Religion Civility The Primacy Of Conscience:

Religion and Civility Sylvester L. Steffen, 2011-11-30 RELIGION CIVILITY The Primacy of Conscience the third book of the breakthrough Second Enlightenment Trilogy reveals trial and error failures and successes of past and present civilizations Man inherits from nature hard won intelligence cortical consciousness to learn from errors of irreligion and incivility Though more painful error is sometimes the most convincing teacher What Self-Donation Is Sylvester L. Steffen, 2010-07 About Uninformed Conscience John F Kavanaugh S J says If a nation or church forms its people to accept assertions blindly without supporting evidence it will form a community not of moral agents but of menaces They may be sincere but they will be sincere menaces AMERICA June 21 28 2010 pg 9 Conscience speaks to the meaning of Eucharist If we buy in to the Eucharistic Theology of the Cosmic Christ we must be open to the vital coinage of death The multiplication of many from one is the miracle of divine human hypostasis the miracle of the largesse of symbiotic life The amplification of life speaks to the truth that less is more that unless the seed dies there is no flourishing and amplification of life Individuality resources multiplicity even as multiplicity resources individuality spirituality is resurrection consciousness the energy of prevision and provision that does not die but transforms and transfers into multiplicity Resurrection is the consciousness of self reflective vitality About Eucharist right as grain says it best It is in dying that we live it is in giving that we receive that we become one with Other the personal oneness of Eucharist in the Cosmic Christ Wisdom is Eucharistic consciousness the intentional embrace of transformation In mindfulness we become the good seed that greens the greater abundance of life The greening of life from the dying seed informs the adage better to give than receive And so must be our individual relationship with each other and nature What Self Donation Is is about living the fulfilled abundant life of informed conscience not by blind submission to cultural death as imposed by worldview blindness of staticism and centrism Faith in absolutism is blind openness to evolution is visionary Absolutism misinforms conscience and cultures premature death transformation informs and matures open life Quantum Religion Sylvester L. Steffen, 2011-11-30 QUANTUM RELIGION Enlarging from the Inside Out These times are scary but also hope filled scary because of degraded nature but hope filled because global religion is coming to new self understanding In a word religion means relationship good news is experienced in relationships Life itself is good news because it has built in intelligence that can avoid hurtful relationships and can choose sustainable relationships instead Global relationship religion is waking up to the tragic misdirection of imperial top down control in contrast to the ordered direction of organic life growing and enlarging from within Growing from the inside out happens incrementally with experience a little bit at a time But the good news is that consciousness of experience the ground of faith is cumulative by trial and error and reveals what is sustainable and what is not Organic relationships originated minutely but have grown to the point of being self reflective in the human person Essential to growth is change as experience has shown But political forces of self interest compete to create self serving webs of relationships that intend to dominate and control

The monopoly control of Christian churches has been centered in Rome under pope kings The violence of imperial overreach came to a head in medieval times and the weight of oppression so heavy at that time drove people to rebel and demand change Denominational Christianity today is made up of reform factions of original Roman Catholicism In the present time the coming apart of imperial Roman Catholicism is happening with the resignation of Emeritus Pope Benedict XVI and with the election of Pope Francis I For the first time in the history of the Roman Catholic Church it is opening up to the organic nature of life including humankind and the incremental nature of relationships growing bit by bit from within not from the top down Cosmic nature informs all relationships with the possibility and necessity of continuity and holding together from within The mentality of dominion culture underlies the waste of nature by colonial overreach and corporate capitalism The consciousness of love grounds in the universal understandings of common wellbeing and expands in the incremental growth of complexity consciousness The affirming harmony of intentional relationships is the good news of personal social wellbeing and the condition of an uplifting and sustainable future The personal search for self identity takes on new meaning in light of understanding religion as common organic relatedness in Cosmic Earth evolution The possibility of religions coming together on grounds of universal understandings is real given the wide open potentials of communication and the continuity of diverse life inside the webs of organic evolution Beyond the benefits of the personal uplift of consciousness QUANTUM RELIGION provides cohesive insights for bringing communities to a higher sense of religion and civility and the necessary sensitivity that secures natural ecologies for future wellbeing QUANTUM RELIGION is the good news of rising consciousness

Green Religion Sylvester L Steffen,2010-09-03 Deep heart cosmic communication radiates truths of relationships in common and the fact that common ground is wave particle pulsation sustaining and transforming all at the same time The light of the world is wave particle electromagnetic photon We are the shining self understanding of the cosmos the scintillating light of Divine Instance in nature Shine on Shine on Oh Cosmic Christ The common anointing of universal priesthood is the Christic consciousness of universal transformation Green religion is the essential consciousness of existence in common and the human distinction of self aware purpose in transformation and in the fleeting reality of individual existence The beauty the glory this ictus in time is to be savored in the moment for all individual realization is in the moment The past is non reality the future is non reality reality is in the moment accomplishments and failures of the past project into the future The ascendant consciousness of self reflection is the conscionable responsibility of living mindfully in the moment grateful for the beauty and the glory of being a crowning achievement of the past as well as the hope for the future The cultural spectrum is nothing other than the grand evolution of the electromagnetic spectrum the ground being and becoming of life The greening of religion is about the florescence of all life always in process of self justification Conscionable living is justified living *Primary Scripture* Sylvester L. Steffen,2011-10-24 This is a helpful first reader for anyone confused by other books that seek to connect science and religion The author s essential continuity principle provides a scientific basis for

linking energy and matter earth with evolved soul and body spirit Word Unlimited Sylvester L. Steffen, 2011-11-30 Faith needs reasons muscle to exercise it Exercise strengthens faith if we would be strong if we would be holistic we would inform faith with reason and exercise both But the hyped faith of ancient religion still elevates itself above the exercise of reason and is now found wanting in strength The crisis of the time is religious intellectual because faith and reason remain poles apart WORD UNLIMITED Divinely Maternal is a one of a kind book the book end to the Evolution Trilogies by Sylvester L Steffen WORD UNLIMITED blends new physics neuroscience biological science traditional philosophy evolution theology and cultural Catholicism into a practical achievable forward looking concordance informs personal ownership awareness of Divinity Consciousness and the hoped for global convergence of religion and civility opens humankind to a future dreamed of from times past by religions and civilizations alike a cultural religious harmony for the professional and general reader alike makes accessible in common the Trimorphic Resonant Method of Evolution to The Global People means for common reconciliation [www secondenlightenment org](http://www.secondenlightenment.org) [www divinicom com](http://www.divinicom.com) [www WordUnlimited com](http://www.WordUnlimited.com) [www AuthorHouse com](http://www.AuthorHouse.com)

THE POSSIBLE JOURNEY Sylvester L Steffen, 2006-09-07 THE POSSIBLE JOURNEY is about war and peace about disharmony and harmony about hate and love about what we choose and by which we customize habits In the course of life positives and negatives get folded together in consciousness We can blindly go on and suffer the hurts of negative implications and impose them on others or we can search them out and remove them from the menu of choices Nature equips us to do this We inherit an intuitional capacity for symbiotic accommodation but also a strong inclination toward hyped egoism One is the way of love and harmony the other is the way of discord and degradation It s not about God it s about us and our personal choices to become Godlike or otherwise Natural self reflective evolution symbiosis the option of love is ours to choose Intentional symbiosis is the way of Godhead Harmony the Way of WORD LIGHT LOVE The alternative is the way of waste of personal and social degradation the trinity of ignorance arrogance greed Coming to the wisdom of faith reason by way of trimorphic resonance is an adult divine human process of consciousness something larger and beyond the pabulum of institutional religion Our choice is to continue on the way of repressive Dominion Theology imperialism and violence or to diverge and opt the way of Liberation Theology love for one another openness and intentional accommodation THE POSSIBLE JOURNEY aspires to be a lifetime guide for growth into adult faith and fulfilled living Let it be your guide to the harmonic Way of TRUTH LIGHT LOVE Uncompromised Trust fidelity to mutuality is the best option for developing the possibilities of life For the Love of God and for Peace on Earth choose intentional symbiosis choose trust choose life

Personal Spirituality Daniel J. Benor, 2006 Dr Benor addresses his explorations from the standpoint of an advocate but one who is an open minded explorer neither from a religious nor a conventional medical perspective The breadth and depth of the research reports in this volume on the psychic intuitive and spiritual aspects of healing will engage even the knowledgeable reader This book is destined to take its place among the most influential and controversial in the field of

claims reports and experiences of unconventional healing and spiritual awareness **2000 - Summary Prevision** Sylvester L. Steffen, 2010-07 Universal conscience is shocked by modern global evil in which it is complicit Vatican II was a great affair of Church reckoning of realizing the desperation of past misdirection and the need of redirection based on experience and knowledge in the present a matter as important as can be Constitution IV Introduction 5 Gaudium et spes The Second Vatican Council 2000 Summary Prevision challenges the culture of misplaced confidence in medieval faith hubris fideism which glares in the destructive overreach of patriarchal imperialism s ignorance and arrogance In the expanding cosmos all energy all substance all truth is distributive Truth like light is everywhere possessed in everythingness taking part in transformational interdependency Authenticity lies in the discernment of truth in common The author here in imitation of the Middle Age Reformer Martin Luther posts his theses and corresponds directly with powers that be including his bishop and popes His hope is to wake up the mind of universal conscience inherent in individual consciousness for purposes of stimulating a global shift away from fixation in backward thinking The author proposes and introduces a redirected Syllabus of Education that puts learner and teacher in equal standing realizing that every one is and should be a learner and a teacher for his her lifetime The book is in three parts that correlate to each other even as communication consciousness and conscience correlate with each other *Liberal Suppression* Philip Hamburger, 2018-04-09 In the course of exempting religious educational and charitable organizations from federal income tax section 501 c 3 of the Internal Revenue Code requires them to refrain from campaign speech and much speech to influence legislation These speech restrictions have seemed merely technical adjustments which prevent the political use of a tax subsidy But the cultural and legal realities are more disturbing Tracing the history of American liberalism including theological liberalism and its expression in nativism Hamburger shows the centrality of turbulent popular anxieties about the Catholic Church and other potentially orthodox institutions He argues persuasively that such theopolitical fears about the political speech of churches and related organizations underlay the adoption in 1934 and 1954 of section 501 c 3 s speech limits He thereby shows that the speech restrictions have been part of a broad majority assault on minority rights and that they are grossly unconstitutional Along the way Hamburger explores the role of the Ku Klux Klan and other nativist organizations the development of American theology and the cultural foundations of liberal democratic political theory He also traces important legal developments such as the specialization of speech rights and the use of law to homogenize beliefs Ultimately he examines a wide range of contemporary speech restrictions and the growing shallowness of public life in America His account is an unflinching look at the complex history of American liberalism and at the implications for speech the diversity of belief and the nation s future
