The Psychology of Religious Behaviour, Belief and Experience Benjamin Beit-Hallahmi, Michael Argyle, 2014-03-18 Because society is increasingly secular it may seem irrelevant to consider the psychology of religion But the diversity of our multi ethnic and multi cultural society in fact makes religion more important to the social sciences than it has ever been before What are the social consequences of religion Every day the news is full of events that can be blamed on religion perpetrated by a range of groups from whole societies to individuals Beit Hallami and Argyle are renowned for their clear analytical approach to topics and this new state of the art study of psychology and religion is no exception It will be welcomed as an update to their previous work in the area by social psychologists sociologists and theologians worldwide

Religion as We Know It: An Origin Story Jack Miles,2019-11-12 A brief beautiful invitation to the study of religion from a Pulitzer Prize winner How did our forebears begin to think about religion as a distinct domain separate from other activities that were once inseparable from it Starting at the birth of Christianity a religion inextricably bound to Western thought Jack Miles reveals how the West s common sense understanding of religion emerged and then changed as insular Europe discovered the rest of the world In a moving postscript he shows how this very story continues today in the hearts of individual religious or irreligious men and women

Religion and Society in Qajar Iran Robert

Gleave,2004-11-23 Gleave brings together studies by experts in the area of religion in nineteenth century Iran in order to present new insights into Qajar religion political and cultural history Key topics covered include the relationship between religion and the state the importance of archival materials for the study of religion the developments of Qajar religious thought the position of religious minorities in Qajar Iran the relationship between religion and Qajar culture and the centrality of Shi ite hierarchy and the state **Jaina Sutras (Complete)** Hermann Jacobi,2020-09-28 The origin and development of the Gaina sect is a subject on which some scholars still think it safe to speak with a sceptical caution though this seems little warranted by the present state of the whole question for a large and ancient literature has been made accessible and furnishes ample materials for the early history of the sect to all who are willing to collect them Nor is the nature of these materials such as to make us distrust them We know that the sacred books of the Gainas are old avowedly older than the Sanskrit literature which we are accustomed to call classical Regarding their antiquity many of those books can vie with the oldest books of the northern Buddhists As the latter works have successfully been used as materials for the history of Buddha and Buddhism we can find no reason why we should distrust the sacred books of the Gainas as an authentic source of their history If they were full of contradictory statements or the dates contained in them would lead to contradictory conclusions we should be justified in viewing all theories based on such materials with suspicion But the character of the Gaina literature differs little in this respect also from the Buddhistical at least from that of the northern Buddhists How is it then that so many writers are inclined to accord a different age and origin to the Gaina sect from what can be deduced from their own literature The obvious reason is the similarity real or apparent which European scholars have discovered between Gainism and Buddhism Two sects which have so much in common could not it was thought have been independent from each other but one sect must needs have grown out of or branched off from the other This priori opinion has prejudiced the discernment of many critics and still does so In the following pages I shall try to destroy this prejudice and to vindicate that authority and credit of the sacred books of the Gainas to which they are entitled We begin our discussion with an inquiry about Mah v ra the founder or at least the last prophet of the Gaina church It will be seen that enough is known of him to invalidate the suspicion that he is a sort of mystical person invented or set up by a younger sect some centuries after the pretended age of their assumed founder The Gainas both Svet mbaras and Digambaras state that Mah v ra was the son of king Siddh rtha of Kundapura or Kundagr ma They would have us believe that Kundagr ma was a large town and Siddh rtha a powerful monarch But they have misrepresented the matter in overrating the real state of things just as the Buddhists did with regard to Kapilavastu and Suddhodana For Kundagr ma is called in the k r _ga S tra a samnivesa a term which the commentator interprets as denoting a halting place of caravans or processions *Beyond Theodicy* Sarah K. Pinnock,2012-02-01 *Beyond Theodicy* analyzes the rising tide of objections to explanations and justifications for why God permits evil and suffering in the world In response to the Holocaust striking parallels have emerged between major Jewish

and Christian thinkers centering on practical faith approaches that offer meaning within suffering Author Sarah K Pinnock focuses on Jewish thinkers Martin Buber and Ernst Bloch and Christian thinkers Gabriel Marcel and Johann Baptist Metz to present two diverse rejections of theodicy one existential represented by Buber and Marcel and one political represented by Bloch and Metz Pinnock interweaves the disciplines of philosophy of religion post Holocaust thought and liberation theology to formulate a dynamic vision of religious hope and resistance
