Religious Art in France, XIII Century Emile Mâle, 2016-06-22 Excerpt from Religious Art in France XIII Century A Study in Mediaeval Iconography and Its Sources of Inspiration To the Middle Ages art was didactic All that it was necessary that men should know the history of the world from the creation the dogmas of religion the examples of the saints the hierarchy of the virtues the range of the sciences arts and crafts all these were taught them by the windows of the church or by the statues in the porch The pathetic name of *Biblia pauperum* given by the printers of the fifteenth century to one of their earliest books might well have been given to the church There the simple the ignorant all who were named *sancta plebs Dei* learned through their eyes almost all they knew of their faith Its great figures so spiritual in conception seemed to bear speaking witness to the truth of the Church's teaching The countless statues disposed in scholarly design were a symbol of the marvellous order that through the genius of St Thomas Aquinas reigned in the world of thought Through the medium of art the highest conceptions of theologian and scholar penetrated to some extent the minds of even the humblest of the people But the meaning of these profound works gradually became obscure New generations with a different conception of the world no longer understood them and from the second half of the sixteenth century medieval art became an enigma Symbolism the soul of Gothic art was dead The Church was ashamed of the once beloved legends in which for so many centuries Christianity had been nurtured The council of Trent marks the end of the old artistic tradition and we know from a book full of the spirit of the council that the writer Molanus the theologian had lost the key to the art of the Middle Ages In the seventeenth and eighteenth centuries the Benedictines of Saint Maur when writing of the ancient churches of France displayed an ignorance which was anything but creditable to their order's reputation for learning In his *Monuments de la monarchie française* Montfaucon reads into the cathedral facades scenes from the history of France and portraits of her kings And what can one say of those who speak of Gothic bas reliefs and statues as they might speak of the antiquities of India About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve
