Religion Et Magie Des Bayaka:

Religion et magie des Bayaka L. de Beir, 1975-01-01 **The Yaka and Suku** Bourgeois, 2023-09-20 Scholarly monographs on the iconography of African religions *African Divination Systems* Philip M. Peek, 1991 This volume of finely crafted case studies is also the vehicle for an important general theory of divination this is a book overflowing with ideas that will powerfully stimulate further research *Journal of Ritual Studies* The essays in this collection provide a very useful overview of both the diversity of African divination systems and of recent approaches to their study *Choice* This unique collection of essays by an exceptional international group of Africanists demonstrates the central role that divination continues to play throughout Africa in maintaining cultural systems and in guiding human action *African Divination Systems* offers insights for current discussions in comparative epistemology cross cultural psychology cognition studies semiotics ethnosociology religious studies and anthropology *Explorations in Psychoanalytic Ethnography* Jadran Mimica, 2007-05-01 Whereas most anthropological research is grounded in social cultural and biological analysis of the human condition this volume opens up a different approach its concerns are the psychic depths of human cultural life worlds as explored through psycho analytic practice and or the psychoanalytically framed ethnographic project In fact some contributors here argue that the anthropological interpretation of human existence is not sustainable without psychoanalysis others take a less extreme radical stance but still maintain that the unconscious matrix of the human psyche and of the intersubjective social reality of any given cultural life world is a vital domain of anthropological and sociological inquiry and understanding *Weaving the Threads of Life* Renaat Devisch, 1993-11 For the Yaka of Southwestern Zaire infertility is a tear in the fabric of life and the Khita fertility ritual is a trusted way of reweaving the damaged strands In *Weaving the Threads of Life* Rene Devisch offers an extended analysis of the Khita cult which leads to an original account of the workings of ritual healing Drawing on many years among urban and rural Yaka Devisch analyzes their understanding of existence as a fabric of firmly but delicately interwoven threads of nature body and society The fertility healing ritual calls forth forces feelings and meanings that allow women to rejoin themselves to the complex pattern of social and cosmic life These elaborate rites whether simulating mortal agony and rebirth gestation and delivery or flowering and decay using music and dance steam bath or massage dream messages or scarification are not based on symbols of traditional beliefs Rather Devisch shows the rites themselves generate forces and meaning creating and shaping the cosmic physical and social world of their participants In contrast to current theoretical methods such as postmodern or symbolical interpretation Devisch's praxiological approach is unique in also using phenomenological insights into the intent and results of anthropological fieldwork This innovative work will have ramifications beyond African studies reaching into the anthropology of medicine and the body comparative religious history and women's studies **The Law of the Lifegivers** Claude Brodeur, René Devisch, 2018-12-07 African societies are gifted with a rich creativity often expressed in intimate corporeal terms For the Yaka people of southwestern Congo such

manifestations can have individual social or even cosmic significance The Law of the Lifegivers investigates the importance among the Yaka of body and space in their daily life exercise of power and initiatic traditions Through this analysis Devisch and Brodeur show that body desire and symbol are intertwined so that bodily expression can act as sensuous and powerful symbol The domestication of passion and the institutionalizing of a subject are all expressed in bodily terms particularly during initiations the ethical order of law rests on many bodily symbols including the importance of maternal and paternal lifegivers The authors vividly describe the different life giving or life threatening roles which function in this society such as sorcerer diviner therapist and chief as well as the funeral drama which shapes the passage to the afterlife with the ancestors as experienced by the dying subject and his community Through their dialogue and correspondence Devisch and Brodeur an anthropologist and a psychoanalyst respectively bring together two sometimes conflicting intellectual approaches They aim to unravel a truth which is freed as much as possible from the presumption that only the West possesses the knowledge of objective discourse and science Through the interaction the authors reveal the semantic threads located at the very heart of the most vital life giving processes which weave the fabric of the practice and thought of a riveting passionate Africa

Divination and Healing Michael Winkelman, Philip M. Peek, 2022-08-23 Divination is an important feature of cultures all over the world While some may still question the efficacy of divination systems they continue to serve their communities by diagnosing ailments prescribing healing treatments and solving problems Yet despite their universality there are relatively few comprehensive studies of divination systems This volume seeks to fill this gap regarding the use of divination in healing Here some of the world's leading authorities draw on their own fieldwork and participation in ritual to present detailed case studies demonstrating that divination rituals can have therapeutic effects As the contributors examine the systems of knowledge that divination articulates and survey the varieties of divinatory experience they seek to analyze divination as an epistemological system as a social process and as a therapeutic endeavor While some of their findings reinforce traditional assumptions about the importance of social control spirit relations and community support in the divination process the authors place these considerations within new epistemological frameworks that emphasize the use of alternative modes of knowing In this wide ranging volume readers will find coverage of classic Ifa systems Buddhist influenced shamanic practices in the former Soviet Union the reconciliation of Muslim beliefs and divinatory practices in Thailand Native American divination used in diagnosis Maya calendrical divination in Guatemala mediumistic and chicken oracle divination among the Sukuma of Tanzania Ndembu divination focusing on the process of collective healing and divination among the Samburu Maasai of Kenya featuring dialogues from actual healing sessions Together these contributions argue for new perspectives on the study of divination that emphasize not only the epistemological roots of these systems but also their multifaceted therapeutic functions Divination and Healing is a rich source of both data and insight for scholars of ritual religion medical anthropology and the psychology of altered states of consciousness

Bodies and Persons Michael Lambek, Andrew Strathern, 1998-03-28 Large scale comparisons are out of fashion in anthropology but this book suggests a bold comparative approach to broad cultural

differences between Africa and Melanesia Its theme is personhood which is understood in terms of what anthropologists call embodiment These concepts are applied to questions ranging from the meanings of spirit possession to the logics of witchcraft and kinship relations the use of rituals to heal the sick electric vampires and even the impact of capitalism There are detailed ethnographic analyses and suggestive comparisons of classic African and Melanesian ethnographic cases such as the Nuer and the Melpa The contributors debate alternative strategies for cross cultural comparison and demonstrate that there is a surprising range of continuities putting in question common assumptions about the huge differences between these two parts of the world National Union Catalog ,1980 Includes entries for maps and atlases **Reflecting on Reflexivity** T. M. S. (Terry) Evens,Don Handelman,Christopher Roberts,2016-03-01 Humanness supposes innate and profound reflexivity This volume approaches the concept of reflexivity on two different yet related analytical planes Whether implicitly or explicitly both planes of thought bear critically on reflexivity in relation to the nature of selfhood and the very idea of the autonomous individual ethics and humanness science as such and social science ontological dualism and fundamental ambiguity On the one plane a collection of original and innovative ethnographically based essays is offered each of which is devoted to ways in which reflexivity plays a fundamental role in human social life and the study of it on the other anthropo philosophical and developed in the volume s Preface Introduction and Postscript it is argued that reflexivity distinguishes definitively albeit relatively the being and becoming of the human **Joint Acquisitions List of Africana** ,1977
