Malcolm And The Cross The Nation Of Islam Malcolm X And Christianity:

Malcolm and the Cross Louis A. DeCaro, 1998-09 Despite his association with the Nation of Islam Malcolm X had a connection with Christianity which influenced his life After revealing the religious roots of the Nation of Islam in relation to Christianity theologian Lou DeCaro examines Malcolm s contributions as an activist journalist orator and revolutionist against the backdrop of his familial religious heritage *American Christians and Islam* Thomas S. Kidd, 2018-06-05 In the wake of the September 11 terrorist attacks many of America s Christian evangelicals have denounced Islam as a demonic and inherently violent religion provoking frustration among other Christian conservatives who wish to present a more appealing message to the world s Muslims Yet as Thomas Kidd reveals in this sobering book the conflicted views expressed by today s evangelicals have deep roots in American history Tracing Islam s role in the popular imagination of American Christians from the colonial period to today Kidd demonstrates that Protestant evangelicals have viewed Islam as a global threat while also actively seeking to convert Muslims to the Christian faith since the nation s founding He shows how accounts of Mahometan despotism and lurid stories of European enslavement by Barbary pirates fueled early evangelicals fears concerning Islam and describes the growing conservatism of American missions to Muslim lands up through the post World War II era Kidd exposes American Christians anxieties about an internal Islamic threat from groups like the Nation of Islam in the 1960s and America s immigrant Muslim population today and he demonstrates why Islam has become central to evangelical end times narratives Pointing to many evangelicals unwillingness to acknowledge Islam s theological commonalities with Christianity and their continued portrayal of Islam as an evil and false religion Kidd explains why Christians themselves are ironically to blame for the failure of evangelism in the Muslim world *American Christians and Islam* is essential reading for anyone seeking to understand the causes of the mounting tensions between Christians and Muslims today **The Columbia Guide to Religion in American History** Paul Harvey, Edward Blum, 2012-02-14 Introduction major themes in American religious history Paul Harvey and Edward J Blum Colonial encounters Linford D Fisher Native American religions Suzanne Crawford O'Brien Civil religion and national identity Andrew M Manis Theology Mark Noll Evangelicals in American history Douglas A Sweeney Religion and politics Jason C Bivins Religion and the law in American history Frank S Ravitch Religion war and peace Ira R Chernus Religion gender and sexuality Anthony Michael Petro Religion race and African American life Edward J Blum Religion ethnicity and the immigrant experience Roberto R Trevi o Asian American religions Timothy Tseng Alternative religious movements in American history Stephen J Stein Religion and the environment Lynn Ross Bryant Religion and popular culture Philip Goff Religious conservatism and fundamentalism Margaret Bendroth Catholicism in America Leslie Woodcock Tentler American Judaism Alan T Levenson The Church of Jesus Christ of Latter day Saints Mormons D Michael Quinn Islam in America Jane Smith *African American Jeremiad* Rev David Howard-Pitney, 2009-09-02 An enduring verbal tradition links African American leaders from Frederick Douglass to Malcolm X to Alan Keyes **The debate on black civil**

J. Cressler, 2017-11-14 Chicago has been known as the Black Metropolis But before the Great Migration Chicago could have been called the Catholic Metropolis with its skyline defined by parish spires as well as by industrial smoke stacks and skyscrapers This book uncovers the intersection of the two Authentically Black and Truly Catholic traces the developments within the church in Chicago to show how Black Catholic activists in the 1960s and 1970s made Black Catholicism as we know it today The sweep of the Great Migration brought many Black migrants face to face with white missionaries for the first time and transformed the religious landscape of the urban North The hopes migrants had for their new home met with the desires of missionaries to convert entire neighborhoods Missionaries and migrants forged fraught relationships with one another and tens of thousands of Black men and women became Catholic in the middle decades of the twentieth century as a result These Black Catholic converts saved failing parishes by embracing relationships and ritual life that distinguished them from the evangelical churches proliferating around them They praised the quiet dignity of the Latin Mass while distancing themselves from the gospel choirs altar calls and shouts of amen increasingly common in Black evangelical churches Their unique rituals and relationships came under intense scrutiny in the late 1960s when a growing group of Black Catholic activists sparked a revolution in U S Catholicism Religious Myths and Visions of America Christopher Buck, 2009-04-30 At the heart of American studies is the idea of America itself Here Buck looks at the religious significance of America by examining those religions that have attached some kind of spiritual meaning to America The author explores how American Protestantism and nine minority faiths have projected America into the mainstream of world history by defining and by redefining America s world role Surveying the religious myths and visions of America of ten religions Buck shows how minority faiths have redefined America s sense of national purpose This book invites serious reflection on what it means to be an American particularly from a religious perspective Religious myths of America are thought orienting narratives that serve as vehicles of spiritual and social truths about the United States itself Religious visions of America are action oriented agendas that articulate the goals to which America should aspire and the role it should play in the community of nations Buck examines the distinctive perspectives held by ten religious traditions that inform and expand on the notion of America and its place in the world He covers Native American Protestant Catholic Jewish Mormon Christian Identity Black Muslim Islamic Buddhist and Baha i beliefs and invites serious reflection on what it means to be an American particularly from a religious perspective Aboriginal Black Power and the Rise of the Australian Black Panther Party, 1967-1972 Alyssa L. Trometter, 2022-01-01 Examining transnational ties between the USA and Australia this book explores the rise of the Aboriginal Black Power Movement in the 1960s and early 1970s Aboriginal adaptation of the American Black Power movement paved the way for future forms of radical Aboriginal resistance including the eventual emergence of the Australian Black Panther Party Through analysis of archival material including untouched government records previously unexamined newspapers and interviews conducted with both Australian and American activists this book investigates the complex and

varied process of developing the Black Power movement in a uniquely Australian context Providing a social and political account of Australian activism across Victoria New South Wales and Queensland the author illustrates the fragmentation of Aboriginal Black Power marked by its different leaders protests and propaganda 1998 Massimo Mastrogregori,2013-05-08 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times The works are arranged systematically according to period region or historical discipline and within this classification alphabetically The bibliography contains a geographical index and indexes of persons and authors The Trouble with Saul Madeline Ruth Walker,2011-08-16 Examining autobiographical texts by Malcolm X The Autobiography of Malcolm X Oscar Zeta Acosta The Autobiography of a Brown Buffalo and Revolt of the Cockroach People Amiri Baraka The Autobiography of LeRoi Jones and Richard Rodriguez Hunger for Memory Days of Obligation and Brown Walker questions the often rosy views and simplistic binary conceptions of religious conversion Her reading of these texts takes into account the conflict and serial changes the authors experience in a society that marginalizes them the manner in which religious conversion offers ethnic Americans salvation through cultural assimilation or cultural nationalism and what conversion anticonversion and deconversion narratives tell us about the problematic effects of religion that often go unremarked because of a code of special respect and political correctness Walker asserts that critics have been too willing to praise religion in America as salutary or beyond the ken of criticism because religious belief is seen as belonging to an untouchable arena of cultural identity The Trouble with Saul goes beyond traditional literary criticism to pay close attention to the social phenomena that underlie religious conversion narratives and considers the potentially negative effects of religious conversion something that has been likewise neglected by scholars **The Nation of Islam** Steven Tsoukalas,2021-05-16 The Nation of Islam promises African Americans a new identity and purpose But can it deliver In this intriguing study Steven Tsoukalas helps us understand the struggle history and theology behind black nationalism so that we may respond with compassion and truth **Black Citizenship and Authenticity in the Civil Rights Movement** Randolph Hohle,2013 This book explains the emergence of two competing forms of black political representation that transformed the objectives and meanings of local action created boundaries between national and local struggles for racial equality and prompted a white response to the civil rights movement that set the stage for the neoliberal turn in US policy Randolph Hohle questions some of the most basic assumptions about the civil rights movement including the importance of non violence and the movement s legacy on contemporary black politics Non violence was the effect of the movement s emphasis on racially non threatening good black citizens that when contrasted to bad white responses of southern whites severed the relationship between whiteness and good citizenship Although the civil rights movement secured new legislative gains and influenced all subsequent social movements pressure to be good black

citizens and the subsequent marginalization of black authenticity have internally polarized and paralyzed contemporary black struggles This book is the first systematic analysis of the civil rights movement that considers the importance of authenticity the body and ethics in political struggles It bridges the gap between the study of race politics and social movement studies

Rewriting Exodus Anna Hartnell, 2011-05-06 Exodus as a powerful narrative of liberation has been a central imaginative touchstone in the black American struggle against US racism This book traces the concept in a number of pivotal black thinkers and explores its significance for contemporary America The exodus story is a fitting allegory for the painful experience of exile that disproportionately afflicted African Americans in the aftermath of Hurricane Katrina and it also provides compelling imagery for the triumphant election of Barack Obama in 2008 Building around these themes Anna Hartnell traces the intellectual development of one of the defining narratives of black American thinking on social justice in the United States In placing black America at the centre of the study of US culture Rewriting Exodus suggests new ways of thinking about America s relationship with the Middle East and the wider postcolonial world Hartnell s groundbreaking contribution marks a vital new chapter in American cultural and political history
