Silk Road Pilgrimage Pilgrim David,2011-12 This book serves two different purposes Firstly it is intended as an evangelistic book that can be given to Muslims It contains dialogues with Muslims about a wide range of spiritual issues and unpacks some deeper meanings that most Muslims have not thought about when they observe practices such as almsgiving fasting or circumcision Secondly the book serves as a handbook or model for Christians in finding points of contact for constructive dialogues with people from Islamic backgrounds The themes mentioned above are relevant especially in Muslim contexts while some other points of contact relate to particular issues in certain cultures such as using traditional Central Asian rugs or carpets as a

bridge for sharing about Jesus Still other topics are general human issues such as questions of suffering bringing up children or the activities of angels which may be of interest to people from almost any culture The book is based on the author's experiences of talking with Muslims in Central Asia and the Caucasus region There is no single approach that is suitable for everyone so this book provides a repertoire of possible approaches that can be used in particular circumstances when talking with people from Muslim backgrounds

Re-Membering History in Student and Teacher Learning Joyce E. King, Ellen E. Swartz, 2014-03-05 What kind of social studies knowledge can stimulate a critical and ethical dialog with the past and present Re-Membering History in Student and Teacher Learning answers this question by explaining and illustrating a process of historical recovery that merges Afrocentric theory and principles of culturally informed curricular practice to reconnect multiple knowledge bases and experiences In the case studies presented K-12 practitioners teacher educators preservice teachers and parents use this praxis to produce and then study the use of democratized student texts they step outside of reproducing standard school experiences to engage in conscious inquiry about their shared present as a continuance of a shared past This volume exemplifies not only why instructional materials including most so-called multicultural materials obstruct democratized knowledge but also takes the next step to construct and then study how re-membered student texts can be used Case study findings reveal improved student outcomes enhanced relationships between teachers and families and teachers and students and a closer connection for children and adults to
