Power, 2021-12-12 The first step in education s long road to respectability lay in the ability of its proponents to demonstrate that it was worthy of collaborating with traditional disciplines in the syllabus of higher learning The universities where the infant discipline of education was promoted benefited from scholars who engaged in teaching and research with enthusiasm and preached the gospel of scientific education These schools Teachers College Columbia University the University of Chicago and Stanford University gained a reputation as oases of pedagogical knowledge Soon public and private colleges alike introduced professional academic programs for the preparation of teachers Foremost among the subjects for these programs was education philosophy with its long history and the impeccable credentials of its ancient and modern expositors Although the principal focus of this study is the history of educational philosophy in colleges and universities it also recognizes educational philosophy s antecedents Chapters cover ancient roots Christian educational theory educational theory and the modern world philosophy and education in early America development of philosophies of education disciplinary maturity for educational philosophy and prospects There is a bibliography and an index **Loose Hints Upon Education, Chiefly Concerning the Culture of the Heart** HENRY HOME. Augustan Age in Rome the Renaissance movement in Italy and Western Europe generally the up surge both in science and in letters in England in the seventeenth century and the contemporary movement in France associated with the Encyclopedists This Scottish Enlightenment often also spoken of as the Awakening of Scotland was of course more than a movement merely on the intellectual and cultural level It had also political bearings and was rather directly conditioned by events and changes in the political arena beginning with the Union with England in 1707 and even more directly was it accompanied and conditioned by social and economic changes which were in a short span of time to transform the face of this far northern country almost beyond recognition
