Reluctant Regulators:

Reluctant Regulators Barry G. Cole, Mal Oettinger, 1978 **Improving Health Care Safety and Quality** Judith Healy, 2016-05-13 Responding to the public concern caused by recent hospital scandals and accounts of unintended harm to patients this author draws on her experience of analysing the health care systems of over a dozen countries and examines whether greater regulation has increased patient safety and health care quality The book adopts a new approach to mapping developments in health care systems in Europe North America and Australia and pieces together evidence of which regulatory strategies and mechanisms work well to ensure safer patient care It identifies the regulatory bodies the regulatory principles and the implementation strategies adopted to improve governance in health care systems and suggests a conceptual framework for responsive regulation The book will be of interest to government actors health care professionals and medico legal scholars **General Accounting Office's Study of the Effectiveness of Federal Bank Supervision and Regulation** United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on Financial Institutions Supervision, Regulation and Insurance, 1991 Global Governance: An Architecture for the World Economy Horst Siebert, 2003-06-24 Globalization deeply affects economic structures and raises the issue of how governments should respond to new challenges In this book various ways of improving the institutional setup for global governance are discussed by renowned experts The discussion focuses on further liberalizing international trade preventing international financial crises and protecting global environmental systems The advantages of free international trade as well as the fears of those who are against globalization are considered in the contributions **Justice Delayed** Great Britain: Parliament: House of Commons: Public Administration Select Committee, 2008-12-15 This report contains the Committee's views on the Ombudsman's report on the prudential regulation of Equitable Life throughout the 1990s until it was forced to close to new business in December 2000 Noting as well that now eight years later the situation remains unresolved The Committee feels that the Government should without further delay accept the Ombudsman's findings of maladministration on the part of the former Department of Trade and Industry the Government Actuary's Department and the Financial Services Authority They support the Ombudsman's recommendation for a full and unreserved apology from those public bodies concerned There are valid arguments to be had about the means of providing redress but there is concern that the Government may choose to act as judge on its own behalf by refusing to accept that maladministration took place This would seriously undermine the Ombudsman's office and the ability to learn lessons from the Equitable Life affair The Committee also strongly supports the recommendation for a compensation scheme Where regulators have been shown to fail so thoroughly compensation should be a duty not a matter of choice While the aim should be to restore individuals to the position they would have been in had the maladministration not occurred it is essential that the public purse benefits from an appropriate measure of protection In particular the emphasis must be on compensating individuals only for that loss that is fairly attributable to regulatory failure

Further despite the basic presumption that loss must be accurately assessed the main priority must be prompt redress. Policyholders have already been waiting almost a decade and substantial numbers have either died or are advancing in years. Justice delayed will mean justice denied to even more people.

The Regulators Cindy Skrzycki, 2003-02-25 The Regulators is a fresh look at how the regulatory system works in Washington and how it affects the life of every American. The book an incisive and sometimes entertaining look at the back corridors of government draws upon real life regulatory episodes that illustrate the power and reach of the rule making establishment in Washington. It's the first examination of the regulatory world and the entities that interact with it that is both accessible and indispensable to undergraduate graduate business and law students as well as regulatory practitioners and political junkies alike.

"Sesame Street" and the Reform of Children's Television Robert W. Morrow, 2008-12-08 An accessible well researched introduction to the people and principles behind the show's creation. Essential Choice. An Outstanding Academic Title of the Year. By the late 1960s more than a few critics of American culture grouched about the condition of television programming and in particular the quality and content of television shows for children. In the eyes of the reform minded commercial television crassly exploited young viewers its violence and tastelessness served no higher purpose than the bottom line. The Children's Television Workshop (CTW) and its fresh approach to writing and producing programs for kids emerged from this growing concern. Sesame Street CTW's flagship hour long show aimed to demonstrate how television could help all preschoolers including low income urban children prepare for first grade. In this engaging study Robert W. Morrow explores the origins and inner workings of CTW how the workshop in New York scripted and designed Sesame Street and how the show became both a model for network television and a thorn in its side. Through extensive archival research and a systematic study of sample programs from Sesame Street's first ten seasons Morrow tells the story of Sesame Street's creation the ideas techniques organization and funding behind it its place in public discourse and its ultimate and unfortunate failure as an agent of commercial television reform. An insightful look at American children's television. Library Journal.

Re-Inventing Labour Law Enforcement Louise Munkholm, 2020-04-30 This monograph investigates current issues in labour law enforcement from a socio-legal perspective. It analyses how local Italian enforcement actors promote the protection of workers in Prato a city that in recent decades has seen a significant influx of Chinese migrants who run small workshops as part of the local clothing industry. Many of the Chinese firms in Prato fail to live up to core labour standards such as maximum working hours health and safety at work and payment of social security contributions. The book analyses the strategies and practices employed by three local enforcement actors labour inspectors labour unionists and a new type of labour law consultant in their efforts to assist Chinese firms in improving their level of labour law compliance. Combining documentary interview and observational data the book applies theories of legal culture and legal development to address the interaction between law and society. It focuses on the operational aspects of law by asking three interrelated research questions. How do local enforcement actors promote the

protection of workers in Chinese firms in Prato Which tools are employed and which rationalities drive the initiatives The book thereby sheds light upon processes of legal cultural adaptation informing ongoing international and national debates about what can actually be done to combat contemporary gaps in the protection of workers Tenth Anniversary of the Surface Mining Control and Reclamation Act of 1977 United States. Congress. House. Committee on Interior and Insular Affairs. Subcommittee on Energy and the Environment,1988

Seeds of Change John Atlas,2010-06-28 There is more value on a single page of *Seeds of Change* than in a year's worth of Rush Limbaugh screeds combined with a lifetime of Sarah Palin sneers at community organizers Todd Gitlin *Seeds of Change* goes beyond the headlines of the last Presidential campaign to describe what really happened in ACORN's massive voter registration drives why it triggered an unrelenting attack by Fox News and the Republican Party and how it confronted its internal divisions and scandals Based on Atlas's own eyewitness original reporting as the only journalist to have access to ACORN's staff and board meetings this book documents the critical transition from founder Wade Rathke a white New Orleans radical to Bertha Lewis a Brooklyn African American activist The story begins in the 1970s when a small group of

young men and women led by a charismatic college dropout began a quest to help the powerless help themselves In a tale full of unusual characters and dramatic conflicts the book follows the ups and downs of ACORN s organizers and members as they confront big corporations and unresponsive government officials in Albuquerque Brooklyn Chicago Detroit Little Rock New Orleans Philadelphia and the Twin Cities The author follows the course of local and national campaigns to organize unions fight the subprime mortgage crisis promote living wages for working people struggle for affordable housing and against gentrification and help Hurricane Katrina s survivors return to New Orleans The book dispels the conservative myth that we can only help the poor through private soup kitchens and charity and the liberal myth that the solution rests simply with more government services *Seeds of Change* not only provides a gripping look at ACORN s four decades of effective organizing but also offers a hopeful analysis of the potential for a revival of real American democracy An offering of The Progressive Book Club
