Thompson, 2009-08-15 In exploring the role of Catholic intellectuals in engaging science and technology in the twentieth century this book initially

provides a background context for this evolution by examining the Modernism crisis in the first chapter In order to unpack the subsequent evolution Thompson then concentrates in separate chapters on the distinctive contributions of four specific Catholic intellectuals Jacques Maritain 1882D1973 Pierre Teilhard de Chardin 1881D1955 Bernard Lonergan 1904D1984 and Thomas Merton 1915D1968 All of these intellectuals experienced some degree of official restraint in their efforts but through their distinctive intellectual trajectories they contributed to a different engagement of the Church with science and technology In the final chapters the book first reviews the changes within the institutional Church in the twentieth century toward science and technology Finally it then applies some key ideals of the four intellectuals to anneal and extend John Paul II s approach of critical openness to suggest how the Church can now engage science and technology *Evangelicals and Science in Historical Perspective* David N. Livingstone,Darryl G. Hart,Mark A. Noll,1999 Comprising papers by such distinguished scholars as John Headley Brooke James R Moore Ronald Numbers and George Marsden this collection shows that questions of science have been central to evangelical history in the United States as well as in Britain and Canada

The Routledge Companion to Theism Charles Taliaferro, Victoria S. Harrison, Stewart Goetz, 2013 There are deep and pervasive disagreements today in universities and colleges and popular culture in general over the credibility and value of belief in God This has given rise to an urgent need for a balanced comprehensive accessible resource book that can inform the public and scholarly debate over theism While scholars with as diverse interests as Daniel Dennett Terry Eagleton Richard Dawkins Jürgen Habermas and Rowan Williams have recently contributed books to this debate theism as a concept remains poorly understood and requires a more thorough and systematic analysis than it has so far received in any single volume The Routledge Companion to Theism addresses this need by investigating theism's history as well as its relationship to inquiry in the sciences social sciences and humanities and to its wider cultural contexts The contents are not confined within the philosophy of religion or even within the more expansive borders of philosophy Rather The Routledge Companion to Theism investigates its subject through the lens of a wide variety of disciplines and explores the ramifications of theism considered as a way of life as well as an intellectual conviction The five parts of the volume indicate its inclusive scope I What is Theism II Theism and Inquiry III Theism and the Socio Political Realm IV Theism and Culture V Theism as a Way of Life

The result is a well ordered and thorough collection that should provide a wide spectrum of readers with a better understanding of a subject that is much discussed but frequently misunderstood As the editors note in their Introduction while stimulating and informing the contemporary debate a key aim of the volume is to open new avenues of inquiry into theism and thereby to encourage further research into this vital topic Comprised of 54 essays by leading scholars in philosophy history theology religious studies political science education and sociology The Routledge Companion to Theism promises to be the most useful comprehensive resource on an emerging subject of interest for students and scholars New Developments in the Theory of the Historical Process ,2022-04-04 The first part of this book contains a selection of Leszek Nowak's 1943 2009 works on non Marxian historical materialism which are published here in English for the first time In these papers Nowak constructs a dynamic model of religious community reconstructs historiosophical assumptions of liberalism and considers the methodological status of prognosis of totalitarization of capitalist society In the second part of the book new contributions to non Marxian historical materialism are presented Their authors analyze mechanisms of the oligarchization of liberal democracy the democratization of real socialism and the development of early modern Ottoman and post war Chinese societies **The Encyclopaedia Britannica** Thomas Spencer Baynes,1888 **Mind. A Quarterly Review of Psychology and Philosophy** Anonymous,2024-06-25 Reprint of the original first published in 1884 How to be Critically Open-Minded: A Psychological and Historical Analysis J. Lambie,2014-08-13 In a lively and subversive analysis psychologist John Lambie explains how to see another person's point of view while remaining critical in other words how to be critically open minded Using entertaining examples from history and psychology Lambie explores the implications of critical open mindedness for scientific and moral progress **Encyclopaedia of Religion and Ethics** James Hastings,John Alexander Selbie,Louis Herbert Gray,1922 **The Quest of the Historical Jesus** Albert Schweitzer,1910 **Protestant Theology and Modernity in the Nineteenth-Century Netherlands** Arie L.
