cyrus the Great

fulfilled his father's dream to assume control of Egypt because the Egyptian of black Africans under the leadership of Deva religion leaders namely the descendant of Lord Krishna had waged war against the Caucasian people's Empires since its establishment. Egyptian led black African tribes conquered the Caucasian lands around 3000 BCE and established two colonies Canaan between the Red and Mediterranean Seas while the brother of Lord Krishna by name of Lord Balarama settled on Greek Island with his followers and which became the home base for the Egyptian Navy. Originally called Sea people, the occupiers of these islands were later known as Greeks. The Greeks, Armenians, Assyrian, Chaldean, Syriac, Amorites, Babylonians, Hebrews and others adopted Aramaic language which is very close to the African Arabs language. Native Religions and Cultures of North America Lawrence Sullivan, 2003-03-28 This volume contains insightful essays on significant spiritual moments in eight different Native American cultures: Absaroke, Crow, Creek, Muskogee, Lakota, Mescalero, Apache, Navajo, Tlingit, Yupik and Yurok. **Religious Hair Display and Its Meanings** William C. Innes, Jr, 2021-04-30 This book explores the fascinating world of religious hair observances within six religious traditions that account for 77% of the world's adherents: Judaism, Christianity, Islam, Hinduism, Buddhism, and Sikhism. Symbolic use of hair has been and remains prevalent in all six and carries significant amounts of religious and social meaning. Hair is a unique body substance. It can be shaped and colored, removed from us without pain but still retain an individual's essence, signal our age, sex, and sexual maturity, and much much more. The book's approach is to situate each practice within its tradition. That requires a study of its foundational leaders and their teachings, sacred texts where they mention hair, its rites and rituals, ideas of religious power, and subsequent historical development. Contemporary practitioners are interviewed for their motivations. Even more insight can be gleaned by searching beyond an overt religious purpose. Social scientists from anthropology, sociology, psychology, and related fields bring their research to deliver added perceptions. The author reveals how hair practices are created from ancient psychological and cultural impulses, become modified by time, culture, and religious intent, and are adopted by adherents for reasons ranging from personal religious expression to group identity. This book is written for the interested observer of our increasingly diverse society and for the student of comparative religion and sociology. It will change forever how you see hair.

**The State in Eurasia: Performance in Local and Global Arenas** Ms Anita Sengupta, Ms Suchandana Chatterjee, 2012-01-15 Since the emergence of post-Soviet states in the Eurasian space, there has been considerable reflection on the role that the state has played in the local and global arenas. Transformation from being part of the Soviet to independent existence has meant state involvement in the forging of new nations out of disparate identities based on the criteria of national languages, the reinterpretation of historical events, depiction of personality-centric themes, the portrayal of illustrative careers, and the rhetoric of development. This volume focuses on some of the aspects of this involvement through studies of the performative role of the Central Asian states in the arena of politics, diplomacy, culture, historical memory, and their interaction within the Eurasian space. It reflects on ways in which the state reacts to society and how discourses in the

field of economy society and culture dovetail with or diverge from the political discourse about state building Relations between formal institutions and informal structures emerging conceptions of democracy in the context of the Tulip Revolution in Kyrgyzstan and the disruptive events in western Kazakhstan during the twentieth anniversary of the republic s independence the nature of bilateral and multilateral alignments among regional and interregional actors are some of the aspects through which the role of the state has been examined by the authors The volume seeks to address the question of how the state acts as an agent of influence and control not just on performative traditions but also in the creation of a single community as the basis for a nation

**Corporate Designing Religion** Graham Wiseman,2023-10-18 Design professionalism interwoven with strategic marketing skills and advances in the technologies of digital communication are changing the interface and conceivably the future image of religious institutions How and to what extent does corporate design influence the identity of religious institutions in the digital era Six denominational case studies including multifaith in Europe were investigated The concluding hypotheses outline principal response indicators supplemented by a Religious Branding Compass to assist in identifying the religious institutions visual identity projections

State, Society, and Religious Engineering Khun Eng Kuah-Pearce,2009 The book looks at how religion in Singapore is being subjected to the processes of modernisation and change The Singapore State has consciously brought religion under its guidance It has exercised strong bureaucratic and legal control over the functioning of all religions in Singapore The Chinese community and the Buddhist Sangha have responded to this by restructuring their temple institutions into large multi functional temple complexes There has been quite a few books written on the role of the Singapore State but so far none has been written on the topic the relationship between state society and religion It will help to fill the missing gap in the scholarly literature on this area This is also a topic of great significance in many Asian particularly Southeast Asian countries and it will serve as an important book for future reference in this area of research and comparative studies
