The Renaissance Philosophy of Man Ernst Cassirer, Paul Oskar Kristeller, John Herman Randall, 2011-06-27 Despite our admiration for Renaissance achievement in the arts and sciences in literature and classical learning the rich and diversified philosophical thought of the period remains largely unknown This volume illuminates three major currents of thought dominant in the earlier Italian Renaissance classical humanism Petrarch and Valla Platonism Ficino and Pico and Aristotelianism Pomponazzi A short and elegant work of the Spaniard Vives is included to exhibit the diffusion of the ideas of humanism and Platonism outside Italy Now made easily accessible these texts recover for the English reader a significant facet of Renaissance learning

*Late Medieval and Renaissance Philosophy* Frederick Copleston, 2003-01-01 Copleston an Oxford Jesuit and specialist in the history of philosophy first created his history as an introduction for Catholic ecclesiastical seminaries However since its first publication the last volume appearing in the mid 1970s the series has become the classic account for all philosophy scholars and students The 11 volume series gives an accessible account of each philosopher s work but also explains their relationship to the work of other philosophers

Encyclopedia of Renaissance Philosophy Marco Sgarbi, 2022-10-27 Gives accurate and reliable summaries of the current state of research It includes entries on philosophers problems terms historical periods subjects and the cultural context of Renaissance Philosophy Furthermore it covers Latin Arabic Jewish Byzantine and vernacular philosophy and includes entries on the cross fertilization of these philosophical traditions A unique feature of this encyclopedia is that it does not aim to define what Renaissance philosophy is rather simply to cover the philosophy of the period between 1300 and 1650

**Cognitive Psychology in Early Jesuit Scholasticism** Daniel Heider (Ed.), 2022-09-06 Jesuit scholastic philosophy exemplified by the figure of Francisco Suarez 1548 1617 is at present a topic intensively studied worldwide However especially in the English speaking academic world the immediate historical milieu of Suarez s philosophy and theology

constituted especially by the philosophical and theological production of his Jesuit contemporaries is much less taken into account In the field of philosophical cognitive psychology extant especially in the commentaries on Aristotle's *On the Soul* the present publication aims to partially ameliorate this status quo All the chapters in this book to some extent give evidence of the theological motivation and theological horizon of the Jesuit cognitive psychology of the last decades of the 16th century and the first decades of the 17th century

**Boccaccio the Philosopher** Filippo Andrei, 2017-10-07 This book explores the tangled relationship between literary production and epistemological foundation as exemplified in one of the masterpieces of Italian literature Filippo Andrei argues that Giovanni Boccaccio's *Decameron* has a significant though concealed engagement with philosophy and that the philosophical implications of its narratives can be understood through an epistemological approach to the text He analyzes the influence of Dante Petrarch Thomas Aquinas Aristotle and other classical and medieval thinkers on Boccaccio's attitudes towards ethics and knowledge seeking Beyond providing an epistemological reading of the *Decameron* this book also evaluates how a theoretical reflection on the nature of rhetoric and poetic imagination can ultimately elicit a theory of knowledge

**Christian Apologetics as Cross-Cultural Dialogue** Benno van den Toren, 2011-10-27 A call for a new understanding of apologetics moving away from appeals to trans-cultural rationality arguing for a new form of cross-cultural dialogue

**Kant and the Faculty of Feeling** Kelly Sorensen, Diane Williamson, 2018-03-15 Kant stated that there are three mental faculties cognition feeling and desire The faculty of feeling has received the least scholarly attention despite its importance in Kant's broader thought and this volume of new essays is the first to present multiple perspectives on a number of important questions about it Why does Kant come to believe that feeling must be described as a separate faculty What is the relationship between feeling and cognition on the one hand and desire on the other What is the nature of feeling What do the most discussed Kantian feelings such as respect and sublimity tell us about the nature of feeling for Kant And what about other important feelings that have been overlooked or mischaracterized by commentators such as enthusiasm and hope This collaborative and authoritative volume will appeal to Kant scholars historians of philosophy and those working on topics in ethics aesthetics and emotions

***Law as Symbolic Form*** Deniz Coskun, 2007-07-17 This book describes the rule of law as the reign of persuasion rather than the reign of force and democracy as the reign by persuasion rather than the reign by force It synthesizes a vast amount of current Cassirer literature and makes a contribution to jurisprudence The book is the first systematic elaboration on law as a symbolic form and it sheds new light on a still dark area of intellectual and jurisprudential thought

**The Narrative Study of Lives** Ruthellen Josselson, Amia Lieblich, 1993-03-31 This volume is especially appealing in that it celebrates diversity and embraces disagreement The narrative scholar regardless of her/his research tradition or field will most certainly benefit from the diversity and depth provided in *The Narrative Study of Lives* Editors Ruthellen Josselson and Amia Lieblich have admirably fulfilled their criteria of breadth coherence and aesthetic appeal for works included in this volume Moreover they have

provided the necessary forum for the study of lives and life histories We can only hope to continue the conversation in future volumes *Journal of Contemporary Ethnography* Few questions have a longer deeper and livelier intellectual history than how we construct our lives and indeed how we create ourselves in the process But it is a question newly alive today for modern scholarship has brought challenging new perspectives to the study of life writing Literary theorists linguists legal scholars and even political activists are bringing new and powerful insights to bear *The Narrative Study of Lives* provides a needed forum for the debates now in progress and should attract a loyal and numerous band of readers Jerome Bruner New York University For those psychologists searching for new approaches to the study of lives this volume takes an important step toward the editors promise of filling this gaping hole in psychology *The Journal of Nervous and Mental Disease* How do we derive concepts from stories and then use these concepts to understand people What would have to be added to transform story material from the journalistic or literary to the academic and theoretically enriching Addressing these and other such issues as the interface between life as lived and the social times this group of distinguished contributors from six different countries and four different disciplines explores this emerging new field Beginning with the philosophical framework that underlies the study of narrative the book covers such questions as What makes people want to preserve the stories of their past What methods can be used to deconstruct a narrative text Can what we learn from people s narratives of their past be used to account for their current psychological functioning What happens if people lose their ability to narrate their story Can people s narrative accounts tell us something about identity and its development Useful to researchers and students of human development and behavior *The Narrative Study of Lives* provides rich stories and analysis of narrative approaches to life history

**City Views in the Habsburg and Medici Courts** Ryan E. Gregg, 2018-12-10 In *City Views in the Habsburg and Medici Courts* Ryan E Gregg relates how Charles V Holy Roman Emperor and Duke Cosimo I of Tuscany employed city view artists such as Anton van den Wyngaerde and Giovanni Stradano to aid in constructing authority These artists produced a specific style of city view that shared affinity with Renaissance historiographic practice in its use of optical evidence and rhetorical techniques History has tended to see city views as accurate recordings of built environments Bringing together ancient and Renaissance texts archival material and fieldwork in the depicted locations Gregg demonstrates that a close knit school of city view artists instead manipulated settings to help persuade audiences of the truthfulness of their patrons official narratives
