Religious Education As Social Transformation:

Religious Education as Social Transformation Allen J. Moore, 1980 **Grounding a Religious Education Approach to Social Transformation** Michael Andrew Kelly, 1995 **The Bloomsbury Handbook of Religious Education in the Global South** Yonah Hisbon Matemba, Bruce A. Collet, 2022-02-10

The Bloomsbury Handbook of Religious Education in the Global South presents new comparative perspectives on Religious Education RE across the Global South Including 23 chapters written by scholars from the Global North and South this is the first authoritative reference work on the subject The handbook is thematically organised into seven sections The first three sections deal with provision response to changes in contemporary society and decolonizing RE The next four sections explore young people and RE perspectives on teachers RE in higher education and finally challenges and opportunities for RE The term Global South is used here primarily to signify the deep economic divide with the Global North but the concept is also examined in historical geographical political social and cultural terms including the indelible influence of religion in all four broadly defined regions Exploring RE from local cross national as well as regional and sub regional perspectives the handbook examines RE from its diverse past present realities and envisioned future revealing not only tensions contestations injustices and inequalities of power but importantly how inclusive forms of RE can help solve these problems

Grounding a religious education approach to social transformation Michael Andrew Kelly, 1992 *The Laity as Participants in the Mission of the Church* Humphrey C. Anameje, 2017-06-05

The church is made up of both the clergy and the laity And for it to properly fulfill the mission for which it was instituted by Christ all its members each according to his or her God given gift must contribute both to the upbuilding of the church and to its mission On the part of the laity their active participation in the general mission of the church ad intra and ad extra has been a great challenge in the life and practice of the church throughout its history The Second Vatican Council in its spirit of aggiornamento makes some positive difference This work critically examines the conciliar documents some relevant postconciliar documents and theological reflection of some theologians And finally it proffers solutions that will enhance the active participation of the laity in the mission of the church in general and the church in Southeast Nigeria in particular

Mysticism and Social Transformation Janet K. Ruffing, 2001-02-01

Where do Mysticism and and political action meet How does faith empower its adherents to resist oppression What are the origins of authentic contemporary mysticism From the thirteenth century Franciscan movement to African American mystics this wide ranging volume of essays considers exemplars of Christian mysticism including Teresa of Avila Ignatius of Loyola the Quakers and the Society of Friends whose practices and influence brought about social change Linking major conceptual issues and social theory the essays examine the historical impact of mysticism in contemporary life and argue for a hermeneutical approach to mysticism in its historical context The contributors look at how mystical empowerment can serve as a catalyst for expressing compassion in acts of justice and long term social change We learn how Sojourner Truth and Rebecca Cox Jackson driven by

mystical experiences to take up lives of preaching faced the same misogynistic religious environments as did women mystics throughout history which has submerged this key area of women's experience The final two essays describe the development of socially engaged Buddhism in Asia and America and the mystical roots of deep ecology

Development, Social Change and Environmental Sustainability Sumarmi, Nanda Meiji, Joan Purwasih, Abdul Kodir, Edo Andriesse, Dorina Ilies, Ken Miichi, 2021-06-24 Nowadays the concept of SDGs Sustainable Development Goals is starting to replace the concept of MDGs Millennium Developmental Goals It is a global goal adopted by all United Nations member states It emphasizes the idea that the development of every country can only be achieved by balancing other factors such as social economic and environmental sustainability It is already clear how sustainable development works with environmental ethics and management However there are still issues regarding the sustainable development and human well being Sustainable development should focus on finding a way for society to meet their present needs for the long term without sacrificing the ability of future generations to meet their needs This international seminar provides research results and literature regarding the topic of sustainable development concept the dynamics of sustainable development and social change and environmental sustainability The international seminar entitled 1st International Conference on Contemporary Sociology and Educational Transformation listed speakers from several countries providing an overview on human and environmental resilience This book contains a selection of papers presented at the conference

Pragmatism and Modernities, 2010-01-01 Pragmatism belongs at least to a certain degree to the Protestant based reaction towards the economic social and political developments of the time in the US and it is no coincidence that the pragmatists all came from religious families if not even theologian families But these life conditions have changed over the course of the last century as much as the Protestant self assurance has been questioned more and more The question discussed in this book by international scholars is as to whether the possible modernity of pragmatism of around and after 1900 can still be labeled modern today in the modernity or post modernity around and after 2000 Has philosophy and philosophy of education found better alternatives Have the alternatives of the time around 1900 proven to be better Were the contemporary critics of pragmatism right These questions are discussed in fourteen chapters clustered in three larger parts The first part deals with pragmatism and modernity around 1900 the second part discusses contemporary alternatives to pragmatism and critics of pragmatism and the third and last part of the book deals with the modernity of pragmatism today Intended audience philosophers philosophers of education historians historians of education religious educators historians of sociology cultural historians political scientists postmodernists

Teaching to Live Almeda M. Wright, 2024 Teaching to Live explores the connections between religion education and struggles for freedom within African American communities throughout the twentieth century by examining the lives of African American activist educators Almeda M Wright interrogates how religion inspired them to educate in radical and transformative ways and invites readers to continue exploring how these concepts will evolve for future generations of activist educators

Modern

Islamic Authority and Social Change, Volume 1 Masooda Bano, 2018-03-31 Explores the interconnected creative partnerships of the Watts and De Morgans Victorian artists writers and suffragists *Educational Ministry in the Logic of the Spirit* James E. Loder Jr., 2018-07-20 In November 2001 James E Loder Jr Professor of the Philosophy of Christian Education for forty years at Princeton Theological Seminary suddenly died He was a creative and profound thinker who had just completed a promising book In it he developed a compelling interdisciplinary model to disclose how the divine Spirit affirms reconstitutes and transforms the human spirit to bring new energy and creativity into human experience He called it redemptive transformation You now hold that book in your hands Those who know Loder's work are confident that *Educational Ministry in the Logic of the Spirit* though delayed for over fifteen years will still become the best introduction to his complex thought More important it offers the imaginative means by which we may learn to attune ourselves and our faith communities to what God is doing in our fractured distracted and self destructive world to bring about a revolution of love the fruit of Christ's Spirit and the center of our human vocation

International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

Asian Spiritualities and Social Transformation Simon Shui-Man KWAN, Wai-Yin CHOW, 2023-10-17 This book offers a cross cultural and inter religious understanding of the ways social transformation in Asia is related to Asian spiritualities Bringing together scholars and practitioners from different cultures and fields of study it collates cutting edge research and applies it to the role of Asian spiritualities in social transformation Spirituality has garnered increasing attention in recent years across diverse fields of research and practice from psychology and healthcare to anthropology education sociology political sciences social work feminist studies cultural studies religious studies theology philosophy and so on However the term means different things within these different disciplines Spirituality can be understood to be private and personal but also public and societal not only as a force that brings about change but also one that helps maintain the status quo not only as a core element in religion

but also as something disconnected from it This book poses that to gain a firm grasp of spirituality one needs to traverse these different terrains Disbarring the orientalist understanding of spirituality that is often found embedded in stereotypes of the East as mystical esoteric and spiritual in contrast to the West as scientific and rational this book deconstructs this binarism to enable a sophisticated understanding of the diversity within Eastern and Western spiritualities It presents Asian spirituality as a misnomer focusing on the plurality of spiritualities and the region's multifaceted religiosity and it also excavates interfaith terrains It is of interest to social scientists theologians and religious scholars and students and researchers interested in Asian spiritualities and social movements

Reasons for Living Marisa Crawford, Graham Rossiter, 2006-11-01 *Reasons for Living* begins by exploring the development and psychological function of meaning identity and spirituality in the lives of young people This exploration can contribute significantly to the professional background of those engaged in the education and care of youth in various contexts The book then focuses on what it means to educate young people in meaning identity and spirituality Implications are considered for three school contexts the spiritual and moral dimension to the general curriculum in public and independent schools religious education in religious schools and state based Religion Studies courses *Reasons for Living* makes a much needed contribution to the philosophy of education by discussing the links between education and young people's spiritual and moral development It also provides new insights and approaches to values education and religious education Areas of fundamental importance in Australian education have long been held back not only by the gap between theory and practice but also by the very complexities of young people's personal development in contemporary Western Culture *Reasons for Living* offers a constructive and practical way forward

Dreaming of Change: Young Middle-Class Women and Social Transformation in Jordan Julia Droeber, 2005-10-01 This anthropological monograph focuses on the everyday experiences of young highly educated women in contemporary Jordan It carefully analyses their powerful contributions to social change as well as the strategies they employ in dealing with the problems they generally face In their struggle to find recognition religion Islam and Christianity often plays a major part and helps them to empower themselves which is also reflected in this account The study discusses family relationships social networks gender constructions religiousness and women's roles in various social spheres It sheds light on how these young women actively influence transformations in their society and re negotiate their own and other people's social position and how they in turn are highly influenced and often restricted by the socio cultural environment in their efforts towards change
