Cultural Visions: Essays in the History of Culture, 2022-03-07 This collection opens with an inquiry into the assumptions and methods of the historical study of culture comparing the new cultural history with the old Thirteen essays follow each defining a problem within a particular culture In the first section Biography and Autobiography three scholars explore historically changing types of self conception each reflecting larger cultural meanings essays included examine Italian Renaissance biographers and the autobiographies of Benjamin Franklin and Mohandas Gandhi A second group of contributors explore problems raised by the writing of history itself especially as it relates to a notion of culture Here examples are drawn from the writings of Thucydides Jacob Burckhardt and the art historians Alois Riegl and Josef Strzygowski In the third section Politics Nationalism and Culture the essays explore relationships between cultural creativity and national identity with case studies focusing on the Holy Roman Emperor Maximilian I the place of Castile within the national history of Spain and the impact of World War I on work of Thomas Mann The final section Cultural Translation raises the complex questions of cultural influence and the transmission of traditions over time through studies of Philo of Alexandria's interpretation of the Hebrew Bible Erasmus use of Socrates Jean Bodin's conception of Roman law and adaptations of the Hebrew Bible for American children

Nietzsche on the Decadence and Flourishing of Culture Andrew Huddleston, 2019-05-02 In Nietzsche's first book *The Birth of Tragedy* 1872 cultural renewal is paramount among his concerns In the person of Richard Wagner Nietzsche saw someone who might bring together a fragmented and directionless modern society through the creation of tragic festival that through its mythic content would allegedly give renewed meaning and purpose to human life The standard story about Nietzsche's philosophical development is that he becomes disillusioned with this project and his mature philosophy undergoes a radical shift Instead of reposing his hopes in a broader culture he comes to occupy himself instead with the fate of a few great

individuals or at the extreme perhaps mainly with his own quasi artistic self cultivation On these readings to the extent that he remains concerned with culture at all it is only as something whose noxious influence threatens this cadre of elite individuals Nietzsche on the Decadence and Flourishing of Culture questions this individualist reading that has become prevalent and develops an alternative interpretation of Nietzsche as a more social thinker who sees collective cultural achievements as no less important Great individuals are not all that matter Andrew Huddleston uses Nietzsche's perfectionistic ideal of a flourishing culture and his diagnostics of cultural malaise as a point of departure for reconsidering many of the central themes in Nietzsche's ethics and social philosophy as well as for understanding the interconnections with the form of cultural criticism that was part and parcel of his distinctive philosophical enterprise *The Culture of Profession in Late Renaissance Italy* George W. McClure, 2004-01-01 From Latin humanists to popular writers Italian Renaissance culture spawned a lively debate on vocational choice and the nature of profession In *The Culture of Profession in Late Renaissance Italy* George W. McClure examines the turn this debate took in the second half of the Renaissance when the learned praise and rebuke of profession began to be complemented with more popular forms of discourse and when less learned vocations made their voice heard Focusing primarily on sources assembled and published in the sixteenth century McClure's study explores professional themes in comic festive and popular print culture A pivotal figure is Tomaso Garzoni a monk whose popular encyclopedia *Universal Piazza* of all the Professions of the World was published in 1585 A funnel for earlier traditions and an influence on later ones this massive compendium treated over 150 categories of profession juxtaposing the world of philosophers and poets lawyers and physicians merchants and artisans teachers and printers cooks and chimney sweeps prostitutes and procurers If the conventional view is that Italian Renaissance society generally grew more aristocratic in the later period this and other sources reveal a professional ethos more democratic in nature and bespeak the full cultural discovery of the middling and lowly professions in the late Renaissance **Culture of Crisis and Extinction** Kim Thu Le, 2024-10-14 *Culture of Crisis and Extinction* Idealism and Ideology Expressed in Arts and Architectural Forms explores the mythology of cultures in crisis tracing the symptoms that lead to their destruction and eventual extinction Through a comprehensive range of research methods and strategies tailored to each fieldwork project this book investigates cultural phenomena across various environments It uncovers significant historical meanings that are often hidden or absent from mainstream publications By analyzing cultural transitions through economic political and ethnic lenses across Europe and Asia the book provides an in depth examination of collective action and the root causes of cultural crises Spanning six chapters it identifies the myths surrounding cultural conflicts and crises of extinction challenging the assumption that poverty and suffering are definitive indicators of such crises Instead it presents cultural extinction as a gradual process stemming from a culture's failure to adapt to its changing environment The book considers how injustice economic misalignment and systemic inequalities such as unnecessary poverty illness and religious discrimination contribute

to cultural collapse When these injustices become ingrained within a society's institutions the eventual disappearance of the culture becomes inevitable unless transformative change is initiated

Gay and Lesbian Studies in Art History Whitney Davis, 1994 Explores issues of homosexuality and the homoerotic within the field of art historical discourse and questions the canon of western art history Davis anthology extends the methods of lesbian and gay studies to elucidate the art of the pre modern period as well as twentieth century art

A Usable Past William J. Bouwsma, 1990-06-27 The essays assembled here represent forty years of reflection about the European cultural past by an eminent historian The volume concentrates on the Renaissance and Reformation while providing a lens through which to view problems of perennial interest A Usable Past is a book of unusual scope touching on such topics as political thought and historiography metaphysical and practical conceptions of order the relevance of Renaissance humanism to Protestant thought the secularization of European culture the contributions of particular professional groups to European civilization and the teaching of history The essays in A Usable Past are unified by a set of common concerns William Bouwsma has always resisted the pretensions to science that have shaped much recent historical scholarship and made the work of historians increasingly specialized and inaccessible to lay readers Following Friedrich Nietzsche he argues that since history is a kind of public utility historical research should contribute to the self understanding of society

The Tarot Robert Place, 2005-03-17 The Tarot is one of the few books that cuts through conventional misperceptions to explore the Tarot deck as it really developed in the Middle Ages and Renaissance Europe not as some would suggest in the far reaches of Egyptian antiquity Mining the Hermetic alchemical and Neoplatonic influences behind the evolution of the deck author Robert M Place provides a historically grounded and compelling portrait of the Tarot's true origins without overlooking the deck's mystical dimensions Indeed Place uncommonly weds reliable historiography with a practical understanding of the intuitive help and divinatory guidance that the cards can bring He presents techniques that offer new and valuable ways to read and interpret the cards Based on a simple three card spread Place's approach can be used by either the seasoned practitioner or the new inquirer

Jews and Judaism in World History , European Thought and Culture, 1350-1992 Michael J. Sauter, 2021-06-06 This book explores the main currents of European thought between 1350 and 1992 which it approaches in two principal ways culture as produced by place and the progressive unmooring of thought from previously set religious and philosophical boundaries The book reads the period against spatial thought's history spatial sciences such as geography or Euclidean geometry to argue that Europe cannot be understood as a continent in intellectual terms or its history organized with respect to traditional spatial geographic categories Instead we need to understand European intellectual history in terms of a culture that defined its own place as opposed to a place that produced a given culture It then builds on this idea to argue that Europe's overweening drive to know more about humanity and the cosmos continually breached the boundaries set by venerable religious and philosophical traditions In this respect spatial thought foregrounded the human at the unchanging's expense with European

thought slowly becoming unmoored as it doggedly produced knowledge at wisdom's expense Michael J Sauter illustrates this by pursuing historical themes across different chapters including European thought's exit from the medieval period the Renaissance the Reformation the Scientific Revolution the Enlightenment and Romanticism the Industrial Revolution and war and culture offering a thorough overview of European thought during this period The book concludes by explaining how contemporary culture has forgotten what early modern thinkers such as Michel de Montaigne still knew namely that too little skepticism toward one's own certainties makes one a danger to others Offering a comprehensive introduction to European thought that stretches from the late fourteenth to the late twentieth century this is the perfect one volume study for students of European intellectual history

Courts, Patrons and Poets David Mateer, 2000-01-01 This sequence of three course texts and two anthologies published in association with the Open University explores the Renaissance from the interdisciplinary perspective of history literature drama religion the history of art philosophy music and political thought

The Impact of Humanism Margaret Lucille Kekewich, 2000-01-01 These are explored through a reassessment of the role of humanism with case studies in music Josquin Desprez moral philosophy Valla Castiglione Erasmus More and political thought Machiavelli This book is the first in a series of three specifically designed for the Open University course The Renaissance in Europe A Cultural Enquiry The series is designed to appeal both to the general reader and to those studying undergraduate arts courses in the period
