studies At the same time however from the perspective of comparative religion or the phenomenology of religion this same term semantically implies the ultimate reality of other religious traditions Brahman and God Isvara in Hindu religious tradition as well as God in Christianity *A Companion to Philosophy of Religion* Charles Taliaferro, Paul Draper, Philip L. Wildman, 2010-11-05 What can philosophy contribute to the study of religion This book argues that the study of religion needs philosophy in the form of multidisciplinary comparative inquiry Contradicting the current tendency to regard philosophical reflection and the academic study of religion as independent endeavors best kept apart Wesley J Wildman

brings them together offering a broader vision than that of traditional philosophy of religion and surmounting many of its difficulties His newer conception of religious philosophy is well suited to the modern multicultural secular university Through multidisciplinary comparative inquiry religious philosophy allows for a variety of approaches from historical and analytical work to evocative description and theoretical evaluation of truth claims and both secular and religious thinkers participate The tasks and varieties of religious philosophy as they arc across the world s religions and philosophies are discussed along with religious philosophy s modern and postmodern contexts Wildman s thoughtful and thought provoking book will be essential reading for all those concerned with the study of religion present and future *The Oxford Handbook of Religion and Emotion* John Corrigan,2008 This volume collects essays under four categories religious traditions religious life emotional states and historical and theoretical perspectives They describe the ways in which emotions affect various world religions and analyse the manner in which certain components of religious represent and shape emotional performance

Philosophy and Salvation Carlos Blanco,2013-01-31 We all seek salvation claims Blanco because we all become prisoners of negativity Humanity wants to be saved we want to overcome the negativity that so often enslaves us But where is the saviour to be found and where is the source of salvation In *Philosophy and Salvation* Blanco argues that salvation may only come from the infinite springs of the word The word saves us the word of science the word manifested in art the word of a society which promises something for itself Humanity understands itself through language human beings use words in order to know each other and to cooperate in the edification of something that may transcend them The word invites us and in fact leads us to transcendence This is salvation to inaugurate a new world in which the former negativity may be overcome Blanco looks back over the history of philosophical and theological thought to bring his argument to life for all seeking salvation today

Kierkegaard and the Self Before God Simon D. Podmore,2011-02 Simon D Podmore claims that becoming a self before God is both a divine gift and an anxious obligation Before we can know God or ourselves we must come to a moment of recognition How this comes to be as well as the terms of such acknowledgment are worked out in Podmore s powerful new reading of Kierkegaard As he gives full consideration to Kierkegaard s writings Podmore explores themes such as despair anxiety melancholy and spiritual trial and how they are broken by the triumph of faith forgiveness and the love of God He confronts the abyss between the self and the divine in order to understand how we can come to know ourselves in relation to a God who is apparently so wholly Other

Interreligious Comparisons in Religious Studies and Theology Perry Schmidt-Leukel,Andreas Nehring,2016-07-14 Can religions be compared For decades the discipline of religious studies was based on the assumption that they can Postmodern and postcolonial reflections however raised significant doubts In social and cultural studies the investigation of the particular often took precedence over a comparative perspective *Interreligious Comparisons in Religious Studies and Theology* questions whether religious studies can survive if it ceases to be comparative religion Can it do justice to a globalized world if it is limited on the specific and turns a blind eye

on the general While comparative approaches have come under strong pressure in religious studies they have started flourishing in Theology Comparative theology practices interfaith dialogue by means of comparative research This volume asks whether theology and religious studies are able to mutually benefit from their critical and constructive reflections Can postcolonial criticism of neutrality and objectivity in religious studies create new links with the decidedly perspectival approach of comparative theology In this collection scholars from theology and religious studies discuss the methodology of interreligious comparison in the light of recent doubts and current objections Together with the contributors Perry Schmidt Leukel and Andreas Nehring argue that after decades of critique interreligious comparison deserves to be reconsidered reconstructed and reintroduced
