Catherine de' Medici R J Knecht, 2014-07-16 Catherine de Medici 1519 89 was the wife of one king of France and the mother of three more the last sorry representatives of the Valois who had ruled France since 1328 She herself is of preeminent importance to French history and one of the most controversial of all historical figures Despised until she was powerful enough to be hated she was in her own lifetime and since the subject of a Black Legend that has made her a favourite subject of historical novelists most notably Alexandre Dumas whose *Reine Margot* has recently had new currency on film Yet there is no recent biography of her in English This new study by a leading scholar of Renaissance France is a major event Catherine a neglected and insignificant member of the Florentine Medici entered French history in 1533 when she married the son of Francis I for short lived political reasons her uncle was pope Clement VII who died the following year Now of no diplomatic value Catherine was treated with contempt at the French court even after her husband's accession as Henry II in 1547 Even so she gave him ten children before he was killed in a tournament in 1559 She was left with three young boys who succeeded to the throne as Francis II 1559 60 Charles IX 1560 74 and Henry III 1574 89 As regent and queen mother a woman and with no natural power base of her own she faced impossible odds France was accelerating into chaos with political faction at court and religious conflict throughout the land As the country disintegrated Catherine's overriding concern was for the interests of her children She was tireless in her efforts to protect her sons inheritance and to settle her daughters in advantageous marriages But France needed more Catherine herself was both peace loving and in an age of frenzied religious hatred unbogoted She tried to use the Huguenots to counterbalance the growing power of the ultra Catholic Guises but extremism on all sides frustrated her She was drawn into the violence Her name is ineradicably associated with its culmination the Massacre of St Bartholomew 24 August 1572 when thousands of Huguenots were slaughtered in Paris and elsewhere To this day no one knows for certain whether Catherine instigated the massacre or not but here Robert Knecht explores the

probabilities in a notably level headed fashion His book is a gripping narrative in its own right It offers both a lucid exposition of immensely complex events with their profound impact on the future of France and also a convincing portrait of its enigmatic central character In going behind the familiar Black Legend Professor Knecht does not make the mistake of whitewashing Catherine but he shows how intractable was her world and how shifty or intransigent the people with whom she had to deal For all her flaws she emerges as a more sympathetic and in her pragmatism more modern figure than most of her leading contemporaries

This book contains thirteen essays on European princes and princely culture between 1450 and 1650. Many products of medieval and renaissance culture—literature, music, political ideology, social and governmental structures, the fine arts, and even forms of devotional practice—found their best expression in the context of the courts of greater and lesser princes. This volume, the first of two concentrating on the late Middle Ages and the Early Modern Era, has essays on selected courts north of the Alps and the Pyrenees: the court of Burgundy under the Valois dukes; that of France under Catherine de Medici and of Henry IV; that of Scotland under James III, IV, V, VI and of Mary Queen of Scots; that of Margaret of Austria at Mechelen; of Scandinavia; of Heidelberg under Frederick the Victorious and Philip the Upright; and that of Maximilian I. Contributors include Gayle K. Brunelle, Dagmar Eichberger, Annette Finley Crosswhite, Martin Gosman, Margriet Hoogvliet, Michael Lynch, Alasdair A. MacDonald, Olaf Mörke, Jan Dirk Müller, Rita Schlusemann, Alan Swanson, Arjo Vanderjagt, and Janet Hadley Williams. *Paris*, Anthony Sutcliffe, 1993-01-01. In this extensively illustrated work, one of Paris's leading historians links the beauty of the city to its harmonious architecture, the product of a powerful tradition of classical design running from the Renaissance through the 20th century. **Changing Identities in Early Modern France**, Michael Wolfe, 1997. After examining the interplay between competing ideologies and public institutions from the monarchy to the Parlement of Paris to the aristocratic household, the volume explores the dynamics of deviance and dissent, particularly in regard to women's roles in religious reform movements and such sensationalized phenomena as the witch hunts and infanticide trials. The Philadelphia House, Khosrow Bozorgi, Keith Gaddie, 2023-07-03. At the very beginning of the interwar period, a small collection of formally trained architects created a distinctive residential type which can undoubtedly be recognized as a Philadelphia landmark. They surpassed the conventional pseudo-classic or neo-Gothic eclectic solution by a unique adaptation of the principles and criteria of design to suit the expression of the exclusive cultural tradition of the clients and to respond to the natural environment. The works of three Philadelphia architectural firms—Mellor, Meigs and Howe; McGoodwin and Willing; and Sims—are analyzed to explore this proposition using six houses constructed between 1917 and 1928 as a basis. These homes and others located in the historic Chestnut Hill neighborhood are aesthetically pleasing. But they also represent a break with the past: the emergence of a new type which is among the architectural design innovations of the last century, generally conceived as organic architecture. This work, which contains over 200 photographs and drawings, considers the houses, the training and development of the architects, the creation and development of Chestnut Hill itself, and the larger, distinct culture of Philadelphia in contributing to the emergence of this distinctive and lasting style. **Visual Theology of the Huguenots**, Randal Carter Working, 2017-02-23. The role of architecture within the French Reformed tradition has been of recent

scholarly interest seen in the work of Helene Guicharnaud Catharine Randall Andrew Spicer and others Few however have investigated in depth the relationship between Reformed theology and architectural forms In *The Visual Theology of the Huguenots* Randal Carter Working explores the roots of Reformed aesthetics set against the background of late medieval church architecture Indicating how demonstrably important the work of Serlio is in the spreading of the ideas of Vitruvius Working explains the influence of classical Roman building on French Reformed architecture He follows this with an examination of five important Huguenot architects Philibert de l'Orme Bernard Palissy Jacques Androuet du Cerceau Salomon de Brosse and Jacques Perret The distinct language of Huguenot architecture is revealed by his comparative analysis of three churches St Pierre in Geneva a medieval church overhauled by the Reformers St Gervais St Protais a Parisian Catholic church whose facade was completed by the French Reformed architect Salomon de Brosse and the temple at Charenton a structure also designed and built by de Brosse These three buildings demonstrate how the contribution of Huguenot architecture gave expression to Reformed theological ideas and helped bring about the renewal of classicism in France
