Religion in Radical Transition Jeffrey K. Hadden, 1973-01-01 *Religion in Radical Transition. Edited by Jeffrey K. Hadden* Jeffrey K ed Hadden, **Transitions and Transformations in the History of Religions** Reynolds, TH.M. Ludwig, 2018-11-13 *Religion and Psychology in Transition* James W. Jones, 2008-10-01 In this thought provoking book clinical psychologist and professor of religious studies James W Jones presents a dialogue between contemporary psychoanalytic thinking and contemporary theology He sheds new light on the interaction of religion and psychology by viewing it from the perspective of world religions providing an epistemological framework for the psychology of religion that draws on contemporary philosophy of science and bringing out the importance of gender as a category of analysis Developments in psychoanalysis provide new resources for theological reflection Jones contends The Freudian view that human nature is isolated and instinctual has shifted to a vision of the self as constituted in and through relationships Jones uses this relational model of human nature to explore the convergence between contemporary psychoanalysis feminist theorizing and themes in religious thought found in a variety of traditions He also critiques the reductionism inherent in Freud's discussion of religion and proposes nonreductionistic and genuinely psychoanalytic ways for psychoanalysis to treat religious topics For therapists psychologists theologians and others interested in spiritual or psychological issues Jones offers illuminating clinical material and insightful analysis *Transitions and Transformations in the History of Religions* Joseph Mitsuo Kitagawa, Frank E. Reynolds, Theodore M. Ludwig, 1980-01-01 Self and Self-Transformation in the History of Religions David Shulman Director of the Institute for Advanced Studies, Guy S. Stroumsa Martin Buber Professor of Comparative Religion both at Hebrew University of Jerusalem, 2002-03-18 This book brings together scholars of a variety of the world's major civilizations to focus on the universal theme of inner transformation The idea of the self is a cultural formation like any other and models and conceptions of the inner world of the person vary widely from one civilization to another Nonetheless all the world's great religions insist on the need to transform this inner world Such transformations often ritually enacted reveal the primary intuitions drives and conflicts active within the culture The individual essays study dramatic examples of these processes in a wide range of cultures including China India Tibet Greece and Rome Late Antiquity Islam Judaism and medieval and early modern Christian Europe Religion and Politics in the United States Kenneth D. Wald, Allison Calhoun-Brown, 2018-01-23 Using an evidenced based social scientific approach to religion Kenneth D Wald and Allison Calhoun Brown challenge the perception that religious influence in American politics is a problem to be solved Instead they contend that religion is a form of social identification that not only shapes our ideas about politics but it also shapes the behavior of political elites and ordinary citizens the interpretation of public laws and the development of government programs Ultimately the authors show how religion plays a fascinating and crucial role in our nation's political process and in our culture at large The eighth edition of *Religion and Politics in the United States* has been fully updated to

include the latest scholarship and coverage of the 2016 presidential election It also features a new discussion of the religious right center and left as well as the impact of religion on the fight for equality based on gender and sexual orientation Additional student resources include all new discussion questions and further readings at the end of each chapter as well as a companion website featuring self quizzes

Religion and the New Atheism Amarnath Amarasingam, 2010 The term new atheism has been given to the recent barrage of bestselling books written by Richard Dawkins Sam Harris Daniel Dennett Christopher Hitchens and others These books and their authors have had a significant media presence and have only grown in popularity over the years This book brings together scholars from religious studies science sociology of science philosophy and theology to engage the new atheism and place it in the context of broader scholarly discourses This volume will serve to contextualize and critically examine the claims arguments and goals of the new atheism so that readers can become more informed of some of the debates with which the new atheists inevitably and at times unknowingly engage This collection will prove to be most valuable to readers who wish to understand the implications and phenomenal success of the new atheism from a multidisciplinary perspective The editor is to be congratulated for assembling such an impressive list of contributions John F Haught Senior Fellow Science Religion Woodstock Theological Center George town University The new atheism a species of secular fundamentalism has excited a great deal of comment and controversy in recent years Religion and the New Atheism raises the discourse to a new level Randall Balmer Episcopal Priest and author of The Making of Evangelicalism Amarasingam s collection of original essays dealing with various aspects of the recent work of new atheists is a most engaging read The chapters included offer a wide array of perspectives touching on numerous aspects and angles of New Atheism and its relationship to contemporary religion While I most definitely did not agree with all of the contributions in the volume and while I am generally more supportive of the new atheists than I am of their detractors I found this volume over all to be a compelling engrossing and provocative contribution Phil Zuckerman Associate Professor of Sociology Pitzer College Author of Society Without God

Self and Self-transformation in the History of Religions David Dean Shulman, Guy G. The Notion of "religion" in Comparative Research Ugo Bianchi, 1994 Nel 1990 si tenne a Roma il XVI Congresso del I A H R che ebbe come tema la nozione di religione Venne particolarmente analizzato l'uso di tale termine da parte degli studiosi di lingua europea nei rapporti con le culture non europee e viceversa

The Meaning and End of Religion Wilfred Cantwell Smith, 1991 Wilfred Cantwell Smith maintained in this vastly important work that Westerners have misperceived religious life by making religion into one thing He shows the inadequacy of religion to capture the living endlessly variable ways and traditions in which religious faith presents itself in the world

Religion and Cultural Freedom Elie Maynard Adams, 1993 Citing his personal quest to reconcile the contradictions among biblical religion democratic liberalism and modern science E M Adams explores the foundations of religion and its role in the culture He asks What would constitute a responsible religion in our time And he

determines that for a religion to be credible its tenets must be reconcilable with scientific beliefs the historical record the accepted worldview and the creative spiritual and ethical dimensions of human experience In *Religion and Cultural Freedom* Adams focuses on Judeo Christian religion in Western civilization and draws on literary historical ethical and philosophical examples Maintaining that religion is logically accountable in its belief system to the culture of which it is a part he illustrates how at different points in history religious beliefs have been altered or reinterpreted in response to cultural tensions and conflicts This interplay between religion and culture is an essential part of Adams's definition of a responsible religion While he does not think that religion needs to yield to conflicting sectors in the culture he insists that it has a responsibility to work for coherence and intellectual respectability within a free culture During his discussion Adams offers a realistic theory of the language of the humanities and lived experience especially the language of value and meaning and on the basis of this theory he reconstructs the intellectual enterprise and interprets meaning and truth in religious discourse Interested in what he takes to be a negative turn in religious consciousness and the fate of religion in modern Western civilization Adams concludes that the time may be ripe for a humanistic revolution that would create a fully accountable and intellectually credible religion

Author note E M Adams is Kenan Professor of Philosophy Emeritus at the University of North Carolina at Chapel Hill He has published ten previous books including *The Metaphysics of Self and World* Temple [The Learned Practice of Religion in the Modern University](#) Donald Wiebe, 2019-11-14 In these essays Donald Wiebe unveils a significant problem in the academic study of religion in colleges and universities in North America and Europe that studies almost always exhibit a religious bias To explore this issue Wiebe looks at the religious and moral agendas behind the study of religion showing that the boundaries between the objective study of religion and religious education as a tool for bettering society have become blurred As a result he argues religious studies departments have fostered an environment where religion has become a learned or scholarly practice rather than the object of academic scrutiny This book provides a critical history of the failure of 20th and 21st century scholars to follow through on the 19th century ideal of an objective scientific study of religious thought and behaviour Although emancipated from direct ecclesiastical control and to some extent from sectarian theologizing Wiebe argues that research and scholarship in the academic department of religious studies has failed to break free from religious constraints He shows that an objective scientific study of religious thought and practice is not only possible but the only appropriate approach to the study of religious phenomena [Faith & Form](#), 1974
