Religion Without Magic:

Religion Without Magic Phillips Endecott Osgood, 1954 **Religion without Belief** Jean Ellen Petrolle, 2008-06-05 Shows there is a strong religious impulse in postmodern literature and film Religion as Magical Ideology Konrad Talmont-Kaminski, 2014-10-20 Religion as Magical Ideology examines the relationship between rationality and supernatural beliefs arguing that such beliefs are products of evolution cognition and culture The book does not offer a false rapprochement between reason and religion instead it explores their interrelationship as a series of complex adaptations between cognitive and cultural processes Exploring the nature of the tension between religious traditions and reason Religion as Magical Ideology develops a dual inheritance theory of religion which combines the cognitive byproduct and prosocial adaptation accounts and analyses the connection between the function of a belief and the degree of protection it gets from potential counter evidence With discussion ranging from individual cognitive mechanisms general functional considerations to the limits of evolutionary and cognitive processes the book offers readers a systematic account of how cognition shapes religious beliefs and practices Handbook of Religion and the Authority of Science James R. Lewis, Olav Hammer, 2010-11-19 The present collection examines the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to the challenges of the contemporary world The Transformations of Magic Frank Klaassen, 2013 Explores two principal genres of illicit learned magic in late Medieval manuscripts image magic which could be interpreted and justified in scholastic terms and ritual magic which could not Provided by publisher Encyclopedia of the World's Religions Robert Charles Zaehner, 1997 Covers many world religions such as Judaism Christianity Islam Zoroastrianism Hinduism Jainism Buddhism Shinto Confucianism Taoism Sikhism Dialectical meterialism etc **The Forbidden Body** Douglas E. Cowan, 2022-05-17 Throughout history the religious imagination has attempted to control nothing so much as our bodies what they are and what they mean what we do with them with whom and under what circumstances how they may be displayed or more commonly how they must be hidden Religious belief and mandate affect how our bodies are used in ritual practice as well as how we use them to identify and marginalize threatening religious Others This book examines how horror culture treats religious bodies that have stepped or been pushed out of their proper place Unlike most books on religion and horror This book explores the dark spaces where sex sexual representation and the sexual body come together with religious belief and scary stories Because these intersections of sex horror and the religious imagination force us to question the nature of consensus reality supernatural horror especially as it concerns the body often shows us the religious imagination at work in real time It is important to note that the discussion in this book is not limited either to horror cinema or to popular fiction but considers a wide range of material including literary horror weird fiction graphic storytelling visual arts participative culture and aspects of real world religious fear It is less concerned with horror as a genre which is mainly a function of marketing and more with

the horror mode a way of storytelling that finds expression across a number of genres a variety of media and even blurs the boundary between fiction and non fiction This expanded focus not only deepens the pool of potential examples but invites a much broader readership in for a swim Women, Pilgrimage, and Rituals of Healing in Modern and Ancient Greece Evy Johanne Håland, 2023-07-21 This book investigates religious rituals and gender in modern and ancient Greece with a specific focus on women's role in connection with healing How can we come to understand such mainstays of ancient culture as its healing rituals when the male recorders did not and could not know or say much about what occurred since the rituals were carried out by women The book proposes that one way of tackling this dilemma is to attend similar healing rituals in modern Greece carried out by women and compare the information with ancient sources thus providing new ways of interpreting the ancient material we possess Carrying out fieldwork being present during often enduring rituals within cultures despite other changes teaches one whole new ways of looking at written and pictorial records of such events By bringing ancient and modern worlds into mutual illumination this text also has relevance beyond the Greek context both in time and space **Dictionary of Religion and Ethics** Shailer Mathews, Gerald Birney Smith, 1921 The Study of Religion in Colleges and Universities Paul Ramsey, John Frederick Wilson, 2015-03-08 The study of religion traditionally sponsored by sectarian institutions has within recent decades come to claim an increasingly larger share of attention in colleges and universities generally and in the process the constituent intellectual disciplines have undergone significant changes In this volume twelve distinguished scholars take stock of the current state of the field and explore the prospects for future development. The areas covered in the essays with their authors are biblical studies Stendhal Western religious history Clebsch philosophy of religion Diamond theology McGill Catholic studies Preller Jewish studies Neusner sociology of religion Harrison comparative religious ethics Little history of religions Sullivan religion and art Turner and religion and literature Driver A practical commentary on the current state of the field Gustafson concludes the volume Taken together the essays provide an overview of the subject matter of religion study that should enable scholars of religion to situate and define their own work while helping others to appreciate the claims that work has upon the resources and concerns of colleges and universities Originally published in 1970 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Magic: The Basics Michael D. identifies those who were in positions of power while observing what it was about the liberal Christian faith that was informing them and the limited and failed resistance of the anti imperialist and anti immigration movements The results have been lasting and continue as headline news The Philosophy of Reenchantment Michiel Meijer, Herbert De Vriese, 2020-10-27 This book presents a philosophical study of the idea of reenchantment and its merits in the interrelated fields of philosophical anthropology ethics and ontology It features chapters from leading contributors to the debate about reenchantment including Charles Taylor John Cottingham Akeel Bilgrami and Jane Bennett The chapters examine neglected and contested notions such as enchantment transcendence interpretation attention resonance and the sacred or reverence worthy notions that are crucial to human self understanding but have no place in a scientific worldview They also explore the significance of adopting a reenchanting perspective for debates on major concepts such as nature naturalism God ontology and disenchantment Taken together they demonstrate that there is much to be gained from working with a more substantial and affirmative concept of reenchantment understood as a fundamental existential orientation towards what is seen as meaningful and of value The Philosophy of Reenchantment will be of interest to scholars and advanced students in philosophy especially those working in moral philosophy metaphysics philosophy of religion theology religious studies and sociology
