Religious Beliefs and White Prejudice

Religious Beliefs And White Prejudice

Thomas D. Carroll

Religious Beliefs And White Prejudice:

More Than a White Man's Religion Abdu Murray, 2022-09-27 Though many today accuse Christianity of being a white imperialistic religion it is actually the source for cherished Western ideals of racial and gender equality In *More Than a White Man's Religion* author and speaker Abdu Murray shares stories from the Bible and his own experiences as a global apologist a member of an ethnic minority a son of immigrants and a former Muslim to show that the gospel message provides dignity and liberty to non whites and women *More Than a White Man's Religion* reveals The ethnically diverse roots of biblical stories and passages that inspired some of the greatest social reforms in history How challenging and sometimes confusing Bible passages and stories can be best understood to champion equality for ethnically diverse people and women Ways believers can bring real and lasting change to our culture's pervasive racial ethnic and gender equality issues by following Jesus and his followers examples Without overlooking the places where Christianity has failed to live up to its own ideals Murray challenges the myth that Christianity is an oppressive Western religion and shows believers how to better fulfill their God given mandate to uphold the dignity of every human being Tackling head on one of the most serious challenges to the Christian faith in our multicultural age *More Than a White Man's Religion* demonstrates how the gospel can inspire positive change for modern culture

How White Evangelicals Think Dave Verhaagen, 2022-08-16 The majority of Americans have looked on in some combination of horror and befuddlement as many white Christians particularly evangelicals have revealed beliefs and opinions seemingly antithetical to the Christian faith whether holding racist attitudes supporting conspiracy theories aligning with nationalistic and authoritarian movements or becoming hostile toward the different and marginalized Dr Dave Verhaagen a nationally board certified psychologist and author tackles the challenge of explaining the psychology behind what has become the unique mind of the modern white Christian Each chapter explores one or more robust psychological principles that help make sense of why white Christians think like they do

Rethinking Philosophy of Religion with Wittgenstein Thomas D. Carroll, 2025-05-15 Can Wittgenstein's philosophy help us to see religious diversities Thomas D Carroll uses Wittgenstein's thoughts on religion and language to bring a cross cultural perspective to philosophy of religion Through a focus on Chinese philosophical and religious traditions and the intertwining of racism and religion in the United States Carroll highlights two related features of Wittgenstein's philosophy the relevance of contextual backgrounds to interpreting ways of life and the importance of reflecting on existential purposes in philosophical inquiry Committed to the essential task of expanding philosophy of religion Carroll critically studies the term religion and goes beyond the traditional categories of belief to consider diverse religious phenomena such as rituals practices institutions forms of belonging and pragmatic forms of religious engagement We see the value of paying close attention to social contexts and refusing to oversimplify interpretation of philosophical arguments By demonstrating how Wittgenstein's ideas can enrich our understanding of the complex phenomenon of religion and the place it has in our lives this inclusive and timely study asks

us to rethink how we approach philosophy of religion *Impacts of Racism on White Americans* Benjamin Bowser, Raymond G. Hunt, 1996-03-26 Praise for the first edition A welcome addition to the growing sociological literature that looks beyond the circumstances of victims for the solutions to various social problems Contemporary Sociology A clear articulation of a number of historical spatial and international perspectives on race relations The new and novel focus provides fresh insights into a field that has found the development of a unified theory elusive International Social Science Review Challenging the popularly held view that racism is disappearing as a social phenomenon the second edition of *Impacts of Racism on White Americans* reexamines the questions proposed by its first edition and notes that one decade later little has changed This stimulating collection of original papers focuses on the new ways in which white Americans act out racism and weighs the advantages and disadvantages that whites experience from racism Drawing on evidence from the social and behavioral sciences this timely revision argues that racism is essentially a problem of European Americans and that most whites do not benefit from racism in the long term In addition this volume holds that racism cannot be eliminated until it is viewed as a white problem that seriously compromises the quality of life The concluding chapter of the first edition which summarized the major insights and findings of that edition has been reprinted and in the final chapter of this new edition editors Benjamin P Bowser and Raymond G Hunt expand on recommendations and clearly illustrate how far we've come and most important how far we have to go Sure to follow the success of its first edition *Impacts of Racism on White Americans* will make a major contribution to our understanding of the impacts of racism while providing students and professionals in race ethnic studies sociology urban studies and social psychology with thought provoking quality material **The Psychology of Prejudice** Todd D. Nelson, Michael A. Olson, 2024-01-03 In this book we examine the past and present research and theory on the motivations the why the situations and contexts the when the individual difference variables and traits the who and the affective and cognitive processes the how that lead to stereotyping and prejudice The intent is to provide an in depth and broad ranging analysis of stereotyping and prejudice The text focuses on understanding the issues theories and important empirical experiments that bear upon each problem in stereotyping and prejudice and to understand the most up to date research theories and conclusions of the leading researchers in the field Stereotyping and prejudice are indeed complex in their origin and one of the main goals of this book is to provide a coherent picture of the conditions under which stereotyping and prejudice are more or less likely to occur Another primary focus is to examine whether and how stereotyping and prejudice can be reduced or eliminated *I Hate White America* Ashley Tose, 2012-07-25 *I Hate White America* is a book about racism stereotypes and havoc in America between White America and Black America Despite the usage of Hate this book was written with questions and answers to help America understand Black America in the 21st century *I Hate White America* is not a book expressing my hate for white America but rather my aggravation The world has consumed the sensible average America in some shape form or fashion and this book focuses on realities and truths of the world white America and

Black America *Psychology of Prejudice and Discrimination* Mary E. Kite, Bernard E. Whitley, Jr., 2016-06-10 Psychology of Prejudice and Discrimination provides a comprehensive and compelling overview of what psychological theory and research have to say about the nature causes and reduction of prejudice and discrimination It balances a detailed discussion of theories and selected research with applied examples that ensure the material is relevant to students Newly revised and updated this edition addresses several interlocking themes such as research methods the development of prejudice in children the relationship between prejudice and discrimination and discrimination in the workplace which are developed in greater detail than in other textbooks The first theme introduced is the nature of prejudice and discrimination which is followed by a discussion of research methods Next comes the psychological underpinnings of prejudice the nature of stereotypes the conditions under which stereotypes influence responses to other people contemporary theories of prejudice and how values and belief systems are related to prejudice Explored next are the development of prejudice in children and the social context of prejudice The theme of discrimination is developed via discussions of the nature of discrimination the experience of discrimination and specific forms of discrimination including gender sexual orientation age ability and appearance The concluding theme is the reduction of prejudice An ideal core text for junior and senior college students who have had a course in introductory psychology it is written in a style that is accessible to students in other fields including education social work business communication studies ethnic studies and other disciplines In addition to courses on prejudice and discrimination this book is also adapted for courses that cover topics in racism and diversity For instructor resources consult the companion website <http://www.routledge.com/cw/Kite> which includes an Instructor Manual that contains activities and tools to help with teaching a prejudice and discrimination course PowerPoint slides for every chapter and a Test Bank with exam questions for every chapter for a total of over 1 700 questions *Religion and Mental Health* ,1980

Religion of White Rage Finley Stephen C. Finley, 2020-09-21 Critically analyses the historical cultural and political dimensions of white religious rage in America past and present This book sheds light on the phenomenon of white rage and maps out the uneasy relationship between white anxiety religious fervour American identity and perceived black racial progress Contributors to the volume examine the sociological construct of the e white labourere whose concerns and beliefs can be understood as religious in foundation and uncover that white religious fervor correlates to notions of perceived white loss and perceived black progress In discussions ranging from the Constitution to the Charlottesville riots to the evangelical community s uncritical support for Trump the authors of this collection argue that it is not economics but religion and race that stand as the primary motivating factors for the rise of white rage and white supremacist sentiment in the United States

Religion, Personality, and Social Behavior Vassilis Saroglou, 2013-07-24 Psychological interest in religion in terms of both theory and empirical research has been constant since the beginning of psychology However since the beginning of the 21st Century partially due to important social and political events and developments interest in religion within personality and

social psychology has increased This volume reviews the accumulated research and theory on the major aspects of personality and social psychology as applied to religion It provides a high quality integrative systematic and rigorous review of that work with a focus on topics that are both central in personality and social psychology and have allowed for the accumulation of solid and replicated and not impressionist knowledge on religion The contributors are renowned researchers in the field who offer an international perspective that is both illuminating yet neutral with respect to religion The volume's primary audience are academics researchers and advanced students in social psychology but it will also interest those in sociology political sciences and anthropology

Atheism and Secularity Phil Zuckerman, 2009-12-21 This important two volume contribution to the field of secular studies offers the first comprehensive examination of atheists and non religious people around the world Who are atheists How does atheism relate to various aspects of our social world such as politics feminism globalization and the family And what is the current state of atheism internationally Atheism and Secularity addresses the growing interest in the non religious world by exploring these and related questions It is a comprehensive and compelling look at atheists and atheism both nationally and internationally covering a range of topics often overlooked in other books on the subject Atheism and Secularity is not a philosophical polemic work but rather an exploration of who atheists are what they believe how they relate to the world and how the world relates to them The first volume focuses on topics such as family life gender sexuality politics and social movements The second volume looks at atheism and secularity around the world exploring the lives of non religious people in North America Japan China India Europe the Arab World and other locations

Religion in Sociological Perspective Keith A. Roberts, David Yamane, 2015-07-18 This fully updated Sixth Edition of Religion in Sociological Perspective introduces students to the basic theories and methods in the field and shows them how to apply these analytic tools to new groups they encounter Authors Keith A Roberts and David Yamane explore three interdependent subsystems of religion meaning structure and belonging and their connections to the larger social structure While they cover the major theoretical paradigms of the field and employ various middle range theories to explore specific processes they use the open systems model as a single unifying framework to integrate the theories and enhance student understanding

The Science of Religion, Spirituality, and Existentialism Kenneth E. Vail III, Clay Routledge, 2020-04-04 The Science of Religion Spirituality and Existentialism presents in depth analysis of the core issues in existential psychology their connections to religion and spirituality e g religious concepts beliefs identities and practices and their diverse outcomes e g psychological social cultural and health Leading scholars from around the world cover research exploring how fundamental existential issues are both cause and consequence of religion and spirituality informed by research data spanning multiple levels of analysis such as evolution cognition and neuroscience emotion and motivation personality and individual differences social and cultural forces physical and mental health among many others The Science of Religion Spirituality and Existentialism explores known contours and emerging frontiers addressing the big question of

why religious belief remains such a central feature of the human experience Discusses both abstract concepts of mortality and concrete near death experiences Covers the struggles and triumphs associated with freedom self regulation and authenticity Examines the roles of social exclusion experiential isolation attachment and the construction of social identity Considers the problems of uncertainty the effort to discern truth and reality and the challenge to find meaning in life Discusses how the mind developed to handle existential topics how the brain and mind implement the relevant processes and the many variations and individual differences that alter those processes Delves into the psychological functions of religion and science the influence on pro and antisocial behavior politics and public policy and looks at the role of spiritual concerns in understanding the human body and maintaining physical health

Religion in Contemporary America Charles H. Lippy, Eric Tranby, 2013-03-12 This book provides a fresh engaging multi disciplinary introduction to religion in contemporary America The chapters explore the roots of contemporary American religion from the 1950s up to the present day looking at the major traditions including mainline Protestantism the evangelical pentecostal surge Catholicism Judaism African American religions and new religious movements The authors ask whether Americans are becoming less religious and how religious thought has moved from traditional systematic theology to approaches such as black and feminist theology and environmental theology The book introduces religion and social theory and explores key issues and themes such as religion and social change politics gender sexuality diversity race and poverty Students and instructors will find the combination of historical and sociological perspectives an invaluable aid to understanding this fascinating but complex field

Faith in the Public Realm Adam Dinham, Robert Furbey, Vivien Lowndes, 2009-01-28 Faith and religion is a hot topic at the moment and this text explores key issues for faith and religious groups Understanding the role of faith in the policy world is of increasing importance and chapters are arranged around themes which helps students understand the concepts

Self-Help To Treasure Trove A Collection of Poems (Volume-I) Dr. J. Randhawa, This book is written by Dr Jaideep Randhawa and it includes the following chapters It also includes the details about the poet poem word meanings central idea paraphrase summary critical appreciation Question Answers Based on Workbooks Morning Star Evergreen and more and Extra Questions The Chapters are 1 The Heart Of a Tree 2 The Cold Within 3 Bangle Sellers 4 After Blenheim 5 Television 6 Daffodils 7 I Know why the caged bird sings 8 The Patroit 9 Abu Ben Adheim 10 Nine Gold Medals

What If All the Kids are White? Louise Derman-Sparks, Patricia G. Ramsey, 2006 In this compelling volume distinguished educators tackle a frequently asked question about multicultural education How do I teach about racial and cultural diversity if all my students are white The authors propose seven learning themes to help young white children resist messages of racism and build identity and skills for thriving in a multicultural country and world The text includes strategies resources and classroom examples for implementing the learning themes in early childhood settings Taking multicultural education to a new level this practical guide places the development of white children s racial identity in the context of the historical construction of

whiteness and racism in America and suggests strategies for nurturing a new white identity as the starting place for anti bias multicultural work with children It includes activities for families and staff reflection questions a review of white anti racism activists lists of suggested children s books and organizational and website resources Socio-political and Psychological Perspectives on South Africa Christopher R. Stones,2001 South Africa is a society that sadly has been divided against itself even at the best of times Beginning with the initial advent of colonialism on the southern tip of the African continent through to the later spawning of apartheid as well as in its nascent democracy divisions have continually been manifest in varying form and content along racial ethnic class religious language political or other socio economic and cultural lines Unlike most societies South Africa is a natural laboratory for psycho social research yet it has been foreign researchers who have conducted most of the behavioural studies on the human condition in the country South African psychologists seem to have steered clear of involvement in researching any major policy impact especially in recent times when the re shaping of South African society has been at its height Each of the authors in this book is South African and appropriately has lived through the transition in South Africa and has attempted to understand the changes at both professional and personal levels The contributors were each asked to write a chapter that would explore the South African socio political terrain from within their fields of expertise and so help others navigate the uncharted future with less trepidation **ThirdWay** ,1979-07 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture **Reality** ,1971
