Modernity Christianity Estranged Child Reconstructed:

Apostolicity Then and Now John J. Burkhard, 2015-05-15 Apostolicity Then and Now explores apostolicity from its origin to today Apostolicity is a fundamental mark of the church referring to Jesus faith given to carried on and taught unaltered by a continuous line of apostles This book primarily focuses on how apostolicity pertains to the church as a whole and views apostolic succession in light of how apostolicity is applicable to the church Scriptural historical theological and ecumenical contexts provide a thorough study that includes worldviews and their impact on apostolicity Chapters are Who Were the Apostles Why the Early Churches Understood Themselves as Apostolic Apostolicity in History Apostolicity and the Theologians Apostolicity and the Classical and Modern Worldviews Apostolicity in a Postmodern World Apostolicity in Ecumenical Dialogue and Apostolicity in an Ecumenical Church

Trajectory of the 21st Century Lawrence J. Terlizzese, 2009-01-10 Trajectory of the Twenty first Century explores what many prophets of the twentieth century such as Oswald Spengler Paul Tillich Aldous Huxley Jacques Ellul and others have predicted would transpire in the current century Their vision included an out of control technological system and a return to religious sentiment that will ultimately undermine the system to which it is reacting This book aims to accurately present their positions and draw certain logical conclusions from them that pertain to the course of history in our time The book s theme argues that modernity is a secularized version of millennial Christianity which reaches its fullest development in the twenty first century and will regress into what Russian philosopher Nicholas Berdyaev called the new Middle Ages or a new religious period This will mean the twilight of modern technological society as its values of rationalism give way to a post-rationalist society Ironically decline will come through further technological advance Omnicide threatens through religious world war driven by transcendent values and modern weaponry Jihadist thinking and posthumanist technology both establish the omnicidal mentality New technologies such as genetic engineering and artificial intelligence created under millennial inspiration to reach for immortality could potentially bring an end to the human species either through a slow steady obsolescence or through environmental catastrophe The titanic forces of technological progress and regress are on a direct collision course in the twenty first century

Modernity John Thornhill, 2000 Modern Western culture is in crisis Advocates of the emerging postmodernist outlook argue that modernity s project is flawed and should be abandoned This volume by John Thornhill challenges the postmodern critique arguing that modernity rightly reconceived retains the rational force to carry us into the next century Drawing on the views of contemporary thinkers calling for a reappraisal of modernity s dominant assumptions Thornhill questions the view that the spirit of modernity is incompatible with Christian ideals and shows how the two can provide the cultural foundation we need as we enter the twenty first century

Re-visioning the Church Neil Ormerod, 2014 According to longstanding tradition theology can be thought of as faith seeking understanding

Ecclesiology then seeks to understand the theological reality we call church. Re-Visioning the Church, the outcome of nearly two decades of research and writing towards constructing a systematic historical ecclesiology, applies a social scientific and historical outlook to the story of the emergence, development, and ongoing mission and ministry of the church. Establishing a critical framework for understanding the structures of the church, the work is a wide-scale exploration of the religious, cultural, and social dimensions of what it means to be the church and what structures and ministries form the fundamental parts of ecclesial life in its relationship to the kingdom. The heart of the project is a detailed account of the history, development, and change across the centuries of the church that takes the story from the apostolic band of witnesses to the dramatic global event of the Second Vatican Council.

Churches and the Crisis of Decline (Ministry in a Secular Age Book #4) Andrew Root, 2022-03-01. Named One of Fifteen Important Theology Books of 2022. Englewood Review of Books.

Congregations often seek to combat the crisis of decline by using innovation to produce new resources. But leading practical theologian Andrew Root shows that the church's crisis is not in the loss of resources; it's in the loss of life, and that life can only return when we remain open to God's encountering presence. This book addresses the practical form the church must take in a secular age. Root uses two stories to frame the book: one about a church whose building becomes a pub and the other about Karl Barth. Root argues that Barth should be understood as a pastor with a deep practical theology that can help church leaders today. *Churches and the Crisis of Decline* pushes the church to be a waiting community that recognizes that the only way for it to find life is to stop seeing the church as the star of its own story. Instead of resisting decline, congregations must remain open to divine action. Root offers a rich vision for the church's future that moves away from an obsession with relevance and resources and toward the living God. This is the fourth book in Root's *Ministry in a Secular Age* series.

ThirdWay, 2000-07. Monthly current affairs magazine from a Christian perspective with a focus on politics, society, economics, and culture.

Margins Felix Wilfred, 2008.

Risking the Church Richard Lennan, 2004-10-14. As a consequence of numerous social and theological movements over the last few decades, the Roman Catholic Church finds itself in a situation that some have described as a state of peril. This book traces the emergence of that peril, develops a systematic ecclesiology that identifies both the mission and resources of the Church in the present day, and explores possible responses to some of the specific challenges facing the contemporary Church. The book develops an understanding of the Catholic tradition in order to highlight its potential for development.

Above All Earthly Powers David F. Wells, 2006-08. In this prophetic call to the evangelical church, Wells stresses that Christians need to confess Christ as the center in a society lacking a center as the sovereign in a world seemingly ruled by chance and as the one who can give meaning in a nihilistic culture.

SCM Core Text: Religion and Modern Thought Victoria Harrison, 2013-01-03. Written specifically for level 2 undergraduates, this textbook introduces readers to the extremely wide range of forms of religious thought and the responses of religion to modern ideas, cultural phenomenon, and events of the 20th century.

Before Truth Jeremy Wilkins, 2018. It's

frequently said that we live in a post truth age That obviously can t be true but it does name a real problem on our hands Getting things right is hard especially if they re complicated It takes preparation diligence and honesty Wisdom according to Thomas Aquinas is the quality of right judgment This book is about the problem of becoming wise the problem before truth It is about that problem particularly as it comes up for religious philosophical and theological truth claims Before Truth Lonergan Aquinas and the Problem of Wisdom proposes that Bernard Lonergan s approach to these problems can help us become wise One of the special problems facing Christian believers today is our awareness of how much our tradition has developed This development has occurred along a path shot through with contingencies Theologians have to be able to articulate how and why doctrines institutions and practices that have developed and are still developing should nevertheless be worthy of our assent and devotion Religion and Modern Thought Victoria S. Harrison,2007 Written specifically for level 2 undergraduates this textbook introduces readers to the extremely wide range of forms of religious thought and the responses of religion to modern ideas cultural phenomenon and events of the 20th century *Mothership Connections* Theodore Walker Jr.,2012-02-01 Bringing a black Atlantic approach to constructive postmodern efforts to understand and transcend modern worldviews and modern world orders Mothership Connections draws upon the work of scholars in the tradition of W E B Du Bois Charles H Long Alfred North Whitehead and Charles Hartshorne The author shows that connections to the originating influences of transatlantic slavery and black Atlantic experiences are essential to any adequate account of modernity and postmodernity He also argues that metaphysics is essential to theology and moral theory synthesizing neoclassical metaphysics and black theology to develop a black Atlantic account of metaphysical aspects of struggle power and ethical deliberation **The Presence of God in the World** Steven G. Dr. Colin J. D. Greene,2015-10-14 Christology defines the very heart of the Christian faith Traditionally the study of the person and work of Christ has been understood largely as an exercise in biblical exegesis or historical and doctrinal analysis Rarely if ever has Christology focused on the changing cultural paradigms that have deeply influenced the development of human knowledge

and self understanding This unique volume by Colin Greene reverses that trend and in line with developments in modern cultural theory explores the interlaces between successive cultural contexts and the story of Jesus to which the Scriptures bear witness Starting with an examination of the three main Christological trajectories that have dominated the history of Christology cosmological Christology political Christology and anthropological Christology Greene proceeds to concentrate on the subtle and complex linkages between Christology and the sociopolitical paradigms that have bolstered the epistemological assumptions of modernity Greene s wide ranging study closes with a creative exploration into how Christology might once again provide us with a Christ centered vision of reality

The Revelation Worldview Jon K. Newton,2015-02-06 Does Christianity have anything useful or credible to say to the twenty first century or is it just a relic of a past era doomed eventually to die a long and painful death perhaps to be replaced by the new atheism or another religion In an original contribution to such debates *The Revelation Worldview* is a bold attempt to construct a biblically based Christian worldview that makes sense to postmodern people It also seeks to make the book of Revelation one of the most strange and difficult books in the Bible relevant to issues facing people in the twenty first century Jon K Newton wrestles with the complex notion of worldview tells the story of the changing Western worldview from its ancient and medieval beginnings through the modern era and into the unpredictable world of postmodernism and compares the worldview found in Revelation with other worldviews of its day He then uses Revelation as a source for identifying some basic Christian answers to questions such as What is real How do we know anything How can religious knowledge claims be justified How can we understand the concept of the human person How can we make sense of history And how should we respond to pluralism
