Religious Education In A Psychological Key:

Religious Education in a Psychological Key John H. Peatling, 1981 **Psychological Foundations of Religious Education** Walter Albion Squires, 1926 *Psychology for Christian Ministry* Rebecca Nye, Fraser Watts, Sara Savage, 2003-11-17 This introduction to psychology has been devised for those training for and working in the clergy Ideal both as a professional handbook and a textbook it covers social developmental educational occupational and counselling psychology as well as the psychology of religion It carefully considers the processes of personal change and growth central to religion **Developmental Psychology and Young Children's Religious Education** Olivera Petrovich, 2022-12-16 Developmental Psychology and Young Children's Religious Education sets out to identify the conceptual pre requisites for young children's religious education learning and clearly highlights the challenges that children and their teachers encounter in the RE educational process Based on a study with 431 children aged 5 to 7 years from different schools faith and non faith and 47 teachers from the same schools as the children this book offers an insightful look into younger children's religious education providing statistical evidence to dismantle the belief that young children lack the ability to conceptualise God in abstract terms The information obtained from these children and their teachers reveals a major discrepancy between the teachers perceptions of young children's conceptual abilities for RE learning on the one hand and children's actual abilities revealed in their responses throughout the study on the other Based on the evidence described in the volume Petrovich argues that teacher training courses for primary RE need to be designed to include a substantial component of contemporary developmental research that is of direct relevance to children's conceptual abilities and understanding of abstract concepts Developmental Psychology and Young Children's Religious Education is essential reading for students and researchers in developmental psychology religious education teacher education education studies and cultural anthropology

Psychology for Christian Ministry Fraser N. Watts, Rebecca Nye, Sara B. Savage, 2002 This work is a comprehensive introduction to psychology as it is relevant to those training for and working in the clergy Proceeding from the understanding that psychology is the discipline that illuminates those processes of personal change and growth central to religion the volume ranges over many aspects of the subject covering social developmental educational occupational and counselling psychology as well as the psychology of religion This professional handbook is tailored to meet the specific needs of the Christian ministry as they encounter psychology in their training and their everyday work The Psychological Anthropology of Wayne Edward Oates Samuel E. Stephens, 2020-07-24 Theological education has historically placed a strong emphasis on Scripture as the source of principle and practice for ministry However when it comes to the arena of counseling this has largely not been the case Focusing on the significant influence of Wayne Edward Oates 1917-1999 the author seeks to explore how and why the American Protestant church arrived at the place where psychological counseling has become the norm and biblical counseling is treated as novel A detailed study of Oates anthropology which served as the heart of his

counseling theory and practice demonstrates that it was shaped and informed by secular concepts values and principles instead of what God has to say about who we are as people what plagues our souls and where we find our true hope and healing This subtle shift from the theological to the therapeutic has contributed to a much broader view from many in the church that counseling is more of a clinical and professional service rather than a personal or pastoral ministry of the Scriptures Through these unsettling warnings and implications the author hopes that the church will see the importance of once again engaging with the God glorifying Christ honoring and Spirit empowering ministry of counseling

How Children Read Biblical Narrative Melody Renee Briggs, 2017-05-31 How do children read the Bible This book makes a major contribution to this underexplored area by analyzing how children interpret Bible stories focused around an empirical investigation of one group of eleven to fourteen year old children and their readings of the Gospel of Luke The first section of the study establishes the nature of the text and the readers in this project exploring the Gospel of Luke as a narrative of Jesus birth life death and resurrection and then looking at the developmental traits of children as readers The next section offers a model account of how biblical scholars can investigate empirical readings of Scripture by describing the methods used to bring together one group of child readers and Luke The third section then analyzes the resulting multitude of interpretations that the children offered in their reading of the book concentrating on the key trends in their interpretive strategies It critiques the children s readings of Luke but it also points to some of the surprising and beneficial results of reading Luke using the interpretive strategies of a child

On Holy Ground: The Theory and Practice of Religious Education Liam Gearon, 2013-07-18 Religion has had notable and renewed prominence in contemporary public and political life Religious questions have also been freshly examined in philosophy and theology the natural sciences the social sciences psychology phenomenology politics and the arts These fields reflect complex multi

disciplinary understandings of religion some hostile some accommodating For religious education this has all contributed to its own international renaissance Religious education in ensuring it is contemporary shares with these fields the same criticality the same distance between the study of religion and the religious life Yet what are the grounds of this modern religious education Through a systematic historical and contemporary cross disciplinary analysis answering this question is the ambitious task of the book Chapters include philosophy theology and religious education the natural sciences and religious education the social sciences and religious education psychology spirituality and religious education phenomenology and religious education the politics of religious education the aesthetics of religious education The central problem of all modern religious education remains this what are the grounds of religious education when religious education is no longer grounded in the religious life in the life of the holy Although this primarily appears to be an epistemological problem it soon becomes a moral and existential one The book will be of key interest to teachers theorists and researchers working in religious education Religious Education Ministry with Youth D.
