Religion and the Conduct of War, C. 300-1215 David S. Bachrach, 2003 An analysis of the dynamic interpenetration of religion and war in the West from the fourth to the 13th centuries Religion and the Conduct of War, C. 300-1215 David S. Bachrach, 2003 *Medieval Weapons* Robert D. Smith, Kelly DeVries, 2007-04-20 This fascinating reference covers the weapons and armor used by warriors from the 4th to the 15th century and discusses how and why they changed over time In the Middle Ages the lack of standardized weapons meant that one warrior's arms were often quite different from another's even when they were fighting on the same side And with few major technological advances in that period the evolution of those weapons over the centuries was incremental But evolve they ultimately did bringing arms armor and siege weapons to the threshold of the modern era From the fall of the Roman Empire to the beginnings of the Renaissance *Medieval Weapons An Illustrated History of Their Impact* covers the inexorable transformation from warrior in the mail shirt to fully armored knight from the days of spears and swords to the large scale adoption of the handgun *Medieval Weapons* covers this fascinating expanse of centuries in chapters devoted to the early medieval Carolingian Crusade and late medieval periods Within each period the book details how weapons and armor were developed what weapons were used for different types of battles and how weapons and armor both influenced and were influenced by changing tactics in battles and sieges *The Carolingian World* Marios Costambeys, Matthew Innes, Simon MacLean, 2011-05-12 A comprehensive and accessible survey of the great Carolingian empire which dominated western Europe in the eighth and ninth centuries Encountering Islam on the First Crusade Nicholas Morton, 2016-07-14 The First Crusade 1095-9 has often been characterised as a head to head confrontation between the forces of Christianity and Islam For many it is the campaign that created a lasting rupture between these two faiths Nevertheless is such a characterisation borne out by the sources Engagingly written and supported by a wealth of evidence *Encountering Islam on the First Crusade* offers a major reinterpretation of the crusaders attitudes towards the Arabic and Turkic peoples they encountered on their journey to Jerusalem Nicholas Morton considers how they interpreted the new peoples civilizations and landscapes they encountered sights for which their former lives in Western Christendom had provided little preparation Morton offers a varied picture of cross cultural relations depicting the Near East as an arena in which multiple protagonists were pitted against each other Some were fighting for supremacy others for their religion and many simply for survival *Prowess, Piety, and Public Order in Medieval Society*, 2017-03-06 Richard Kaeuper's career has examined three salient concerns of medieval society knightly prowess and violence lay and religious piety and public order and government most directly in three of his monographs *War Justice and Public Order* Oxford 1988 *Chivalry and Violence in Medieval Europe* Oxford 1999 and *Holy Warriors* Penn 2009 Kaeuper approaches historical questions with an eye towards illuminating the inherent complexities in human ideas and ideals and he has worked to untangle the various threads holding together cultural constructs such as chivalry licit violence and lay piety The present festschrift in his honor

Writing the Military History of Pre-Crusade Europe David S. Bachrach, Bernard S. Bachrach, 2020-12-29 Writing the Military History of Pre Crusade Europe brings together fourteen articles by eminent historians David S Bachrach and Bernard S Bachrach Crucial to the writing of medieval military history is a thorough understanding of the strengths and weaknesses of the available source materials Just as important is a broad conception of the range of sources which scholars can draw upon to ask and answer questions about the organization and conduct of war The studies collected in this volume

provide insights regarding many of the most important narrative works from pre Crusade Europe with a particular emphasis on the ways in which they can be used to write military history as well as the pitfalls facing historians who read these texts transparently without regard for the authors various *parti pris* and limitations In addition to their treatment of narrative works several of the studies in this volume highlight the importance of treating historiographical texts within the broader range of source materials that illuminate the conduct and organization of war in pre crusade Europe particularly material sources developed through excavations as well as contemporary images most prominently the Bayeux Tapestry The book will appeal to scholars and students of medieval history as well as those interested in military history CS1097 [Penance in Medieval Europe, 600-1200](#) Rob Meens,2014-07-17 An up to date overview of the functions and contexts of penance in medieval Europe revealing the latest research and interpretations *Remembering the Crusades and Crusading* Megan Cassidy-Welch,2016-11-03 Remembering the Crusades and Crusading examines the diverse contexts in which crusading was memorialised and commemorated in the medieval world and beyond The collection not only shows how the crusades were commemorated in the twelfth and thirteenth centuries but also considers the longer term remembrance of the crusades into the modern era This collection is divided into three sections the first of which deals with the textual material and visual sources used to remember Each contributor introduces a particular body of source material and presents case studies using those sources in their own research The second section contains four chapters examining specific communities active in commemorating the crusades including religious communities family groups and royal courts Finally the third section examines the cultural memory of crusading in the Byzantine Iberian and Baltic regions beyond the early years as well as the trajectory of crusading memory in the Muslim Middle East This book draws together and extends the current debates in the history of the crusades and the history of memory and in so doing offers a fresh synthesis of material in both fields It will be essential reading for students of the crusades and memory **In This Modern Age** Courtney M. Booker,Anne A. Latowsky,2023-02-01 In This Modern Age Medieval Studies in Honor of Paul Edward Dutton is a collection of fourteen essays by scholars of the Carolingian era specializing in history art history and literature The volume is divided into five sections which treat early medieval Latin literary and historiographical culture images and objects interpretations of natural phenomena and the subject of nostalgia Reflecting Dutton s pathbreaking work the contributions all evince the great impact of his teaching and erudition over the past thirty years since the publication of his seminal books Carolingian Civilization A Reader 1993 The Politics of Dreaming in the Carolingian Empire 1994 The Poetry and Paintings of the First Bible of Charles the Bald with Herbert L Kessler 1997 Charlemagne s Courtier The Complete Einhard 1998 Charlemagne s Mustache And Other Cultural Clusters of a Dark Age 2004 together with his many influential articles This body of highly distinctive stimulating and evocative scholarship has fundamentally transformed Carolingian studies inspiring younger scholars to enter the field and encouraging established scholars to develop it in new directions The essays in this volume individually pay

tribute to Dutton in their illumination of diverse aspects of Carolingian intellectual textual and visual culture with its famously idiosyncratic revival of Christian Roman learning aesthetics and ideas. Gathered together they offer an expression of gratitude for the risks that he took and the generosity that he has always shown.

Emotions in a Crusading Context, 1095-1291 Stephen J. Spencer, 2019. *Emotions in a Crusading Context* is the first book-length study of the emotional rhetoric of crusading. It investigates the ways in which a number of emotions and affective displays—primarily fear, anger, and weeping—were understood, represented, and utilised in twelfth and thirteenth-century western narratives of the crusades, making use of a broad range of comparative material to gauge the distinctiveness of those texts: crusader letters, papal encyclicals, model sermons, chansons de geste lyrics, and an array of theological and philosophical treatises. In addition to charting continuities and changes over time in the emotional landscape of crusading, this study identifies the underlying influences which shaped how medieval authors represented and used emotions, analyzes the passions crusade participants were expected to embrace and reject, and assesses whether the idea of crusading created a profoundly new set of attitudes towards emotions. *Emotions in a Crusading Context* calls on scholars of the crusades to reject the traditional methodological approach of taking the emotional descriptions embedded within historical narratives as straightforward reflections of protagonists' lived feelings, and in so doing challenges the long historiographical tradition of reconstructing participants' beliefs and experiences from these texts. Within the history of emotions, Stephen J. Spencer demonstrates that despite the ongoing drive to develop new methodologies for studying the emotional standards of the past typified by experiments in neurohistory, the social constructionist or cultural historical approach still has much to offer the historian of medieval emotions.

The Uses of the Bible in Crusader Sources, 2017-05-22. *The Uses of the Bible in Crusader Sources* sets out to understand the ideology and spirituality of crusading by exploring the biblical imagery and exegetical interpretations which formed its philosophical basis. Medieval authors frequently drew upon scripture when seeking to justify praise or censure the deeds of crusading warriors on many frontiers. After all, as the fundamental written manifestation of God's will for mankind, the Bible was the ultimate authority for contemporary writers when advancing their ideas and framing their world view. This volume explores a broad spectrum of biblically derived themes surrounding crusading and, by doing so, seeks to better comprehend a thought world in which lethal violence could be deemed justifiable according to Christian theology. The Field of Blood Nicholas Morton, 2018-02-20. A history of the 1119 Battle of the Field of Blood, which decisively halted the momentum gained during the First Crusade and decided the fate of the Crusader states. During the First Crusade, Frankish armies swept across the Middle East, capturing major cities and setting up the Crusader States in the Levant. A sustained Western conquest of the region appeared utterly inevitable. Why

then did the crusades ultimately fail To answer this question historian Nicholas Morton focuses on a period of bitter conflict between the Franks and their Turkish enemies when both factions were locked in a struggle for supremacy over the city of Aleppo For the Franks Aleppo was key to securing dominance over the entire region For the Turks this was nothing less than a battle for survival without Aleppo they would have little hope of ever repelling the European invaders This conflict came to a head at the Battle of the Field of Blood in 1199 and the face of the Middle East was forever changed *The Virgin of Chartres* Margot Elsbeth Fassler,2010-01-01 Medieval Christians knew the past primarily through what they saw and heard History was reenacted every year in ritual observances particular to each place and region and rooted in the legends of local saints This richly illustrated book explores the layers of history found in the cult of the Virgin of Chartres as it developed in the eleventh and twelfth centuries Focusing on the major relic of Chartres Cathedral the Virgin's gown and the Feast of Mary's Nativity Margot Fassler employs a wide range of historical evidence including local histories letters obituaries chants liturgical sources and reports of miracles leading to a detailed reading of the cathedral's west facade This interdisciplinary volume will prove invaluable to historians who work in religion politics music and art but will also serve as a guidebook for all interested in the history of Chartres Cathedral **Charlemagne's Early Campaigns (768-777)** Bernard
