Evison, 1990 To find more information about Rowman and Littlefield titles please visit [www rowmanlittlefield com](http://www.rowmanlittlefield.com)      **Ethical Considerations at the Intersection of Psychiatry and Religion** John Peteet, Mary Lynn Dell, Wai Lun Alan Fung, 2018-01-05 Psychiatry and religion spirituality R S share an interest in human flourishing a concern with beliefs and values and an appreciation for community Yet historical tensions between science and religion continue to impede dialogue leaving clinicians uncertain about how to approach ethical questions arising between them When are religious practices such as scrupulosity disordered What distinguishes healthy from unhealthy religion How should a therapist approach a patient s existential moral or spiritual distress What should clinicians do with patients R S convictions about faith healing same sex relationships or obligations to others Discussions of psychiatric ethics have traditionally emphasized widely accepted principles generally admired virtues and cultural competence Relatively little attention has been devoted to the ways that R S inform the values of patients and their clinicians shape preferred virtues and interact with culture Ethical Considerations at the Intersection of Psychiatry and Religion aims to give mental health professionals a conceptual framework for understanding the role of R S in ethical decision making and serve as practical guidance for approaching challenging cases Part I addresses general considerations including the basis of therapeutic values in a pluralistic context the nature of theological and psychiatric ethics spiritual issues arising in diagnosis and treatment unhealthy and harmful uses of religion and practical implications of personal spirituality Part II examines how these considerations apply in specific contexts inpatient and outpatient consultation liaison child and adolescent geriatric disability forensic community international addiction and disaster and emergency psychiatry as well as in the work of religious professionals ethics committees psychiatric education and research Thick descriptions of case examples analyzed using the framework of Jonson and Winslow show the clinical relevance of understanding the contributions of religion and spirituality to patient preferences quality of life decision making and effective treatment      *A Journey to Freedom* Franco Imoda, 2000 Can psychology and religion engage in constructive dialogue Has psychology a contribution to make in Christian formation These are some of the issues addressed in this volume marking 25 years of the Institute of Psychology of the Gregorian University The twenty articles which make up the work offer essential insights into how psychology and religion can meet and interact constructively at the level of theory and of practice These insights are presented in the context of an overall Christian anthropology which continues to develop and to further refine its practical applications The contributions are divided into four sections theory and method dialogue between psychology and other disciplines applications in different cultures and concrete experiences of applying a psychologically informed Christian anthropology in the educational setting The balanced approach presented in this work makes it both a serious instrument of study and a valuable point of reference for the educator Its constant reference to a Christian conception of the person will

help avoid short sighted pragmatism      Hawaii and Christian Religious Addiction James Slobodzien,2004 A literature review was conducted on the relatively newly recognized phenomenon of religious addiction within Christianity The symptoms beliefs and stages of religious addiction along with the characteristics of religiously addictive organizations are also considered In addition a religious attitudes inventory was designed to assess general spirituality religious addictive beliefs religious addictive symptoms and church leadership practices The author surveyed ministers psychologists psychiatrists and the general public to assess the relationship between religious addiction and church leadership More specifically the purpose of this survey was to attempt to determine if religious addictive beliefs and symptoms are more positively correlated with churches structured upon a self selected authoritarian hierarchial style of leadership versus an elected collegial style of church leadership In the latter power and authority is equally vested in each of a number of elected church leaders The results of this survey suggest the possibility of a positive correlation between the self selected minister group and their responses to religious addictive beliefs and symptoms Further study of a prospective nature with larger samples is necessary to define this relationship more clearly Additional research with onsite observation and assessments is necessary to adequately verify the possible link between religious addiction and church leadership practices Future research must replicate this study with different samples to determine whether results obtained in the present survey generalize to similar groups

**The Philosophy of Psychiatry** Jennifer Radden,2004-06-10 This is a comprehensive resource of original essays by leading thinkers exploring the newly emerging inter disciplinary field of the philosophy of psychiatry The contributors aim to define this exciting field and to highlight the philosophical assumptions and issues that underlie psychiatric theory and practice the category of mental disorder and rationales for its social clinical and legal treatment As a branch of medicine and a healing practice psychiatry relies on presuppositions that are deeply and unavoidably philosophical Conceptions of rationality personhood and autonomy frame our understanding and treatment of mental disorder Philosophical questions of evidence reality truth science and values give meaning to each of the social institutions and practices concerned with mental health care The psyche the mind and its relation to the body subjectivity and consciousness personal identity and character thought will memory and emotions are equally the stuff of traditional philosophical inquiry and of the psychiatric enterprise A new research field the philosophy of psychiatry began to form during the last two decades of the twentieth century Prompted by a growing recognition that philosophical ideas underlie many aspects of clinical practice psychiatric theorizing and research mental health policy and the economics and politics of mental health care academic philosophers practitioners and philosophically trained psychiatrists have begun a series of vital cross disciplinary exchanges This volume provides a sampling of the research yield of those exchanges Leading thinkers in this area including clinicians philosophers psychologists and interdisciplinary teams provide original discussions that are not only expository and critical but also a reflection of their authors distinctive and often powerful and imaginative viewpoints and theories All the discussions break

new theoretical ground As befits such an interdisciplinary effort they are methodologically eclectic and varied and divergent in their assumptions and conclusions together they comprise a significant new exploration definition and mapping of the philosophical aspects of psychiatric theory and practice      **Aspects in Contexts** ,2021-07-26 Psychology of religion has been enjoying considerable attention of late the number of publications and people involved in the field is rapidly increasing It is however one of the oldest branches within psychology in general and one of the few in which an interdisciplinary approach has been kept alive and fostered The fate of the field has been quite varied in the countries where psychology of religion has been initiated and developed during the 20th century In this volume some aspects of this international history are examined Coming from six different Western countries each of the contributors has a record in the historiography of psychology and profound knowledge of psychology of religion Their approaches combine elements from the history of mentalities the social history of science and biographical studies The volume contains in depth treatments of such topics as the growth of the field as reflected in university politics developments within international organizations and the personal involvement of contributors to the field A wealth of information is provided on the background of the work of well known psychologists of religion like James Henry Leuba Oskar Pfister Gordon Allport Werner Gruehn Antoine Vergote and others

*The Enigma of the Oceanic Feeling* William Barclay Parsons,1999 Then reconstructing Rolland s personal mysticism the oceanic feeling through texts and letters unavailable to Freud Parsons argues that Freud misinterpreted the oceanic feeling  
BOOK JACKET      **Psychiatry and Religion** Dinesh Bhugra,2018-09-03 Psychiatry and Religion Context Consensus and Controversies works to eradicate the distinction between spiritual and psychological welfare and promote greater understanding of the relationship between the two This book brings together chapters from fifteen mental health practitioners and pastoral workers to explore what their different philosophies have to offer the individuals in their care As well as all the major world religions the text also provides detailed information about newer religions and the significance of their belief systems for mental health management The book examines the positive and negative effects that strict moral codes and religious rituals can produce and shows how awareness of these effects is crucial to the treatment of these patients This classic edition of Psychiatry and Religion with a new introduction from Dinesh Bhugra will continue to provide an important resource to practicing and training psychiatrists      *Medical Ethics and the Faith Factor* Robert D. Orr,2009-10-20 Clinical ethics is a relatively new discipline within medicine generated not so much by the Can we questions of fact and prognosis that physicians usually address but primarily by the more uncomfortable gray areas having to do with Should we questions Should we use a feeding tube for Mom How should we deal with our baby about to be born with life threatening anomalies Should our son be taken off dialysis even though he ll die without it What should we do with our mentally ill sister who has proven that she is untreatable In this book Robert Orr draws on his extensive medical knowledge and experience to offer a wealth of guidance regarding real life dilemmas in clinical ethics Replete with instructive case

studies Medical Ethics and the Faith Factor is an invaluable resource that reintroduces the human element to a discussion so often detached from the very people it claims to concern

**Integrative Approaches to Psychology and Christianity, Fourth Edition** David N. Entwistle, 2021-11-03 Since the first edition of Integrative Approaches to Psychology and Christianity was published in 2004 this has become the standard textbook on the topic Now in its fully revised fourth edition Dr Entwistle's book elucidates historical philosophical and practical issues in the integration of psychology and Christianity As in previous editions the current text provides an introduction to many of the worldview issues and philosophical foundations that frame the relationship of psychology and theology includes scholarly reflection on the integration literature and surveys six models of possible relationships between psychology and Christianity ranging from those that are completely opposed to either religion or psychology to intermediate models that assert that some limited interaction between them is possible to viewpoints which suggest that a Christian worldview approach can be used to provide a context for exploring areas of overlapping interest between psychology and Christianity The current edition considers recent advances in both Catholic and Protestant thinking on integration including contemporary questions about what evangelicalism is and is not that shape evangelical reactions to the integration debate New content ranges from information about the contrasting views of Tertullian and Augustine to insights from contemporary psychology about factors that adversely affect the quality and reliability of human thinking to how conflict over COVID 19 has entered contemporary religious debate The book is designed to help readers become aware of the presuppositional backdrops that each of us brings to these issues Questions at the end of each chapter are included to help readers evaluate both the material and their own burgeoning approach to integration This book is ideal as a textbook for students of psychology and other behavioral and social sciences social work sociology theology counseling pastoral counseling at both the graduate and undergraduate level It is also written for the broader readership of psychologists counselors pastors and others who are interested in integration
