

A movie poster for the film 'L'or du ciel'. It features a close-up of a man and a woman. The woman, Judith, is in the foreground, looking directly at the camera with a slight smile. She has dark hair and is wearing a dark, possibly black, dress with a ruffled collar. She is also wearing a necklace with a large, dark, oval pendant. The man, Michael, is behind her, his face partially visible as he looks towards the camera. The background is dark and out of focus. The title 'L'or du ciel' is written in a large, elegant, cursive script across the middle of the poster. In the bottom right corner, there is a small circular logo with a stylized 'M' and the word 'MAGNET' below it. The overall tone is romantic and dramatic.

The Dark Lord Peter Levenda, 2013-01-01 One of the most famous yet least understood manifestations of Thelemic thought has been the works of Kenneth Grant the British occultist and one time intimate of Aleister Crowley who discovered a hidden world within the primary source materials of Crowley s Aeon of Horus Using complementary texts from such disparate authors as H P Lovecraft Jack Parsons Austin Osman Spare and Charles Stansfeld Jones Frater Achad Grant formulated a system of magic that expanded upon that delineated in the rituals of the OTO a system that included elements of Tantra of Voudon and in particular that of the Schlangenkraft recension of the Necronomicon all woven together in a dark tapestry of power and illumination The Dark Lord follows the themes in the writings of Kenneth Grant H P Lovecraft and the Necronomicon uncovering further meanings of the concepts of the famous writers of the Left Hand Path It is for Thelemites as well as lovers of the Lovecraft Mythos in all its forms and for those who find the rituals of classical ceremonial magic inadequate for the New Aeon Traveling through the worlds of religion literature and the occult Peter Levenda takes his readers on a deeply fascinating exploration on magic evil and The Dark Lord as he investigates of one of the most neglected theses in the history of modern occultism the nature of the Typhonian Current and its relationship to Aleister Crowley s Thelema and H P Lovecraft s Necronomicon

French Pulpit Oratory,

1598-1650 Peter Bayley,2011-08-11 This 1980 text was the first full length study of seventeenth century pulpit oratory since 1863 and the first to treat both Catholic and Protestant preaching The first part opens with a general discussion on the sermon as a literary form followed by a survey of ideas on preaching and the practical arts of preaching circulating in late Renaissance Europe Of the central chapters on the sermons themselves two are concerned with the style and complex formal structures of the sermons while two examine in turn the major themes of illusion and nature and the imagery associated with them The second part is a descriptive catalogue of extant sermons and some funeral orations of the period which provided a great deal of information never previously collected The book made a significant contribution both to the study of a neglected period of French literature the Baroque and to comparative studies of the sermon
