Robert R. McCrae, Juri Allik, 2012-12-06 ROBERT R MCCRAE it is simply personality research conducted in different countries The implicit assumption behind this practice is that personality processes are universal and where they are studied is thus of no consequence An insensitivity to cultural context once imputed mostly to Americans now appears to characterize the field worldwide Fortunately recent years have also seen a rise of interest in studies of personality and culture Church 2001 Church Lee McCauley McCrae 2000 What do these new studies show Are personality processes indeed universal or are there significant variations across cultures that necessitate a more nuanced approach to research There is as

yet no definitive answer to that question In some respects human personality does seem to transcend the boundaries of language and culture in other respects it is profoundly influenced by social and historical forces Sorting these issues out must be a priority for our field if we are to understand the current personality literature

To Each Their Darkness Gary A. Braunbeck, 2010-12 2010 Stoker Award Winner for Superior Achievement in Nonfiction Explore the world of writing horror from a Bram Stoker and International Horror Guild award winning author's point of view Gary Braunbeck uses film fiction and life experience to elucidate the finer points of storytelling both in and out of genre This part autobiographical always analytical book looks at how stories develop and what

makes them work or not work when they're told. Be warned: reality is as brutal as fiction. Rob Zombie, police shootings, William Goldman, and human misery are all teachers to the horror neophyte, and Braunbeck uses their lessons to make *To Each Their Darkness* a whirlwind of horror and hope for the aspiring writer. — *What I Remember* Millicent Garrett Fawcett, 2021-08-31

In *What I Remember*, Millicent Garrett Fawcett presents a poignant and reflective memoir that captures the essence of her life as a pioneering suffragist and social reformer in the late 19th and early 20th centuries. Fawcett's literary style is characterized by its clarity and personal insight, providing readers with an intimate glimpse into her thoughts and experiences during a transformative period in British society. The memoir not only chronicles her own journey but also acts as a testament to the collective struggles and triumphs of the women's suffrage movement, contextualizing her personal narrative within the broader tapestry of social change.

Millicent Garrett Fawcett (1847–1929) was a prominent figure in the struggle for women's rights, serving as the president of the National Union of Women's Suffrage Societies. Her upbringing in a politically active family and her education at Newnham College, Cambridge, where she was among the first women to receive a degree, shaped her views on equality and civil rights. Drawing from her rich experiences in activism, Fawcett's memoir serves as both a historical document and a personal reflection on the battles fought for women's suffrage.

What I Remember is essential reading for anyone interested in the history of feminism, activism, and the fight for social justice. Fawcett's eloquent prose and compelling storytelling not only enrich our understanding of the women's movement but also inspire contemporary readers to continue the fight for equality. Face to Face Marty Folsom, 2016-08-31 Like falling in love, this book argues that a relationship with God begins with surprise, proceeds with discovery, and shapes a life that comes to share a story of love. This book does not describe God but pursues the nature of personally relating with the triune God. Consequently, it also engages how we relate with humans made in God's image. We finish the *Face to Face* series with this most mysterious and fulfilling encounter: a personal engagement with the Relational God, known as a community of persons who invite us to share in their life.

Committing the Future to Memory Sarah Clift, 2013-11-11 Whereas historical determinacy conceives the past as a complex and unstable network of causalities this book asks how history can be related to a more radical future To pose that question it does not reject determinacy outright but rather seeks to explore how it works In examining what it means to be determined by history it also asks what kind of openings there might be in our encounters with history for interruptions re readings and re writings Engaging texts spanning multiple genres and several centuries from John Locke to Maurice Blanchot from Hegel to Benjamin Clift looks at experiences of time that exceed the historical narration of experiences said to have occurred in time She focuses on the co existence of multiple temporalities and opens up the quintessentially modern notion of historical succession to other possibilities The alternatives she draws out include the mediations of language and narration temporal leaps oscillations and blockages and the role played by contingency in representation She argues that such alternatives compel us to reassess the ways we understand history and identity in a traumatic or indeed in a post traumatic age

Gender and Memory Luisa Passerini, 2017-07-12 Gender and Memory brings together contributions from around the world and from a range of disciplines history and sociology socio linguistics and family therapy literature to create a volume that confronts all those concerned with autobiographical testimony and narrative both spoken and written The fundamental theme is the shaping of memory by gender This paperback edition includes a new introduction by Selma Leydesdorff coeditor of the Memory and Narrative series of which this volume is a part Are the different ways in which men and women are recalled in public and private memory and the differences in men's and women's own memories of similar experiences simply reflections of unequal lives in gendered societies or are they more deeply rooted The sharply differentiated life experiences of men and women in most human societies the widespread tendencies for men to dominate in the public sphere and for women's lives to focus on family and household suggest that these experiences may be reflected in different qualities of memory The contributors maintain that memories are gendered and that the gendering of memory makes a strong impact on the shaping of social spaces and expressive forms as the horizons of memory move from one generation to the next They argue that in order to understand how memory becomes gendered we need to travel through the realms of gendered experience and gendered language

Esthetics of the Moment Thomas M. Kavanagh, 2015-11-16 The literature and art of the French Enlightenment is everywhere marked by an intense awareness of the moment The parallel projects of living in representing and learning from the moment run through the Enlightenment's endeavors as tokens of an ambition and a heritage imposing its only and ultimately impossible cohesion In this illuminating study Thomas M Kavanagh argues that Enlightenment culture and its tensions contradictions and

achievements flow from a subversive attention to the present as present freed from the weight of past and future Examining a wide sweep of literary and artistic culture Kavanagh argues against the traditional view of the Age of Reason as one of coherent recognizable ideology expressed in a structured narrative form In literature he analyzes the moment at work in the inebriating lightness of Marivaux's repartee the new found freedom of Lahontan's and Rousseau's ideals of a consciousness limited to the present Diderot's championing of Epicurean epistemology Graffigny's portrayal of abrupt cultural displacement and Casanova's penchant for chance's redefining moment The moment in art theory and practice is explored in such forms as de Piles's defense of color Du Bos's foregrounding of perception Watteau's indulgence in a corporeal present Chardin's dismantling of mimesis and Boucher's and Fragonard's thematics of desire
