Religious Liberty And Human Rights:

Religious Human Rights in Global Perspective John Witte, Johan D. van der Vyver, 1996 The legal traditions of Christianity Judaism and Islam have contributed much to the cultivation and violation of religious human rights around the world In this volume Desmond Tutu Martin Marty and twenty leading scholars offer an authoritative assessment of these contributions and challenge people of all faiths to adopt golden rules of religious liberty Religious Human Rights in Global Perspective Johan David Van der Vyver, John Witte, 1996 In this Dickensian century of human rights the world has cultivated the best of religious rights protections but witnessed the worst of religious rights abuses In this volume Jimmy Carter John T Noonan Jr and a score of leading jurists assess critically and comparatively the religious rights laws and practices of the international community and of selected states in the Atlantic continents This volume and its companion Religious Human Rights in Global Perspective Religious Perspectives are products of an ongoing project on religion human rights and democracy undertaken by the Law and Religion Program at Emory University **The Inherence of Human Dignity** Barry W. Bussey, Angus J. L. Menuge, 2021-02-15 Focused on the more practical level volume 2 seeks to understand the work dignity may do as a foundation for law how it is related to religious liberty and how we should adjudicate religious liberty disputes at the individual and corporate level What is the sphere of human dignity that the law should be trying to protect Is the role of dignity helpful as a foundational legal concept and if so how exactly What is the status of religious liberty as a component of human dignity and how is it to be balanced with other individual rights such as freedom of expression And finally to what extent can the law adjudicate corporate religious claims The Blessings of Liberty John Witte, Jr., 2021-11-04 Leading legal scholar John Witte Jr explores the role religion played in the development of rights in the Western legal tradition and traces the complex interplay between human rights and religious freedom norms in modern domestic and international law He examines how US courts are moving towards greater religious freedom while recent decisions of the pan European courts in Strasbourg and Luxembourg have harmed new religious minorities and threatened old religious traditions in Europe Witte argues that the robust promotion and protection of religious freedom is the best way to protect many other fundamental rights today even though religious freedom and other fundamental rights sometimes clash and need judicious balancing He also responds to various modern critics who see human rights as a betrayal of Christianity and religious freedom as a betrayal of human rights **Religious Human Rights in Global Perspective** John (jurista) Witte, Johan David Van der Vyver, Van der Vyver, J. D., 1996-02-09 In this Dickensian century of human rights the world has cultivated the best of religious rights protections but witnessed the worst of religious rights abuses In this volume Jimmy Carter John T Noonan Jr and a score of leading jurists assess critically and comparatively the religious rights laws and practices of the international community and of selected states in the Atlantic continents This volume and its companion Religious Human Rights in Global Perspective Religious Perspectives are products of an ongoing project on religion human

rights and democracy undertaken by the Law and Religion Program at Emory University

Metaphysics of Human Rights 1948-2018 Luca Di Donato, Elisa Grimi, 2019-10-01 The 1948 Declaration of Human Rights demanded a collaboration among exponents from around the world Embodying many different cultural perspectives it was driven by a like minded belief in the importance of finding common principles that would be essential for the very survival of civilization Although an arduous and extensive process the result was a much sought after and collective endeavor that would be referenced for decades to come Motivated by the seventieth anniversary of the 1948 Universal Declaration of Human Rights and enriched by the contributions of eminent scholars this volume aims to be a reflection on human rights and their universality The underlying question is whether or not after seventy years this document can be considered universal or better yet how to define the concept of universality We live in an age in which this notion seems to be guided not so much by the values that the subject intrinsically perceives as good but rather by the demands of the subject Universality is thus no longer deduced by something that is objectively given within the shared praxis Conversely what seems to have to be universal is what we want to be valid for everyone This volume will be of interest to those currently engaged in research or studying in a variety of fields including Philosophy Politics and Law

Worldwide Human Rights and Religious Liberty, 2014 **Religious Liberty and Human Rights in Nations and in Religions** Leonard J. Swidler, 1986 **Fundamental Rights, Religion and Human Dignity** Javier Martínez-Torrón, Li-ann Thio, 2024-12-02 This collection examines theoretical and practical issues concerning the relationship between freedom of religion or belief and other fundamental rights in the context of secular States from the perspective of human dignity As the Universal Declaration of Human Rights made clear human dignity constitutes the foundation of human rights among which freedom of thought conscience and religion occupies a prominent place As a consequence of the inter cultural debate that is ongoing in contemporary Western societies which are increasingly pluralistic the concept of human dignity faces important challenges in terms of what it requires The five chapters included in the first part of this book discuss some of these conceptual challenges such as the implications of common good constitutionalism for the understanding of human dignity and the role of religious freedom from the perspective of Western experiences and legal thinkers The chapters in Part II explore particular questions involving human dignity and the relationship between freedom of religion or belief and other human rights for example how to build bridges between religious freedom and other fundamental freedoms when people make conflicting legitimate choices Taken together the book offers an insightful range of perspectives on some contemporary challenges raised by the exercise of religious freedom in societies that claim to be based on respect for human dignity and human rights The volume will be a valuable resource for academics researchers and policy makers working in the areas of Law and Religion Human Rights Law Constitutional Law and International Relations

Tensions Within and Between Religions and Human Rights Johannes A. van der Ven, Hans-Georg Ziebertz, 2012-03-02 This volume contains four theoretical and four empirical articles that aim at conceptual

clarification and descriptive and causal exploration on data from 14 countries about historical and current tensions within and between religions Christianity and Islam and human rights in various contexts *Religious Liberty and Human Rights* Mark Hill, 2002 This volume of essays by distinguished contributors presents a range of complementary perspectives on a subject of fundamental importance for the Christian churches and for contemporary society It discusses from international historical and theological viewpoints how the Human Rights Act 1998 falls to be applied to instances raising issues of religious liberty and highlights the importance of the Act for future decision making within faith communities It includes the papers delivered at the Ecclesiastical Law Society's residential conference in Trinity Hall Cambridge in March 2001 all of which have been substantially revised together with four additional chapters specially commissioned for this volume Individual essays consider to what extent religious liberty has a distinctive nature which should be recognised in the context of state legislation on human rights and how both European and American law have sought to relate religious liberty to other conceptions of human rights The development of theories of natural rights in political theology is given full treatment Other major areas discussed include the effects of the Act on employment law and with regard to admission policies for state voluntary religious schools Human Rights and the World's Major Religions William H. Brackney, 2013-10-01 Based on the celebrated five volume set published in 2005 this updated one volume edition offers readers a concise yet complete understanding of the interplay between the major religions and human rights In a world where religious beliefs have become inseparable from the events of the day ranging from the ongoing strife in the Middle East to cases of sexual abuse by clergy and controversy over circumcision laws in Europe this is an invaluable work It offers readers a comprehensive examination of the way the world's five major faiths Judaism Christianity Islam Hinduism and Buddhism view and have viewed human rights from ancient times to the present An overview of each tradition is provided followed by chapters that show how human rights have been shaped and understood in the tradition from the earliest textual evidence to the contemporary era Considering the differences among religious traditions globally the book shows how each faith advanced the cause of human rights in unique ways Contributors track the development of ideas opinions and issues documenting both the advancement and violation of human rights in the name of religion Demonstrating that human rights discourse cannot be divorced from religious history and experience the book covers such issues as the right to life the rights of women punishment for crimes war and peace slavery and violence *Religion, Human Rights, and Religious Freedom*, 2010 **Human Rights from Exclusion to Inclusion: Principles and Practice** Fons Coomans, Cees Flinterman, Fred Grünfeld, Ingrid Westendorp, Jan Willems, 2021-10-25 Professor Theo van Boven has made his mark in the field of human rights by writing a vast number of scholarly articles reports studies congress papers and the like covering many topics Most of his work has been published in law journals textbooks Festschriften and other sources Since not all of these publications are easily accessible it is the purpose of this anthology to bring together a selection of his writings from 1966 to 1998 The editors have focused on those subjects

that played a major part during Theo van Boven's career and that are in their view the most interesting to the reader. That is why this volume contains papers on such issues as the United Nations and its role as regards human rights, racial discrimination, the right to rehabilitation, the international criminal tribunals, the role of NGOs and many more. The papers have been arranged in different groups under general headings. Within each group, articles dealing with the same subject have been put in chronological order. A detailed bibliography covering most of Theo van Boven's publications is included in this book as an annex. All through his work, Theo van Boven displays his sound theoretical background as well as his enormous practical experience. This combination makes his writings so attractive and compelling to read.

Human Rights in a Divided World David Hollenbach, 2024-07-01. An astute case for Catholic engagement with human rights for all. Human rights should protect the dignity and well-being of all people. But in today's deeply divided world, some argue that cultural differences and economic inequality undermine their universality. In *Human Rights in a Divided World*, David Hollenbach offers a comprehensive and cohesive analysis of the challenges to human rights, suggesting that today's global realities call for important developments rooted in Catholic ethics. This work of theological social ethics draws on a range of disciplines to address the question of whether or not human rights remain valid as universal standards for action in a multicultural, religiously pluralistic, and economically unequal world. Hollenbach provides a compelling account of the contribution that Catholic ethics and practice make to an unequal world. He applies the proposed understanding of human rights to several issues that are much debated today, including religious freedom, the rights of refugees and other forced migrants, economic rights in the face of significant inequality, and the rights of women. *Human Rights in a Divided World* offers a clear path forward for the church in its engagement with politics and guidance for students of human rights as well as those working to advance them.

State, Law and Religion in Pluralistic Societies - Austrian and Indonesian Perspectives Richard Potz, Sabine Kroissenbrunner, Astrid Hafner, 2010. The contributions of this volume present experiences and best practice examples in managing religious diversity from a legal, political, and local perspective. It marks an interesting point for the on-going discussion on integration and participation of Muslims in Europe and shows the need for exchanging knowledge and experience in this field, especially to fulfil the challenges in a globalized world. This volume combines contributions from the Austrian-Indonesian Dialogue Symposium, State Law and Religion in Pluralistic Societies: Austrian and Indonesian Perspectives, held in May 2009 in Vienna, organized by the Austrian and the Indonesian Ministry for Foreign Affairs in co-operation with the Faculty of Law. This symposium marked an important step in strengthening the dialog between the countries, both on the level of civil service, universities, and religious communities.
